

recovering from alcohol and drug addiction. This study is the first in-depth look at the history and significance of the Lakota sweat lodge. Bringing together data culled from historical sources and fieldwork on Pine Ridge Reservation, Raymond A. Bucko provides a detailed discussion of continuity and changes in the "sweat" ritual over time. He offers convincing explanations for the longevity of the ceremony and its continuing popularity.

Blood, Sweat, and Fear May 07 2023 "Going postal. We hear the chilling phrase and think of the rogue employee who snaps. But Blood, Sweat, and Fear shows that on-the-job bloodshed never occurs in isolation. Using violence as a lens, Jeremy Milloy provides fresh insights into the everyday workings of capitalism, class conflict, race, and gender in the United States and Canada. The result is a study that reveals the workplace as a battleground--one that saw a late-century paradigm shift from the collective violence of strikes and riots to the individualized violence of assaults and shootings. Explosive and original, Blood, Sweat, and Fear brings historical perspective to contemporary debates about North American workplace violence."--Back cover

Nutritional Needs in Hot Environments Jun 15 2021 This volume examines the current state of knowledge concerning the influence of a hot environment on nutrient requirements of military personnel. A parallel concern is ensuring that performance does not decline as a result of inadequate nutrition. The committee provides a thorough review of the literature in this area and interprets the diverse data in terms of military applications. In addition to a focus on specific nutrient needs in hot climates, the committee considers factors that might change food intake patterns and therefore overall calories. Although concern for adequate nutrition for U.S. soldiers in Saudi Arabia prompted the initiation of this project, its scope includes the nutrient needs of individuals who may be actively working in both hot-dry and hot-moist climates.
