**Singularity Sky** Charles Stross,2004-06-29 In a technologically suppressed future information demands to be free in the debut novel from Hugo Award winning author Charlie Stross In the twenty first century life as we know it changed Faster than light travel was perfected and the Eschaton a superhuman artificial intelligence was born Four hundred years later the far flung colonies that arose as a result of these events scattered over three thousand years of time and a thousand parsecs of space are beginning to rediscover their origins The New Republic is one such colony It has existed for centuries in self imposed isolation rejecting all but the most basic technology Now under attack by a devastating information plague the colony must reach out to Earth for help A battle fleet is dispatched streaking across the stars to the rescue But things are not what they seem secret agendas and ulterior motives abound both aboard the ship and on the ground And watching over it all is the Eschaton which has its own very definite ideas about the outcome

**Singularity Sky** Charles Stross,2004-06-29 In a technologically suppressed future information demands to be free in the debut novel from Hugo Award winning author Charlie Stross In the twenty first century life as we know it changed Faster than light travel was perfected and the Eschaton a superhuman artificial intelligence was born Four hundred years later the far flung colonies that arose as a result of these events scattered over three thousand years of time and a thousand parsecs of space are beginning to rediscover their origins The New Republic is one such colony It has existed for centuries in self imposed isolation rejecting all but the most basic technology Now under attack by a devastating information plague the colony must reach out to Earth for help A battle fleet is dispatched streaking across the stars to the rescue But things are not what they seem secret agendas and ulterior motives abound both aboard the ship and on the ground And watching over it all is the Eschaton which has its own very definite ideas about the outcome

**Singularity Sky** Charles Stross,2008-09-04 In the twenty first century man created the Eschaton a It pushed Earth through the greatest technological evolution ever known while warning that time travel is forbidden and transgressors will be eliminated Distant descendants of this ultra high tech Earth live in parochial simplicity on the far flung worlds of the New Republic Their way of life is threatened by the arrival of an alien information plague known as the Festival As forbidden technologies are literally dropped from the sky suppressed political factions descend into revolutionary turmoil A battle fleet is sent from Earth to destroy the Festival but Spaceship engineer Martin Springfield and U N diplomat Rachel Mansour have been assigned rather different tasks Their orders are to diffuse the crisis or to sabotage the New Republic s war fleet whatever the cost before the Eschaton takes hostile action on a galactic scale

**Iron Sunrise** Charles Stross,2005-06-28 Stross has the ability to superimpose an intriguing take on contemporary events over an imaginative story peopled by bizarre characters The Kansas City Star A G2 star doesn t just explode not without outside interference So the survivors of the planet Moscow which was annihilated in just such an event have launched a counterattack against the most

likely culprit the neighboring system of New Dresden But New Dresden wasn't responsible and as the deadly missiles approach their target Rachel Mansour agent for the interests of Old Earth is assigned to find out who was opposing her is an unknown and unimaginable enemy At stake is not only the fate of New Dresden but also the very order of the universe And the one person who knows the identity of that enemy is a disaffected teenager who calls herself Wednesday Shadowmist But Wednesday has no idea what she knows

**Accelerando** Charles Stross, 2005-07-05 The Singularity It is the era of the posthuman Artificial intelligences have surpassed the limits of human intellect Biotechnological beings have rendered people all but extinct Molecular nanotechnology runs rampant replicating and reprogramming at will Contact with extraterrestrial life grows more imminent with each new day Struggling to survive and thrive in this accelerated world are three generations of the Macx clan Manfred an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet his daughter Amber on the run from her domineering mother seeking her fortune in the outer system as an indentured astronaut and Sirhan Amber's son who finds his destiny linked to the fate of all of humanity For something is systematically dismantling the nine planets of the solar system Something beyond human comprehension Something that has no use for biological life in any form

**Neptune's Brood** Charles Stross, 2013 After being stalked across the galaxy by an assassin post human Krina Alzon 114 journeys to the water world Shin Tethys in search of her sister

**Rule 34** Charles Stross, 2011-07-05 Meet Edinburgh Detective Inspector Liz Kavanaugh head of the Innovative Crimes Investigation Unit otherwise known as the Rule 34 Squad They monitor the Internet for potential criminal activity analyzing trends in the extreme fringes of explicit content And occasionally even more disturbing patterns arise Three ex cons have been murdered in Germany Italy and Scotland The only things they had in common were arrests for spamming and a taste for unorthodox entertainment As the first officer on the scene of the most recent death Liz finds herself sucked into an international investigation that isn't so much asking who the killer is but what and if she doesn't find the answer soon the homicides could go viral

**Halting State** Charles Stross, 2007-10-02 Halting State is a near future story that is at once over the top and compellingly believable Vernor Vinge author of Rainbows End In the year 2018 Sergeant Sue Smith of the Edinburgh constabulary is called in on a special case A daring bank robbery has taken place at Hayek Associates a dot com start up company that's just floated onto the London stock exchange But this crime may be a bit beyond Smith's expertise The prime suspects are a band of marauding orcs with a dragon in tow for fire support The bank is located within the virtual reality land of Avalon Four and the robbery was supposed to be impossible When word gets out Hayek Associates and all its virtual economies are going to crash hard For Smith the investigation seems pointless But the deeper she digs the bigger the case gets There are powerful players both real and pixelated who are watching her every move Because there is far more at stake than just some game head's fantasy financial security

**Glasshouse** Charles Stross, 2006 Awakening in a clinic with most of his memories missing Robin goes on the run from unknown enemies out to kill

him volunteering to take part in the Glasshouse an experimental polity simulating a pre accelerated culture in which he will be assigned an anonymous identity but he experiences radical changes that threaten everything 20 000 first printing

**Saturn's Children** Charles Stross,2008-07-01 Sometime in the twenty third century humanity went extinct leaving only androids behind to fulfill humanity s dreams And having learned well from their long dead masters they ve established a hierarchical society one with humanoid aristo rulers at the top and slave chipped workers at the bottom performing the lowly tasks all androids were originally created to do Designed as a concubine for a species that hasn t existed for two hundred years femmebot Freya Nakamichi 47 one of the last of her kind still functioning accepts a job from a stranger to deliver a package from mercury to Mars Unfortunately she s just made herself a moving target for some very powerful very determined humanoids desperate to retrieve the package s contents [The Irrational Atheist](#) Vox Day,2008-02-01 On one side of the argument is a collection of godless academics with doctorates from the finest universities in England France and the United States On the other is Irrational Atheist author Vox Day armed with nothing more than historical and statistical facts Presenting a compelling argument but not for the side one might expect Day strips away the pseudo scientific pretensions of New Atheism with his intelligent application of logic history military science political economy and well documented research The arguments of Richard Dawkins Sam Harris Christopher Hitchens Daniel Dennett and Michel Onfray are all methodically exposed and discredited as Day provides extensive evidence proving among other things that More than 93 percent of all the wars in human history had no relation to religion The Spanish Inquisition had no jurisdiction over professing Jews Muslims or atheists and executed fewer people on an annual basis than the state of Texas Atheists are 3 84 times more likely to be imprisoned than Christians Red state crime is primarily in blue counties Sexually abused girls are 55 times more likely to commit suicide than girls raised Catholic In the twentieth century atheistic regimes killed three times more people in peacetime than those killed in all the wars and individual crimes combined The Irrational Atheist provides the rational thinker with empirical proof that atheism s claims against religion are unfounded in logic fact and science [The Years of Rice and Salt](#) Kim Stanley Robinson,2003-06-03 With the same unique vision that brought his now classic Mars trilogy to vivid life bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years In his grandest work yet the acclaimed storyteller constructs a world vastly different from the one we know A thoughtful magisterial alternate history from one of science fiction s most important writers The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur the coming of the Black Death History teaches us that a third of Europe s population was destroyed But what if the plague had killed 99 percent of the population instead How would the world have changed This is a look at the history that could have been one that stretches across centuries sees dynasties and nations rise and crumble and spans horrible famine and magnificent innovation Through the eyes of soldiers and kings explorers and philosophers slaves and scholars Robinson navigates a world

where Buddhism and Islam are the most influential and practiced religions while Christianity is merely a historical footnote Probing the most profound questions as only he can Robinson shines his extraordinary light on the place of religion culture power and even love in this bold New World Exceptional and engrossing New York Post Ambitious ingenious Newsday
