Spaces Speak, Are You Listening? Barry Blesser,Linda-Ruth Salter,2009-09-18 How we experience space by listening the concepts of aural architecture with examples ranging from Gothic cathedrals to surround sound home theater We experience spaces not only by seeing but also by listening We can navigate a room in the dark and hear the emptiness of a house without furniture Our experience of music in a concert hall depends on whether we sit in the front row or under the balcony The unique acoustics of religious spaces acquire symbolic meaning Social relationships are strongly influenced by the way that space changes sound In *Spaces Speak Are You Listening* Barry Blesser and Linda Ruth Salter examine auditory spatial awareness experiencing space by attentive listening Every environment has an aural architecture The audible attributes of physical space have always contributed to the

fabric of human culture as demonstrated by prehistoric multimedia cave paintings classical Greek open air theaters Gothic cathedrals acoustic geography of French villages modern music reproduction and virtual spaces in home theaters Auditory spatial awareness is a prism that reveals a culture's attitudes toward hearing and space Some listeners can learn to see objects with their ears but even without training we can all hear spatial geometry such as an open door or low ceiling Integrating contributions from a wide range of disciplines including architecture music acoustics evolution anthropology cognitive psychology audio engineering and many others Spaces Speak Are You Listening establishes the concepts and language of aural architecture These concepts provide an interdisciplinary guide for anyone interested in gaining a better understanding of how space enhances our well being Aural architecture is not the exclusive domain of specialists Accidentally or intentionally we all function as aural architects

What is Theory? Hervé Corvellec, 2013 There is no consensus in the social and cultural sciences on what theory is and that is as it should be A consensus would be outright dangerous for the diversity of intellectual life The perspectives represented in this volume show that theory can be understood as plot hope beholding doxa heritage a stalemate disappointment personal matter or family concept But even if

theory can be defined in many ways it cannot be defined in any one way Beyond disciplinary and epistemological differences theory has the steadfast characteristic of being what academics work with More than an epistemological matter the book s title question is an entry into the dynamics of academic practice The book consists of a multidisciplinary collection of essays that are tied together by a common effort to tell what theory is These essays are also paired as dialogues between senior and junior researchers from the same or allied disciplines to add a trans generational dimension to the book s multidisciplinary approach What Is Theory has been designed for upper division and graduate students in the social sciences and the humanities but it will also be of interest to anyone who has felt that the question of what theory is can be more easily asked than answered Contents include Why Ask What Theory Is The History of the Concept of Theory History of Ideas at the End of Western Dominance Looking at Theory in Theory in Science Theory Has No Big Others in Science and Technology Studies What Social Science Theory Is and What It Is Not Theory as Hope Theory Crisis and the Necessity of Theory The Dilemmas of Sociology Theory as Disappointment Theory A Personal Matter Theory A Professional Matter Economic Theory A Critical Realist Perspective For Theoretical Pluralism in Economic Theory What Is Theory in Political Science For a New Vocabulary of Theory in Political Science Theorizing the Earth Spatial Theory as an Interdisciplinary Praxis This highly original lively and refreshing book is more than welcome it is needed the contributors insights passion and diversity fully restore the creative value of theorizing as a way to grasp understand and more importantly shape the world Franck Cochoy Professor of Sociology U of Toulouse

Curriculum Wesley Null,2011-03-16 Curriculum From Theory to Practice introduces readers to curriculum theory and how it relates to classroom practice Wesley Null provides a unique organization of the curriculum field into five traditions systematic existential radical pragmatic and deliberative He discusses the philosophical foundations of curriculum as well as historical and contemporary figures who have shaped each curriculum tradition Additionally after a chapter on each of the five perspectives Null presents case studies that describe realistic and specific curriculum problems that commonly arise within elementary schools middle schools high schools and universities Scholars and practitioners alike are given opportunities to practice resolving curriculum problems through deliberation Each case study focuses on a critical issue such as the implementation of state curriculum standards the attempt to reform core curriculum within universities and the complex practice of curriculum making

Experiencing Architecture, second edition Steen Eiler Rasmussen,1964-03-15 A classic examination of superb design through the centuries Widely regarded as a classic in the field Experiencing Architecture explores the history and promise of good design Generously illustrated with historical examples of designing excellence ranging from teacups riding boots and golf balls to the villas of Palladio and the fish feeding pavilion of Beijing s Winter Palace Rasmussen s accessible guide invites us to appreciate architecture not only as a profession but as an art that shapes everyday experience In the past Rasmussen argues architecture was not just an individual pursuit but a community undertaking Dwellings were built with a natural feeling for place materials and use resulting in a remarkably suitable

comeliness While we cannot return to a former age Rasmussen notes we can still design spaces that are beautiful and useful by seeking to understand architecture as an art form that must be experienced An understanding of good design comes not only from one's professional experience of architecture as an abstract individual pursuit but also from one's shared everyday experience of architecture in real time its particular use of light color shape scale texture rhythm and sound Experiencing Architecture reminds us of what good architectural design has accomplished over time what it can accomplish still and why it is worth pursuing Wide ranging and approachable it is for anyone who has ever wondered what instrument the architect plays on
