Encouraging efficiency, clarity, and disciplined thinking, A3 Problem Solving identifies a problem, describes the objective, and summarizes fact finding and action steps, all on a single A3-sized piece of paper. This approach provides all employees at all levels with a method to quickly identify a problem, analyze it to root cause, select appropriate For readers of *Being Mortal* and *When Breath Becomes Air*, the acclaimed founder of *Death over Dinner* offers a practical, inspiring guide to life's most difficult yet important conversation. Of the many critical conversations we will all have throughout our lifetime, few are as important as the ones discussing death—and not just the practical considerations, such as DNRs and wills, but what we fear, what we hope, and how we want to be remembered. Yet few of these conversations are actually happening. Inspired by his experience with his own father and countless stories from others who regret not having these conversations, Michael Hebb cofounded *Death Over Dinner*—an organization that encourages people to pull up a chair, break bread, and really talk about the one thing we all have in common. *Death Over Dinner* has been one of the most effective end-of-life awareness campaigns to date; in just three years, it has provided the framework and inspiration for more than a hundred thousand dinners focused on having these end-of-life conversations. As Arianna Huffington said, "We are such a fast-food culture, I love the idea of making the dinner last for hours. These are the conversations that will help us to evolve." *Let's Talk About Death (over Dinner)* offers keen practical advice on how to have these same conversations—not just at the dinner table, but anywhere. There's no one right way to talk about death, but Hebb shares time—and dinner—tested prompts to use as conversation starters, ranging from the spiritual to the practical, from analytical to downright funny and surprising. By transforming the most difficult conversations into an opportunity, they become celebratory and meaningful—ways that not only can change the way we die, but the way we live. *Meaning-Centered Psychotherapy (MCP) for advanced cancer patients* is a highly effective intervention for advanced cancer patients, developed and tested in randomized controlled trials by Breitbart and colleagues at Memorial Sloan-Kettering Cancer Center. This treatment manual for group therapy provides clinicians in the oncology and palliative care settings a highly effective, brief, structured intervention shown to be effective in helping patients sustain meaning, hope and quality of life. A President Obama "O" Book Club pick *Raised in South Carolina* and *New York*, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. Includes 7 additional poems, including "Brown Girl Dreaming." Praise for Jacqueline Woodson: "Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."—*The New York Times Book Review* Overview: Sooner or later, we are all called to lead in some capacity. Leadership skills are vital in corporate settings, small businesses, church or community organizations, and even within the home. Chris Brady and Orrin Woodward have recognized this need and have jointly created an in-depth, step-by-step guide for developing leadership skills. Utilizing an abundance of historical examples, the authors have developed a unique 5-step plan that charts a course for creating and maintaining strong leadership in any organization. The plan guides the reader through the "Five Levels of Influence": Learning: a leader must be able to learn from anyone; Performing: persevere through failure to find success; Leading: extend your ability by expanding your team; Developing Leaders: learn to trust your people; Develop Leaders who Develop Leaders: create a legacy. Physical and Mental Health: Tips for getting healthy; how to handle common ailments. Pain Control: How to deal with pain in recovery; how to avoid a relapse if you need pain control for surgery or emergency care. Family and Friends: How you can help a loved one with addiction, and how you can help yourself. Raising Substance-Free Kids: How to “addiction-proof” your child. The Epidemic of Prescription Drugs: Now a bigger problem than illegal drugs. Dr. Al J. Mooney has been helping alcoholics and addicts get their lives back for more than thirty years, using both his professional and personal experiences at his family’s treatment center, Willingway, and most recently through his work as medical director for The Healing Place of Wake County (NC), a homeless shelter.
