techniques After reading this book you will fully understand how to write strong bullets and why every word matters In 2003 the author created a seminar to teach a fair and consistent process to evaluate recognition packages This seminar transformed an entire organization within six months Since then the techniques have decisively transformed the writing recognition and promotions of every organization applying them The practices in this book continue to positively impact the Air Force and sister services through professional military education In addition the concepts have helped transitioning service members and college students better communicate acquired capabilities and competencies on their resumes Read on to discover the magic and open your eyes to a brand new way to look at writing The US Air Force promotion system emphasizes the importance of documenting your very best accomplishments Under this system promotion comes from the most recent performance reports so Airmen must communicate the best accomplishments and not just words that fill the white space This Magic of Bullet Writing will ensure you know how to articulate not just what you are doing but also convey your strongest competencies and capabilities so the promotion board can fully assess your readiness for promotion Training materials that correspond to the lessons in this book are available for free download at <http://www.brownbaglessons.com> Are you ready for the magic
