Each unit is closely linked to the latest AQA(A) A2 specification, and contains hints and tips from a senior examiner and best-selling author on how best to learn the information. The twelve most popular units from the A2-level pupil book are covered, including a selection from: Social psychology Physiological psychology Cognitive psychology Developmental psychology Comparative psychology Individual differences Each unit features: * A preview of the content covered in the textbook, a visual topic map and a detailed explanation of specification requirements and jargon * Activities with write-on answer sections to help students structure their own note-taking * Examiner hints on how to develop AO1 and AO2 skills and recall key information from the textbook * End of topic texts and exam practice questions with a A stand alone workbook for the pre-intermediate 'Quick Smart English' course. The workbook can be used for self-study (homework) or in class. For each unit, there is a workbook grammar section. This explains and practices the grammar introduced inductively in the Student's Book. Support teaching and help your students' skills development. Fill in gaps in the students' knowledge and reinforce a topic effectively. A workbook to aid your revision, this book provides comprehensive practice for the OCR A2 biology unit 4 exam. It includes extensive questions to test your basic knowledge of all the key concepts included in this particular exam. Flow diagrams for all the processes depicted by the OCR specification are provided in order to aid your understanding. In addition, details of the questions covered in previous exams and longer practice questions for those more tricky topics. Everything you need to get the grade you deserve. This workbook for OCR Psychology will help build your understanding by answering questions on all key topics. For use either in class or for homework, this full colour Workbook provides stimulus materials on all the topics in the unit. These are followed by sets of questions designed to develop and test skills. Additional exam-style questions will help you put what you have learned into practice ready for the unit exam. Answers are available online at www.hodderplus.co.uk/philipallan/workbooks so you can check and assess your responses. (Graded Examinations in Spoken English) Grades 3 and 4. Cambridge KET (Key English Test and Key for Schools) at A2+. CLIL section in every Unit of Student Book and Workbook. Structured writing tasks and authentic examples of online tools used by students from Mexico, Bulgaria, China, Spain, Russia, Chile, Germany. Twelve 10-step Units for approx 120 hours of study, with Split Editions available for short courses. Student workbooks are a new type of resource that will support teaching and help your students' skills development. The workbooks supplement resources and other class materials, identifying key features of the main topics, filling gaps in the students' knowledge and helping them to revise effectively. The textbook is intended to provide clear, highly readable and easily understood information to the average student. It contains sufficient detail to satisfy the requirements of the New Edexcel Syllabus Specifications without the sometimes unnecessary detail which can cloud out underlying issues. Advanced level Biology Specifications (previously called syllabuses) have been revised since 2008. The first complete examination for this specification was held in May 2010. Every attempt has been made to ensure the relevance of the content to the syllabus specification. The book is intended to be a useful resource for students preparing for the Unit three Biology paper for London Edexcel Examination. The book lists the syllabus specifications and the relevant notes are incorporated below each specification. This ensures that every syllabus specification has been covered. Students would be advised to study the content for each specification and then attempt the past paper Questions for each specification. This will help to reinforce the concepts and content. The book also deals with the How Science Works section of the syllabus.
