Occupational Noise Exposure Department of Health and Human Services, Centers for Disease Control and Prevention, National Institute Safety and Health, 2014-02-19 In the Occupational Safety and Health Act of 1970 Congress declared that its purpose was to assure so far as possible safe and healthful working conditions for every working man and woman and to preserve our human resources In this Act the National Institute for Occupational Safety and Health NIOSH is charged with recommending occupational safety and health standards and describing exposure concentrations that are safe for various periods of employment including but not limited to concentrations at which no worker will suffer diminished health functional capacity or life expectancy as a result of his or her work experience By means of criteria documents NIOSH communicates these recommended standards to regulatory agencies including the Occupational Safety and Health Administration OSHA and to others in the occupational safety and health community Criteria documents provide the scientific basis for new occupational safety and health standards These documents generally contain a critical review of the scientific and technical information available on the prevalence of hazards the existence of safety and health risks and the adequacy of control methods In addition to transmitting these documents to the Department of Labor NIOSH also distributes them to health professionals in academic institutions industry organized labor public interest groups and other government agencies In 1972 NIOSH published Criteria for a Recommended Standard Occupational Exposure to Noise which provided the basis for a recommended standard to reduce the risk of developing permanent hearing loss as a result of occupational noise exposure NIOSH 1972 NIOSH has now evaluated the latest scientific information and has revised some of its previous recommendations The 1998 recommendations go beyond attempting to conserve hearing by focusing on preventing occupational noise induced hearing loss NIHL This criteria document reevaluates and reaffirms the recommended exposure limit REL for occupational noise exposure established by the National Institute for Occupational Safety and Health NIOSH in 1972 The REL is 85 decibels A weighted as an 8 hr time weighted average 85 dBA as an 8 hr TWA Exposures at or above this level are hazardous By incorporating the 4000 Hz audiometric frequency into the definition of hearing impairment in the risk assessment NIOSH has found an 8% excess risk of developing occupational noise induced hearing loss NIHL during a 40 year lifetime exposure at the 85 dBA REL NIOSH has also found that scientific evidence supports the use of a 3 dB exchange rate for the calculation of TWA exposures to noise The recommendations in this document go beyond attempts to conserve hearing by focusing on prevention of occupational NIHL For workers whose noise exposures equal or exceed 85 dBA NIOSH recommends a hearing loss prevention program HLPP that includes exposure assessment engineering and administrative controls proper use of hearing protectors audiometric evaluation education and motivation recordkeeping and program audits and evaluations Audiometric evaluation is an important component of an HLPP To provide early identification of workers with increasing hearing loss NIOSH has revised the criterion for significant threshold shift to an increase of 15 dB in the hearing threshold level HTL at 500 1000 2000 3000 4000 or 6000 Hz in either ear as determined by two consecutive tests To permit timely intervention and prevent further hearing losses in workers whose HTLs have increased because of occupational noise exposure NIOSH no longer recommends age correction on individual audiograms

Vietnam Studies Col Francis J. Kelly, 2016-12-10 As long ago as 1957 U S Army Special Forces soldiers were in the Republic of Vietnam going about their business of training advising and assisting members of the Vietnamese Army Despite the old Army witticism about never volunteering for anything the Special Forces soldier is in fan a double volunteer having first volunteered for airborne training and then again for Special Forces training From a very meager beginning but sustained by a strong motivation and confidence in his mission the Special Forces soldier has marched through the Vietnam struggle in superb fashion In 1957 some fifty eight Vietnamese soldiers were given military training by Special Forces troops Ten years later the Special Forces were advising and assisting over 40 000 paramilitary troops along with another 40 000 Regional Forces and Popular Forces soldiers This monograph traces the development and notes the progress problems successes and failures of a unique program undertaken by the U S Army for the first lime in its history It is hoped that all the significant lessons learned have been recorded and the many pitfalls of such a program uncovered I am responsible for the conclusions reached yet my thought processes could not escape the influence of the many outstanding officers and men in the Special Forces who joined in the struggle Particularly I must lake note of the contributions of the Special Forces noncommissioned officers without question the most competent soldiers in the world With the withdrawal of the Special Forces from Vietnam in 1971 the Army could honestly lay claim to a new dimension in ground warfare the organized employment of a paramilitary force in sustained combat against a determined enemy I know I speak for my predecessors and successors in claiming that the 5th Special Forces Group Airborne was the finest collection of professional soldiers ever assembled by the U S Army anywhere anytime Francis John Kelly Colonel Armor 1972
