## PRICING AND LICENSING AT A GLANCE

Xcelsius® from Business Objects, an SAP company, is the first and only data visualization software that enables users of different skill levels – in small, mid-size and enterprise companies – to transform complex business data into actionable visual information at an affordable, unbeatable cost.

## HOW MUCH DOES XCELSIUS 2008 COST?

Addressing different budget and requirements, Xcelsius 2008 is available in four editions – Present, Engage, Engage Server, and Enterprise.

### XCELSIUS PRESENT (\$195 USD)

Transform Microsoft Excel spreadsheets into interactive data presentations and share them via Microsoft PowerPoint, Word, and Adobe PDF.

For each copy purchased, you may:

**Design data presentations:** One named user may install and use Xcelsius Present features to create data presentations and visual models. A design license cannot be shared among multiple individuals. If you require additional design licenses, you can purchase additional Xcelsius Present licenses.

**Share data presentations:** With Xcelsius Present, you may share your data presentations with an unlimited number of users.

### XCELSIUS ENGAGE (\$895 USD)

Create interactive dashboards and data presentations from Microsoft Excel spreadsheets or a single live data source – and share them live via PowerPoint, Word, Outlook, Adobe PDF, Crystal Reports® 2008, and the Web.

For each copy purchased, you may:

**Design dashboards:** One named user may install and use Xcelsius Engage features to create dashboards and visual models. A design license cannot be shared among multiple individuals. If you require additional design licenses, you may purchase additional Xcelsius Engage licenses. Xcelsius Engage may not be used to create dashboards and visual models connected to SAP data systems, BusinessObjects™ Enterprise or BusinessObjects Edge Series.

**Share self-contained and live dashboards:** With Xcelsius Engage, you also may share, with an unlimited number of users, self-contained dashboards and dashboards connected to a live data source – as long as they are not connected to SAP data systems, BusinessObjects platforms or distributed as part of a commercial sales, rental, or lease.

Donnellan,Markus Helfert,Jim Kenneally,Debra VanderMeer,Marcus Rothenberger,Robert Winter,2015-04-30 This book constitutes the thoroughly refereed proceedings of the 10th International Conference on Design Science Research in Information Systems and Technology DESRIST 2015 held in Dublin Ireland in May 2015 The 22 full papers 11 short papers and 10 short papers describing prototypes and products were carefully reviewed and selected from 111 submissions The papers are organized in topical sections on design science research in action meta perspectives data mining and analytics emerging themes design practice and design thinking and prototypes Using Crystal Reports with SAP Mike Garrett,2010 This book offers a solid functional overview of the primary features within SAP Crystal Reports while paying special attention to integrating with other BusinessObjects and SAP applications and data sources *Inside SAP BusinessObjects Advanced Analysis* Ingo Hilgefert,2010-01-01 Become an expert on SAP BusinessObjects Advanced Analysis for Microsoft Office formerly known as Pioneer and be the go to person when it comes to installing deploying and using this software Explore how Advanced Analysis greatly reduces the need for specialized design work but allows users to make simple design and UI changes with ease elegant visualization control and personalization features Additionally this book provides targeted guidance on installation deployment and data connectivity The author helps you familiarize yourself with both basic and advanced usage scenarios as you learn to customize the software to benefit your business the most This unique book also delivers a side by side comparison of Advanced Analysis Office with SAP BEx Analyzer which will prove to be invaluable as Advanced Analysis is positioned to replace the BEx tools An additional section outlines the main topics in the SAP BI roadmap for the Advanced Analysis Office version and the Web version and also touches upon migration Whether you are a consultant IT manager business analyst or a key user you will find this book to be an indispensable companion in your daily work with the software *Crystal Reports .NET Programming* Brian Bischof,2004 I wrote this book from the perspective of a programmer wanting to learn how to integrate reports within a NET application I ve been working with Crystal Reports since Visual Basic 3 and it s always been difficult to find technical information on report writing I spent a year and a half researching what NET programmers need to successfully create implement and deploy a Crystal Reports application I even put the book on the internet for everyone to read for free all of last year This generated an incredible number of emails from programmers telling me what they liked disliked and what was missing from the book I learned that there are two distinct types of NET programmers using Crystal Reports The first type of programmer doesn t have much experience with Crystal Reports and wants a series of tutorials to help them build reports from scratch For this programmer I wrote 13 chapters which teach you everything about adding reports to ASP NET and Windows applications It starts with the basics of building reports to adding charts crosstab reports sorting and grouping subreports and using the formula editor with Basic syntax and Crystal syntax The second type of programmer has been using Crystal Reports for years and is mostly concerned with how to do technical runtime customization of reports For this programmer I researched and diagrammed the undocumented report

object models I included dozens of examples in both VB NET and C to show you how to modify reports manipulate different data sources XML ADO NET ODBC OLE DB stored procedures with parameters modify formulas and report parameters and integrate NET with the RAS and RDC The dozens of emails I received when the book was online were instrumental for doing a major revision of many chapters before publishing the book in hardcopy format Since releasing the book I continue to receive more emails from people They regret that the free book isn't online anymore but understand that it couldn't last forever and that the hardcopy version is even better I hope you like it and that it helps you achieve your reporting goals

September 2004 Update Due to high demand I did a second printing of the book I took advantage of this opportunity to go through the book and remove all grammatical errors The content is the same but the typos have been corrected

*SAP BusinessObjects BI Security* Christian Ah-Soon, David François Gonzalez, 2012-11-30 How secure is your SAP BusinessObjects environment Find out with this book which will shore up your understanding of the basic concepts involved in securing data and teach you the practical technical steps you'll need Explore the frameworks properties and data sources of the SAP BusinessObjects suite Up to date for release 4.0 FP3 and applicable to earlier releases this comprehensive guide is the key to locking down your system
