The Handy Military History Answer Book Sep 12 2021 Brutality and fear. Heroism and sacrifice. Military history is a fascinating, complex, and often contradictory subject. War and fighting between tribes, clans, groups and countries has been with us forever. Great leaders, great villains, pivotal moments and events become transformative, causing political, social, and technological upheavals, which were often built on the foundation of war. The Handy Military History Answer Book is a captivating, concise, and convenient look at how the world, the United States, and the lives we lead today have been changed by war and the military. The weapons, leaders, soldiers, battles, tactics, strategies, blunders, technologies, and outcomes are all examined in this powerful primer on the military, its history—and world history. From early Greeks and Romans to Genghis Kahn and other great conquering militaries of the past, continuing on through the civil wars and world wars that shaped the boundaries of today's nations, and to the modern weapons, technologies, guerrilla warfare, and terrorism currently reported in the nightly news, this book investigates everything from the smallest miscalculations and maneuvers to the biggest invasions and battles, as well as the cutting-edge technologies and firepower that led to victories and helped change the world. The Handy Military History Answer Book looks at the who, the what, the why, and the how of conflicts throughout history. Sorry, Wrong Answer Nov 26 2022 Where were Venetian blinds invented? What color is the black box on a commercial airplane? Where did India ink originate? *Most of us know more than we think we know. We also think we know more than we actually do—because some of what we think we know simply "ain't so." We all harbor misconceptions that are accepted not only because they are popular but also because they make sense. It makes sense to believe, for example, that German chocolate originated in Germany rather than the truth: that German chocolate is so named because it was created by Sam German. It seems logical to believe that Mercury is the hottest planet because of its proximity to the sun, or that buttermilk contains butter, that Danish pastry is from Denmark, and that the boat race America's Cup was named after the United States of America. In *Sorry, Wrong Answer*, Rod Evans takes readers on a tour of misleading trivia, debunking commonly held assumptions and sharing surprising "right" answers.
