World Is a Text + Mycomplab New Student Access Jonathan Silverman, Dean Rader, 2008-07

Team of Teams Gen. Stanley McChrystal, Tantum Collins, David Silverman, Chris Fussell, 2015-05-12 From the New York Times bestselling author of *My Share of the Task* and *Leaders* a manual for leaders looking to make their teams more adaptable agile and unified in the midst of change When General Stanley McChrystal took command of the Joint Special Operations Task Force in 2004 he quickly realized that conventional military tactics were failing Al Qaeda in Iraq was a decentralized network that could move quickly strike ruthlessly then seemingly vanish into the local population The allied forces had a huge advantage in numbers equipment and training but none of that seemed to matter To defeat Al Qaeda they would have to combine the power of the world's mightiest military with the agility of the world's most fearsome terrorist network They would have to become a team of teams faster flatter and more flexible than ever In *Team of Teams* McChrystal and his colleagues show how the challenges they faced in Iraq can be relevant to countless businesses nonprofits and organizations today In periods of unprecedented crisis leaders need practical management practices that can scale to thousands of people and fast By giving small groups the freedom to experiment and share what they learn across the entire organization teams can respond more quickly communicate more freely and make better and faster decisions Drawing on compelling examples from NASA to hospital emergency rooms *Team of Teams* makes the case for merging the power of a large corporation with the agility of a small team to transform any organization

Neurotribes Steve Silberman, 2016-08-23 This New York Times bestselling book upends conventional thinking about autism and suggests a broader model for acceptance understanding and full participation in society for people who think differently What is autism A lifelong disability or a naturally occurring form of cognitive difference akin to certain forms of genius In truth it is all of these things and more and the future of our society depends on our understanding it Wired reporter Steve Silberman unearths the secret history of autism long suppressed by the same clinicians who became famous for discovering it and finds surprising answers to the crucial question of why the number of diagnoses has soared in recent years Going back to the earliest days of autism research Silberman offers a gripping narrative of Leo Kanner and Hans Asperger the research pioneers who defined the scope of autism in profoundly different ways he then goes on to explore the game changing concept of neurodiversity *NeuroTribes* considers the idea that neurological differences such as autism dyslexia and ADHD are not errors of nature or products of the toxic modern world but the result of natural variations in the human genome This groundbreaking book will reshape our understanding of the history meaning function and implications of neurodiversity in our world

Community Music Today Kari K. Veblen, Stephen J. Messenger, Marissa Silverman, David J. Elliott, 2013-01-16 *Community Music Today* highlights community music workers who constantly improvise and reinvent to lead through music and other expressive media It answers the perennial question What is community music through a broad international palette of contextual shades hues tones and colors With over fifty musician educators participating the book explores community music in global contexts interconnections and marginalized communities as well as artistry and social justice in performing ensembles This book is both a response to and a testimony of what music is and can do music's place in people's lives and the many ways it unites and marks communities As documented in case studies community music workers may be musicians teachers researchers and activists responding to the particular situations in which they find themselves Their voices are the threads of the multifaceted tapestry of musical practices at play in formal informal nonformal incidental and accidental happenings of community music

Doing Qualitative Research Benjamin F. Crabtree, William L. Miller, 1999-08-24 This completely revised and greatly expanded edition of *Doing Qualitative Research* spans the spectrum of primary care research illustrating when methods are appropriate and how to use them. New to this edition are additional collection methods, a new section on analysis and interpretation, more emphasis on participatory strategies and suggestions for evaluating quality and enhancing reflexivity incorporated throughout the text. Each chapter is written by a gifted researcher who defines their topic and the context of their research, defines key themes and processes, provides examples, explores theory, and shares their excitement of discovery. The book is richly illustrated throughout with detailed examples.

Skills for Communicating with Patients Jonathan Silverman, Suzanne M. Kurtz, Juliet Draper, 1998 This text and its companion *Teaching and Learning Communication Skills in Medicine* provide a comprehensive approach to improving communication in medicine. Exploring in detail the specific skills of doctor-patient communication, the book provides evidence of the improvements that these skills can make in health outcomes and everyday clinical practice.

Cognitive Science Jay Friedenberg, Gordon Silverman, 2015-09-23 In *Cognitive Science 3e*, Friedenberg and Silverman provide a solid understanding of the major theoretical and empirical contributions of cognitive science. Their text, thoroughly updated for this new third edition, describes the major theories of mind as well as the major experimental results that have emerged within each cognitive science discipline. Throughout history, different fields of inquiry have attempted to understand the great mystery of mind and answer questions like: What is the mind? How do we see, think, and remember? Can we create machines that are conscious and capable of self-awareness? This book examines these questions and many more. Focusing on the approach of a particular cognitive science field in each chapter, the authors describe its methodology, theoretical perspective, and findings, and then offer a critical evaluation of the field. Features: Offers a wide-ranging, comprehensive, and multidisciplinary introduction to the field of cognitive science and issues of mind. Interdisciplinary Crossroads sections at the end of each chapter focus on research topics that have been investigated from multiple perspectives, helping students to understand the link between varying disciplines and cognitive science. End-of-chapter Summing Up sections provide a concise summary of the major points addressed in each chapter to facilitate student comprehension and exam preparation. Explore More sections link students to the Student Study Site where the authors have provided activities to help students more quickly master course content and prepare for examinations. Supplements: A password-protected Instructor's Resource contains PowerPoint lectures, a test bank, and other pedagogical material. The book's Study Site features Web links, E-flash cards, and interactive quizzes.
