The Whale Warriors Battle At Bottom Of World To Save Planets Largest Mammals Peter Heller

The Whale Warriors Peter Heller, 2008-10-14 For two months journalist Heller was aboard the pirate ship the Farley Mowat as it stalked its prey a Japanese whaling fleet Now Heller chronicles this hair raising journey whose mission was to stop illegal whaling in the stormy remote seas off Antarctica 288

Animals and War Ryan Hediger, 2012-11-01 *Animals and War* is the first collection of essays to explore its important yet neglected topic Scholars from sociology history anthropology and literary and cultural studies investigate the presence of animals in human wars The essays analyze a wide range of phenomena including the new militarization of bees zoo animals during war war dogs Finish horses in World War II Canadian war literature and the effort to memorialize nonhuman war animals Although animals are often forced to participate in human wars their presence also signals human vulnerability and dependence Several chapters demonstrate that in the frequently horrible circumstances of war powerful sympathies nonetheless flourish between humans and animals *Animals and War* thus exposes the often paradoxical contours of human animal relationships

A Reenchanted World James William Gibson, 2009-04-14 A surprising and enlightening investigation of how modern society is making nature sacred once again For more than two centuries Western cultures as they became ever more industrialized increasingly regarded the natural world as little more than a collection of useful raw resources The folklore of powerful forest spirits and mountain demons was displaced by the practicalities of logging and strip mining the traditional rituals of hunting ceremonies gave way to the indiscriminate butchering of animals for meat markets In the famous lament of Max Weber our surroundings became disenchanted with nature s magic swept away by secularization and rationalization But now as acclaimed sociologist James William Gibson reveals in this insightful study the culture of enchantment is making an astonishing comeback From Greenpeace eco warriors to evangelical Christians preaching creation care and geneticists who speak of human animal kinship Gibson finds a remarkably broad yearning for a spiritual reconnection to nature As we grapple with increasingly dire environmental disasters he points to this cultural shift as the last utopian dream the final hope for protecting the world that all of us must live in

Darwin's Walk and The Last Wave Richard Krooth, 2017-08-30 This book describes the reasons humankind may be facing its last moments on Planet Earth Darwin marked the path of species evolution modification and extinction Following Darwin s trajectory of evolution the author reveals how human made technologies have had a devastating impact on Earth s biosphere signaling the continuing disappearance of landscapes and the decline of species life

friendship between two men the strong bond between a human and a dog and a reminder of what is worth living for Minneapolis Star Tribune His wife is gone his friends are dead and he lives in the hangar of a small abandoned airport with his dog Jasper and a mercurial gun-toting misanthrope named Bangley But when a random transmission beams through the radio of his 1956 Cessna the voice ignites a hope deep inside him that a better life exists outside their tightly controlled perimeter Risking everything he flies past his point of no return and follows its static broken trail only to find something that is both better and worse than anything he could ever hope for

Frozen Empires Adrian Howkins, 2017 Frozen Empires is a study of the ways in which imperial powers American, European, and South American have used and continue to use the environment and the value of scientific research to support their political claims in the Antarctic Peninsula region In making a case for imperial continuity this book offers a new perspective on Antarctic history and on global environmental politics more broadly

The Polar Regions Adrian Howkins, 2015-11-20 The environmental histories of the Arctic and Antarctica are characterised by contrast and contradiction These are places that have witnessed some of the worst environmental degradation in recent history But they are also the locations of some of the most farsighted measures of environmental protection They are places where people have sought to conquer nature through exploration and economic development but in many ways they remain wild and untamed They are the coldest places on Earth yet have come to occupy an important role in the science and politics of global warming Despite being located at opposite ends of the planet and being significantly different in many ways Adrian Howkins argues that the environmental histories of the Arctic and Antarctica share much in common and have often been closely connected This book also argues that the Polar Regions are strongly linked to the rest of the world both through physical processes and through intellectual and political themes As places of inherent contradiction the Polar Regions have much to contribute to the way we think about environmental history and the environment more generally

Wildlife Politics Bruce Rocheleau, 2017-03-30 Attitudes towards charismatic animals such as

tigers lions bears and wolves vary greatly and change over time resulting in bitter political debates This comprehensive book identifies and analyses the factors that influence policies across the globe highlighting how this impacts conservation as a whole Issues such as overexploitation hunting ecotourism and the struggle to prevent illegal wildlife trafficking are examined and science s role in policymaking is assessed The conflicting forces behind legislation including institutions interest groups and the media are analysed with particular focus on the significance of the Endangered Species Act covering over forty five species that have become matters of political debate in sixty seven different countries Case studies and conceptual frameworks provide a clear understanding of the key topics shedding light on this important yet often overlooked area of environmental politics

From Environmental Action to Ecoterrorism? Gerry Nagtzaam,2017-01-27 This book scrutinizes the growth of the eco terrorism movement operating on a global scale focusing on the main groups and their more radical offshoots both historically and those currently active These include Earth First the Earth Liberation Front the Animal Liberation Front and the Sea Shepherd Conservation Society It critically examines how these groups form and how they have evolved their key personnel their strategies and tactics principles motivating philosophies and attitudes to violence Specifically the book seeks to understand whether such groups inevitably evolve from activists to militants to terrorists as the literature suggests Lastly it considers the future of such groups asking whether they will become more prominent as more people become ecologically aware and as global environmental conditions deteriorate or whether such groups have peaked as a force for environmental change

Oceania Adam Fish,2024-01-19 Drones are revolutionizing ocean conservation By flying closer and seeing more drones enhance intimate contact between ocean scientists and activists and marine life In the process new dependencies between nature technology and humans emerge and a paradox becomes apparent Can we have a wild ocean whose survival is reliant upon technology In *Oceania* Adam Fish answers this question through eight stories of piloting drones to stop the killing of porpoises sharks and seabirds and to check the vitality of whales seals turtles and coral

reefs Drone conservation is not the end of nature Instead drone conservation results in an ocean whose flourishing both depends upon and escapes the control of technologies Faulty technology oceanic and atmospheric turbulence political corruption and the inadequacies of basic science serve to foil governance over nature Fish contends that what emerges is an ocean culture a flourishing ocean that is distinct from but exists alongside humanity **The River** Peter Heller,2019 A NATIONAL BESTSELLER A fiery tour de force I could not put this book down It truly was terrifying and unutterably beautiful Alison Borden The Denver Post From the best selling author of The Dog Stars the story of two college students on a wilderness canoe trip a gripping tale of a friendship tested by fire white water and violence Wynn and Jack have been best friends since freshman orientation bonded by their shared love of mountains books and fishing Wynn is a gentle giant a Vermont kid never happier than when his feet are in the water Jack is more rugged raised on a ranch in Colorado where sleeping under the stars and cooking on a fire came as naturally to him as breathing When they decide to canoe the Maskwa River in northern Canada they anticipate long days of leisurely paddling and picking blueberries and nights of stargazing and reading paperback Westerns But a wildfire making its way across the forest adds unexpected urgency to the journey When they hear a man and woman arguing on the fog shrouded riverbank and decide to warn them about the fire their search for the pair turns up nothing and no one But The next day a man appears on the river paddling alone Is this the man they heard And if he is where is the woman From this charged beginning master storyteller Peter Heller unspools a headlong heart pounding story of desperate wilderness survival The Homesick Phone Book Cynthia Haynes,2016-09-28 Winner RSA Book Award 2017 Terrorist attacks war and mass shootings by individuals occur on a daily basis all over the world In The Homesick Phone Book author Cynthia Haynes examines the relationship of rhetoric to such atrocities Aiming to disrupt conventional modes of rhetoric logic argument and the teaching of writing Haynes illuminates rhetoric's ties to horrific acts of violence and the state of perpetual conflict around the world both in the Holocaust era and more recently Each chapter marked by a physical address functions as a kind of expanded phone book entry with a discussion of violent events at a particular location giving way to explorations of larger questions related to rhetoric and violence At the core of the work is Haynes's call for a writing pedagogy based on abstraction that would allow students to appeal to emotional and ethical grounds in composing arguments Written in a lyrical style the book weaves rhetorical theories poetics philosophy works of art and personal experience into a complex compelling and innovative mode of writing Ultimately The Homesick Phone Book demonstrates how scholars of rhetoric and writing studies can break their dependence on conventional argument and logic to discover what might be possible if we dive into and become lost within the very concepts and events that frighten and terrorize us **The Guide** Peter Heller,2021-08-24 NATIONAL BESTSELLER The best selling author of The River returns with a heart racing thriller about a young man who is hired by an elite fishing lodge in Colorado where he uncovers a plot of shocking menace amid the natural beauty of sun drenched streams and forests Peter Heller is the poet laureate of the

literary thriller Michael Koryta New York Times best selling author of Those Who Wish Me Dead Kingfisher Lodge nestled in a canyon on a mile and a half of the most pristine river water on the planet is known by locals as Billionaire s Mile and is locked behind a heavy gate Sandwiched between barbed wire and a meadow with a sign that reads Don t Get Shot the resort boasts boutique fishing at its finest Safe from viruses that have plagued America for years Kingfisher offers a respite for wealthy clients Now it also promises a second chance for Jack a return to normalcy after a young life filled with loss When he is assigned to guide a well known singer his only job is to rig her line carry her gear and steer her to the best trout he can find But then a human scream pierces the night and Jack soon realizes that this idyllic fishing lodge may be merely a cover for a far more sinister operation A novel as gripping as it is lyrical as frightening as it is moving The Guide is another masterpiece from Peter Heller
