A Different Kind of Teacher Jul 19 2021 For more than a decade, former New York City and State Teacher of the Year John Taylor Gatto has been among the most insightful and outspoken critics of American schooling, and an influential visionary of the future of education. Through hundreds of public talks, articles, interviews, and classroom projects, Gatto has shown decisively where our failing schools have gone wrong and what can

be done to fix them. In *A Different Kind of Teacher*, the bestselling author of *Dumbing Us Down* has collected his most important writings of the past ten years -- reports, meditations, action plans, and jeremiads -- that will change forever the reader's understanding of how our system of education really operates, and how it can be rescued. Book jacket.

Teaching What Really Happened Jul 11 2023 “Should be in the hands of every history teacher in the country.” — Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get,

good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

What the Best College Teachers Do Nov 15 2023 What makes a great teacher great? Who are the professors students remember long after graduation? This book, the conclusion of a fifteen-year study of nearly one hundred college teachers in a wide variety of fields and universities, offers valuable answers for all educators. The short answer is—it's not what teachers do, it's what they understand. Lesson plans and lecture notes matter less than the special way teachers comprehend the subject and value human learning. Whether historians or physicists, in El Paso or St. Paul, the best teachers know

their subjects inside and out—but they also know how to engage and challenge students and to provoke impassioned responses. Most of all, they believe two things fervently: that teaching matters and that students can learn. In stories both humorous and touching, Ken Bain describes examples of ingenuity and compassion, of students' discoveries of new ideas and the depth of their own potential. *What the Best College Teachers Do* is a treasure trove of insight and inspiration for first-year teachers and seasoned educators.
