Most companies have a typical way to do interviews which are based on the scenario as per their environment and these are just combinations of the concepts to fit their need and SLA Though each of these chapters is bucketed for convenience we highly recommend reading each of the sections nevertheless irrespective of the roles you might be doing as each of the sections have some interesting trivia s working with SQL Server In the industry the role of accidental DBA s especially with SQL Server is so common Hence if you have performed the role of DBA for a short stink and want to brush up your fundamentals then the respective sections will be a great skim
