Hornfischer, 2012-03-06 A literary tour de force that is destined to become one of the definitive works about the battle for Guadalcanal James D Hornfischer deftly captures the essence of the most pivotal naval campaign of the Pacific war San Antonio Express News The Battle of Guadalcanal has long been heralded as a Marine victory Now with his powerful portrait of the Navy's sacrifice James D Hornfischer tells for the first time the full story of the men who fought in destroyers cruisers and battleships in the narrow deadly waters of Ironbottom Sound Here in stunning cinematic detail are the seven major naval actions that began in August 1942 a time when the war seemed unwinnable and America fought on a shoestring with the outcome always in doubt Working from new interviews with survivors unpublished eyewitness accounts and newly available documents Hornfischer paints a vivid picture of the officers and enlisted men who opposed the Japanese in America's hour of need The first major work on this subject in almost two decades Neptune's Inferno does what all great battle narratives do It tells the gripping human stories behind the momentous events and critical decisions that altered the course of history and shaped so many lives Praise for Neptune's Inferno Vivid and engaging extremely readable comprehensive and thoroughly researched Ronald Spector The Wall Street Journal Superlative storytelling the masterwork on the long neglected topic of World War II's surface ship combat Richard B Frank World War II The author's two previous World War II books thrust him into the major leagues of American military history writers Neptune's Inferno is solid proof he deserves to be there The Dallas Morning News Outstanding The author's narrative gifts and excellent choice of detail give an almost Homeric quality to the men who met on the sea in steel titans Booklist starred review Brilliant a compelling narrative of naval combat simply superb The Washington Times **Sexual Minorities and Politics** Jason Pierceson, 2016 Sexual Minorities and Politics is the first textbook to provide students with an up to date thorough and comprehensive overview of the historical political and legal status of sexual and gender minorities The text provides lists of key terms and discussion questions in ea A Brief Guide to Maritime Strategy James Holmes, 2019-12-01 A Brief Guide to Maritime Strategy is a deliberately compact introductory work aimed at junior seafarers those who make decisions affecting the sea services and those who educate seafarers and decision makers It introduces readers to the main theoretical ideas that shape how statesmen and commanders make and execute maritime strategy in times of peace and war Following in the spirit of Bernard Brodie's Layman's Guide to Naval Strategy a World War II era book whose title makes its purpose plain it will be a companion volume to such works as Geoffrey Till's Seapower and Wayne Hughes's Fleet Tactics and Coastal Combat the classic treatise that explains how to handle navies in fleet actions It takes the mystery out of maritime strategy which should not be an arcane art for

practitioners or policy makers and will help the next generation think about strategy **The Bluejackets' Manual**, 1943
