*Lost and Found* John James Kennedy, Yaojiang Shi, 2019 In 1979 the Chinese government famously introduced The Single Child Policy to control population growth Nearly 40 years later the result is an estimated 20 million missing girls in the population from 1980 2010 In *Lost and Found* John James Kennedy and Yaojiang Shi focus on village level implementation of the one child policy and the level of mutual noncompliance between officials and rural families Through in depth interviews with rural parents and local leaders they reveal that many had strong incentives not to comply with the birth control policy because larger families meant increased labor and income In this sober exploration of China's Single Child Policy throughout the reform period the authors more broadly show how governance by grassroots cadres with greater local autonomy has affected China in the past and the challenges for resolving center versus locality contradictions in governance that lie ahead

*The Chinese Typewriter* Thomas S. Mullaney, 2018-10-09 How Chinese characters triumphed over the QWERTY keyboard and laid the foundation for China's information technology successes today Chinese writing is character based the one major world script that is neither alphabetic nor syllabic Through the years the Chinese written language encountered presumed alphabetic universalism in the form of Morse Code Braille stenography Linotype punch cards word processing and other systems developed with the Latin alphabet in mind This book is about those encounters in particular thousands of Chinese characters versus the typewriter and its QWERTY keyboard Thomas Mullaney describes a fascinating series of experiments prototypes failures and successes in the century long quest for a workable Chinese typewriter The earliest Chinese typewriters Mullaney tells us

were figments of popular imagination sensational accounts of twelve foot keyboards with 5 000 keys One of the first Chinese typewriters actually constructed was invented by a Christian missionary who organized characters by common usage but promoted the less common characters for Jesus to the common usage level Later came typewriters manufactured for use in Chinese offices and typewriting schools that turned out trained typewriter girls and typewriter boys Still later was the Double Pigeon typewriter produced by the Shanghai Calculator and Typewriter Factory the typewriter of choice under Mao Clerks and secretaries in this era experimented with alternative ways of organizing characters on their tray beds inventing an input method that was the first instance of predictive text Today after more than a century of resistance against the alphabetic not only have Chinese characters prevailed they form the linguistic substrate of the vibrant world of Chinese information technology The Chinese Typewriter not just an object history but grappling with broad questions of technological change and global communication shows how this happened A Study of the Weatherhead East Asian Institute Columbia University

Northern Girls: Life Goes On Keyi Sheng, 2012-05-23 Qian Xiaohong is born into a sleepy Hunan village where the new China rush towards development is a mere distant rumour. A buxom naïve sixteen year old she yearns to leave behind hometown scandal and joins the mass migration to the bustling boomtown of Shenzhen. There she must navigate dangerous encounters with ruthless bosses, jealous wives, sympathetic hookers and corrupt policemen as she tries to find her place in the ever evolving society. Hardship and tragedy are in no short supply as her journey takes her through a grinding succession of dead end jobs. To help her through this confusing maze Xiaohong finds solace in the close ties she makes with the other migrant girls, the community of her fellow northern girls who quickly learn to rely on each other for humour and the enjoyment of life's simple pleasures. *Sustaining Activism* Jeffrey W. Rubin, Emma Sokoloff-Rubin, 2013-02-18 In 1986 a group of young Brazilian women started a movement to secure economic rights for rural women and transform women's roles in their homes and communities. Together with activists across the country they built a new democracy in the wake of a military dictatorship. In *Sustaining Activism* Jeffrey W. Rubin and Emma Sokoloff Rubin tell the behind the scenes story of this remarkable movement. As a father daughter team they describe the challenges of ethnographic research and the way their collaboration gave them a unique window into a fiery struggle for equality. Starting in 2002 Rubin and Sokoloff Rubin traveled together to southern Brazil where they interviewed activists over the course of ten years. Their vivid descriptions of women's lives reveal the hard work of sustaining a social movement in the years after initial victories when the political way forward was no longer clear and the goal of remaking gender roles proved more difficult than activists had ever imagined. Highlighting the tensions within the movement about how best to effect change *Sustaining Activism* ultimately shows that democracies need social movements in order to improve people's lives and create a more just society.

*The Myth of Chinese Capitalism* Dexter Roberts, 2020-03-10 The untold story of how restrictive policies are preventing China from becoming the world's largest economy. Dexter Roberts lived in Beijing for two decades working as a reporter on economics, business and politics for Bloomberg Businessweek. In *The Myth of Chinese Capitalism* Roberts explores the reality behind today's financially ascendant China and pulls the curtain back on how the Chinese manufacturing machine is actually powered. biggest manufacturing base Within these two towns and the people that move between them Roberts focuses on the story of the Mo family former farmers turned migrant workers who are struggling to make a living in a fast changing country that relegates one half of its people to second class status via household registration land tenure policies and inequality in education and health care systems In *The Myth of Chinese Capitalism* Dexter Roberts brings to life the problems that China and its people face today as they attempt to overcome a divisive system that poses a serious challenge to the country's future development In so doing Roberts paints a boot on the ground cautionary picture of China for a world now held in its financial thrall Dexter Roberts is an award winning journalist and a regular commentator on the U S China trade and political relationship His prior speaking engagements include traditional news media outlets NPR Fox News CNN International as well as universities and institutes George Washington University Council on Foreign Relations and the Overseas Press Club He is available for virtual classroom visits to courses that adopt *The Myth of Chinese Capitalism* Please contact academic.macmillan.com for more information
