

## CASE STUDY TEMPLATE

### Demonstrating mentoring and befriending makes a real difference to people's lives

The national body for mentoring and befriending

### Why do we collect case studies?

To showcase the effect mentoring and befriending can have on people's lives. Be that the mentee or befriended's lives, the mentor or befriender's lives, or how the wider community as a whole benefits.

Not everyone, unfortunately, understands exactly what mentoring and befriending involve. But, having case studies to refer people to, helps to bring to life some of the roles mentors and befrienders play in people's lives. We hope that through people reading case studies it will prompt them to set up, fund or commission mentoring or befriending projects.

### What do we want from you?

We want you to fill in this case study template detailing the positive impact that your mentoring or befriending project is making. Please provide an overall picture of how your project operates, including information about one relationship – one mentee/mentor or one befriended/befriender – detailing how a person has changed as a result of it. The focus should be on the outcomes and achievements brought about through the mentoring or befriending relationship. Take a look at the 'example case study' document to guide you in filling this in. Please contact [joe.muvihill@mandbf.org](mailto:joe.muvihill@mandbf.org) for help in filling this in.

### Where will the case study be used?

The case study will appear on our website ([www.mandbf.org](http://www.mandbf.org)) and we may show it to interested parties; be they people looking to set up projects, funders and commissioners, or the media.

**The Case Study Handbook, Revised Edition** William Ellet, 2018-08-28 The guide all MBAs and executive students need. If you're enrolled in an MBA or executive education program you've probably encountered a powerful learning tool: the business case. But if you're like many people, you may find interpreting and writing about cases mystifying and time-consuming. In *The Case Study Handbook, Revised Edition*, William Ellet presents a potent new approach for efficiently analyzing, discussing, and writing about cases. Early chapters show how to classify cases according to the analytical task they require: making a decision, performing an evaluation, or diagnosing a problem, and quickly establish a base of knowledge about a case. Strategies and templates, in addition to several sample Harvard Business School cases, help you apply the author's framework. Later in the book, Ellet shows how to write persuasive case analytical essays based on the process laid out earlier. Examples of effective writing further reinforce the methods. The book also includes a chapter on how to talk about cases more effectively in class. Any current or prospective MBA or executive education student needs this guide.

**The Art and Craft of Case Writing** William Naumes, A practical, comprehensive, and multidisciplinary guide that blends an informal workshop style with solid theory and practice. **Writing Case Reports** Clifford D. Packer, Gabrielle N. Berger, Somnath Mookherjee, 2016-11-21 This book provides medical students and physicians with a practical, step-by-step guide on how to write and publish a medical case report. The case report is the traditional way for physicians to describe their unique or unusual cases to a broad audience, and it plays an important role in the discovery of new diseases or syndromes, unusual manifestations of disease, important adverse drug reactions, and the generation of hypotheses for further study. This book guides readers through the process from choosing a case to report on to finding a publisher and then comment on future directions and potential new uses of case reports, including expanded computer case databases to optimize care for individual patients and new applications in medical education. Interspersed throughout the text are example case reports, many written by the authors with commentary on their experiences working with those reports to provide context and aid readers in creating clear, concise, and useful case reports.
