Today there are 15 million recreational vehicles, or 'RVs', on the roads of Europe, the USA and Australasia. So how did this fascinating family of vehicles come about? Who were the first recreational nomads, what made them want to take to the road just for pleasure and what did the first RVs look like?The wild ideas of RV pioneers around the world led to both streamlined successes and spectacular failures. Many rare photos of early RVs were uncovered during the research for this book and are being published for the first time. These photos shed new light on the history of the RV.The RV family is a global one, with six countries in particular having a strong RV heritage - the UK, USA, France, Germany, Australia and New Zealand.
