way to shift responsibility for social problems from institutions to individuals Shaming children for not being able to afford school lunches or adults for not being able to find work lets us off the hook as a society After all why pay higher taxes to fund programmes for people who are fundamentally unworthy O Neil explores the machinery behind all this shame showing how governments corporations and the healthcare system capitalize on it There are damning stories of rehab clinics reentry programs drug and diet companies and social media platforms all of which profit from punching down on the vulnerable Woven throughout *The Shame Machine* is the story of O Neil s own struggle with body image and her recent weight loss surgery which awakened her to the systematic shaming of fat people seeking medical care With clarity and nuance O Neil dissects the relationship between shame and power Whom does the system serve How do current incentive structures perpetuate the shaming cycle And most important how can we all fight back
