A Different Journey Jan 06 2023 Eric McGrann is a young man who is filled with uncertainty as he enters the adult world of college and career decisions on the cusp of the 1960s. But his twin, who had shared an almost identical life before, seems to know exactly what he wants to do in life. Watching his brothers progress only makes Eric more undecided. He is drawn to the ever-changing kaleidoscope of the world around him as he heads from his native Minneapolis to the West Coast to seek answers to questions he has not yet formed. Stopping first in Los Angeles and later San Francisco, Eric is drawn to several unique people who share their life views with him. In Los Angeles, he learns about love. Dylan's Journey Jul 12 2023 Dylan knew that the boiler was about to blow apart and that if he didn't act fast, he and the others in the pump room at the #3 mine would all die. The engine operator was panicking but had fallen in

his haste to escape a scalding death, so Dylan lifted his heavy shovel as high as his twelve-year-old arms could manage and swung it in a fast arc to the thundering machine. It may kill him, but he had to try. Even as the shovel's steel head slammed into the machine, it would set in motion a series of events that would shape his entire life.

Free to Fly Apr 21 2024 If you have ever wondered what life is all about, this is the book for you. If, like me, you have spent your life seeking answers to those imponderable questions like why does God allow so much suffering, is religion the answer, or is there something more important which isn't emphasized in church or school? Does life have to be such a struggle? Can I have any say in the matter, or is my fate already sealed? This book may well give you ideas to ponder. Whether you are a Christian or atheist, humanist or agnostic, you will discover one overriding factor which should never be ignored. We are all in this together in a way that twenty-first-century science is revealing with breathtaking speed. The quantum age is with us, offering us vistas of a new way of thinking and the potential of a new way of living. If, on the other hand, you

enjoy a tender love story, this book will not disappoint you. Suicide, murder, a bit of sleuthing also fits into the jigsaw of this story. I am not a scientist nor a mathematician.

Equations mean nothing to me, but to read of quantum mechanics is mind-boggling and joyful. To learn about the wonder and mystery of the universe and man's scientific striving to understand at breakneck speed is the gateway to cosmic awareness. This book, above all else, highlights the power within each one of us. This is the power of the mind and its manifestation in our thoughts for good or ill.

It is about all the lessons and blessings I learnt along my journey. I wanted to share this with other's so that they can get through their own journey. My book "The Journey To An Undefeated Mind" is all about the reader, it is a direct conversation or speech from the author to the reader. Guiding them through this journey, advising them, encouraging them, speaking life into them

when they feel low. Something I didn't have around me, as often as I would have liked it when I was going through my journey, my battles against mental health. I believe my book, could be a big help to many people facing mental health, whether you are facing it alone or not. It's like having a pocket size friend travel along with you. Ok maybe slightly bigger than pocket size. But you get what I mean. How often have you had to face something, and you wished you had that extra bit of help guiding you through. Enough support to help you on the right path. But not too much, so you can learn to do it yourself. This is what my book is there for. That extra bit of support. That motivator, friend that shows you your worth. Shows you that you can, and always could do it. You just had to start believing in yourself. This is what "The Journey To An Undefeated Mind" is there for. To get you to start believing in yourself again. To get you to understand, that in life, you are bound to fall, bound to fail a couple times. But you will only be defeated, if you choose to stay down, if you choose to stay defeated. Having an "Undefeated Mind" means yes in life, we may fail, we may take some L's, but we won't be defeated in life.

[A Journey on It's Own](#) Jun 18 2021 This is a Book of Poetry that mainstreams the many different challenges we face on a daily basis as a whole. Each poem is supported with a meaningful descriptions and a personal moral.

Journey by Fire Mar 08 2023 **The paperback comprises the entire story, Parts 1 and 2, which are published separately as Kindle books.** Armed with a crossbow, Mike Wade roams the dystopian USA deserts in search of his captive daughter Kara. He travels by highway, the Colorado River, and desert chaparral. Bad things tend to happen in threes: because of global warming, the West is now completely on fire. The temperature has gone up everywhere

by an average of 10 degrees F. They've lost control of the massive wildfires, which have scorched California, Nevada, Colorado, and the Southwest; the fires themselves are creeping eastward at seven miles per hour. In the chaos, an authoritarian strongman has taken over the USA, promising to make short work of both the fires and the lawlessness. Finally, power loves a vacuum, and there are rumors that invaders from overseas have landed in California. The problem for Michael Wade and his family is that his daughter Kara had been taking a year of college abroad in Mexico to specialize in Spanish. She hasn't been able to make it home, and Wade has set off from Vermont by train and on foot, with his backpack and essentials, including a crossbow, to rescue her. Along the way he joins other refugees on his treacherous journey to the Southwest, including Phoebe Tate, a funky young lady who made jewelry in the desert, Wiley James, a trucker from Wyoming who was forced to abandon his rig, and Jonesy, a riverboat captain who takes them down the Colorado River. Society has broken down; there is no broadcast news from the West anymore, just quasi El Presidente's propaganda and creepily soothing explanations for everything. Only the trains run here and there; oil production and imports have slowed to a trickle. Most people don't have fuel and the train system has been left intact to provide the regime with its necessities. Wade only knows that his last communication from Kara came from Sierra Vista in southern Arizona. He'll

have to get there by whichever way he can, by river and desert.

The reader will ultimately determine whether the stories that unfold are fiction or not. No matter what you determine, you will be caught up in the lives of A and Z as time unfolds before them. Do not take on the task of reading this book lightly for many of you will be changed forever. Though the book is laid out in verse form, it will read easily like a traditional novel. You will soon be oblivious to the form and become engrossed in the lives of the two passionate lovers. One critic wrote, "At the outset, I have to describe Epic as a wonderful piece of writing and an extraordinary reflection of broad vision by its creator. As a voracious consumer of science fiction and fantasy writing, I have never encountered this type of approach to story-telling that addresses meaningful questions about existence. The obvious historic research involved in unfolding stories across different cultures and eras is extensive and

lends an air of credibility to the stories told. The interactions between two characters who feel to me as human as me . . . an entity best described as an angel . . . offers a useful vehicle for articulating life lessons illustrated in the life stories. . ." Another reader stated, ". . . captivating . . . written with a uniqueness I have not read in another book." Bob Casey's books and writings foster one major purpose, "To provide thoughtful comments on life." This epic story continues that tradition.

Claire's Journey - Book One Apr 09 2023 A story of a young woman's journey through a life changing disaster. Sheltered and shy her whole life, she is suddenly faced not only with her own horrific challenges, but finds herself taking care of another person's life as well. Excerpt: As Claire peeked out of the door, a wisp of wind sent an old crumbled piece of paper by, startling her. It was within her reach, but she receded back into the doorway, suddenly bereft of the courage she had just a moment ago. She had felt such a strong, confident urge to go out of the door and walk away just seconds before, but the sound of that paper immediately made her mind think it was Joe, coming back early. The panic had filled her with adrenaline, and she suddenly felt weak from it. That urgent need had turned into paralyzing fear. 'It wasn't Joe, he can't be back yet. Calm down!', she encouraged herself. Words were one thing, but making her feet cross that threshold was another thing entirely. Another voice, this one inside her head, began 'It's OK Claire, you can try again tomorrow! Let's go back downstairs!'. She hated that voice, but it was the one that often brought her comfort. Claire had a two minute argument with herself before she stepped back from the door, closed it, and turned back to the stairs, back to that....place. She would never call it home. It was her hell. She reached the stair, looked back to the door to make sure she hadn't left or dropped anything that Joe would see, and then started down toward her room. She was absolutely

forbidden from coming upstairs. The last time she had, having peeked out of the door that time as well, Joe had known it from a hair tie she had dropped right by the door by accident. He had beaten her so badly that she cried all that night, and her body had ached for a week. Claire had become more brave since that day two weeks prior, but not by much. But two months with Joe was to her an eternity, and the burning desire she had to escape and see what was left of the world outside was growing every day. She went down the stairs to the one room where she was allowed to go, to look outside the window, and stared at the bridge again. She could be halfway to it by now, she told herself, with no small amount of regret. 'Tomorrow, for sure, tomorrow'. She had felt the coolness of the wind when she had opened the door, and knew the cold weather wouldn't be far away. She did not want to be traveling when the snow came. Claire could not stand to stare at the bridge any longer that day. To her it was everything, and nothing, since she couldn't bring out the courage in herself to do it. The world beyond it was uncertain, they had not seen a living soul since the wandering girl, Alyssa, over a month before. She didn't want to think about Alyssa either. For the time being, Claire needed to put away the things she had thrown into a travel bag, before Joe would come back and find it. She had been hiding some items that she would need for her escape a little at a time, in one of the many rooms in the old paper mill that was currently her home,

food and water mostly, and fussed over it each day when Joe went out 'hunting'. She didn't have any personal belongings anymore, Joe had taken all of her things, but she had managed to hide one item, a picture of her boyfriend. She had grabbed it from on top of the TV at her apartment on the way out the day of the event. Joe didn't know she had it, and thankfully she had been able to hide it. It was the only thing she had left from her old life, and she prayed and hoped that she would find her boyfriend again. That he had made it through like she had.

Internal Journey of a Writer May 30 2022

This book is a guide for those who have tried using tools and methods, no matter how great, to write their novel, only to find themselves spinning their wheels and never writing the book. Here, you will find no tools or checklists, but a clear understanding that everything you need to write your novel is

within you already . . . and that's exactly what this book will guide you in doing--writing your novel from the inside, out.

Sail Your Boat Dec 05 2022
The life we live is a real truism of cause and effect. Consequently, to succeed we need to understand the laws that govern success, which are as pervasive on us as the physical laws of gravity. 'Sail Your Boat' argues in favor of, and identifies, universal metrics of success which 'measure' our successes in life irrespective of our individual callings. The book also brings out five imperative factors of success which are derived from the metrics. In turn, these imperative factors 'generate' the hundreds of offshoot factors that many consider as the 'fundamentals'. Success is a mindset that creates principles for an objective-driven life as well as a lifestyle that guides daily actions. To succeed, we need to: 1. Clearly understand and define success itself, 2. Understand the five imperative factors of success, 3. Know the traits and counter-traits of successful people, 4. Develop the success mindset, 5. Live the success lifestyle. The book consolidates key success issues and brings out the explicable linkage between life and success as that of a journey with various destinations. 'Sail Your Boat' will be of great value to young adults striving the make sense of the direction they are taking in life. It will also clarify various issues to senior adults and help them make necessary corrections or put things in their proper perspectives. Success is a lifestyle and a

journey, and we can only live lives of success if we understand what it takes to do that.

Your Journey to Success: How to Accept the Answers You Discover Along the Way Jun 23 2024 This is a book for the person who is hungry for an answer. I know that feeling. I was stuck in it for years and as a Coach and Speaker, I have noticed there is a constant theme for us all. We have read all of the success books, we have gone to the seminars but when we go to execute their wonderful information a feeling comes up. We lay in bed and just don't "feel" like doing what they suggest even though we know it will make our life better. That "feeling" stops us from executing one or more steps they suggest we take to make our lives better. I couldn't overcome that feeling either. Here I was an alcoholic, a sex addict, sugar addict, spending addict, tobacco addict, love addict, I had gone bankrupt, been through two horrific divorces, a child custody battle, I played two professional sports I never wanted to play and I contemplated suicide. None of the books showed me or explained where that feeling comes from, why we all get it and how to overcome it. Without that information, I couldn't execute all of their wonderful suggestions. So this is my story and how I took all of that great information from all of those great success teachers, I collated it and then added to it. I discuss where that feeling comes from, why we all get it and how to overcome it. This book bridges the gap. When you have this information, this skillset to overcome that

"feeling" than you can put into place all of their incredible advice and have the personal and professional success we are all searching for.

One Woman's Journey May 10 2023 I was vaguely aware of all the meth heads and dealers in the room watching me fall apart. "Give her a shot," I heard Chulengo say to someone. I didn't know whom he was talking to or what he was talking about, and before I even tried to figure it out, a strange man knelt on the ground next to me. He grabbed my arm and told me to try to relax. I lay there lifeless, watching him and not knowing my life was getting ready to take a turn for the worst. He tightened a belt around my upper arm and closed my fist. I felt his fingers sliding up and down my arm. He pierced my skin with a sharp needle, and I saw my blood squirt back into the

tube, mixing with whatever was in there.

Slowly, he pushed the contents into my arm. My body became hot and the blood rushed to my head. I coughed so hard and felt my eyes widen and my heart beat faster. I had never felt a rush quite like this one. I had never been this high before. Every ounce of sadness and pain left my body and every tear I had left dried up. My whole world as I knew it had just changed in an instant.

Not Just a Cleaner Apr 28 2022 This book will show you how to: The benefits of long-term planning. The value of budgeting. The significance of positivity and motivation. The impact of persistence. The basics of business, management and long-term investments. The importance of friendship and family. Often I've wondered how my life would've turned out if I started out knowing even a fraction of what I know today. And this is precisely why I decided to write this book - so that you do not have to go through everything on your own. Instead, you can read about my mistakes and learn from them, without having to suffer the consequences that I did. In this book, I will tell you my success story. I'll show you what my life was like back in Bulgaria and why I chose to travel abroad. We'll go over the initial struggles of living in a foreign country, and then we'll hop right on to business and investment. Please note that this entire book is based on my experience and personal research. My business journey was one of transformation. I have grown significantly, both in the personal and

professional sense. I hope that, with this book, I can help you grow, succeed and achieve your dreams as well. All of this being said, I am still a firm believer in slow and steady changes. Just like you can't build an entire business in a day, you can't expect to change your mindset or personality overnight. So, I won't urge you to "change these ten things right away". I won't promise you "instant results". Instead, I'll give you something much, much more valuable. I'll provide you with perspective. But who am I and why do I know all of this? I am Antoaneta - a business leader, green living blogger, eco-friendly enthusiast and success mentor. Born and raised in a small and picturesque Bulgarian village, I grew up to be an honest and hardworking individual. I married young and had my daughter while still in college. However, life in Bulgaria at the time was not all sunshine and roses. The economy was in a rough spot, and, a few years after my divorce, I found myself compelled to seek a better life abroad. I arrived in London with a straightforward and realistic goal in mind - I would build a better life for myself and my daughter. I'd get a stable job, bring my daughter over, maybe even start a new relationship. However, I didn't have a solid plan. I came here with nothing but the clothes on my back and barely £500 to my name. But I wasn't ready to give up, far from it. I wanted to pull through. No, I had to pull through. And so, I got to work. I spent some time working as a bartender, a cleaner and even a babysitter.

Fast-forward a few years, and I was already working on setting up my very own business. A business that is still going strong to this day. My journey through life has been long and arduous, but along the way, I learned a great deal of things - about businesses, about myself and, most important of all - about the world at large. But here's the thing about success - the path from rags to riches is not all smooth sailing. Far from it - anyone will tell that you are guaranteed to face hundreds of problems and make quite a few mistakes. After all, that is to be expected you're learning from experience. I am not saying that this is the only way to live. Neither am I trying to tell you that this is the only path to success. I do not expect you to take my words of advice as "written in stone". Instead, I am hoping to provide you with one of the most valuable resources in the world - perspective.

The Journey from Here to There Mar 20 2024
What if we could have a map and a compass for life? What if we could navigate confidently through the tough patches that life throws at us? What if we could enjoy the journey? Life is a series of stages, of leaving one place and entering another. We leave the womb and enter into infancy; we leave infancy and enter toddlerhood, and so it continues. Until we leave where we are, we will never get to the next destination. This book is about the journey from the safe (but stifling) place called Here, to the life-giving, destiny-altering place called There. Based on Tracey Olivier's own journey, it is for

anyone who has ever dreamed of a different future - a future where they know who they are and why they were created. Acknowledging that the road in between is where the real battle lies, the book provides a map, a compass and a rucksack full of tools and anecdotes to keep you 'growing' in the right direction.
