The Price Of Admiralty Evolution Naval Warfare From Trafalgar To Midway

John Keegan

The Price of Admiralty John Keegan, 1990-02-01 Military historian John Keegan's gripping history of naval warfare's evolution. In *The Price of Admiralty*, leading military historian John Keegan illuminates the history of naval combat by expertly dissecting four landmark sea battles, each featuring a different type of warship: the Battle of Trafalgar, the Battle of Jutland in World War I, the Battle of Midway in World War II, and the long and arduous Battle of the Atlantic. The best military historian of our generation, Tom Clancy, *The Price of Admiralty* stands alongside Mr. Keegan's earlier works in its power to impart both the big and little pictures of war. *The New York Times* *The Price of Admiralty* John Keegan, 1988 *Battle At Sea* John Keegan, 2011-09-30 In *Battle at Sea*, Sir John Keegan applies to maritime warfare the technique that he put to such brilliant effect in his classic of war on land, *The Face of Battle*. He concentrates on four key conflicts: Trafalgar, Jutland, Midway, and the Battle of the Atlantic. He takes us into the very heart of the fighting while providing a remarkable panoramic view of naval warfare through the centuries. **At War at Sea** Ronald H. Spector, 2002-04-30 Beginning with a gripping account of one of the most decisive naval battles in history, the 1905 battle of Tsushima between the Japanese and Russians, and ending with the sophisticated missile engagements of the Falklands, and in the Persian Gulf, naval historian Ronald Spector explores every facet of the past one hundred years of naval warfare. Drawing from more than one hundred diaries, memoirs, letters, and interviews, this is above all a masterful narrative of the human side of combat at sea: real stories told from the point of view of the sailors who experienced it. Exhaustively researched and fascinating in detail, *At War at Sea* is a monumental history of the men, the ships, and the battles fought on the high seas. Superb. Spector's account provides evocative and fresh perspectives on cultures, technologies, and innovations that influenced sailors' lives and shaped naval warfare. *The San Diego Union Tribune* Monumental. Many books have recorded the history of the United States Navy, but few have meshed that history with that of all other major navies: an unusual comparative technique that brings into often startling relief the virtues and flaws of our own navy. *The Washington Post* **Intelligence in War** John Keegan, 2003-10-28 A masterly look at the value and limitations of intelligence in the conduct of war from the premier military historian of our time, John Keegan. Intelligence gathering is an immensely complicated and vulnerable endeavor, and it often fails. Until the invention of the telegraph and radio, information often traveled no faster than a horse could ride, yet intelligence helped defeat Napoleon. In the twentieth century, photo analysts didn't recognize Germany's V-2 rockets for what they were; on the other hand, intelligence helped lead to victory over the Japanese at Midway. In *Intelligence in War*, John Keegan illustrates that only when paired with force has military intelligence been an effective tool, as it may one day be in besting al Qaeda. Fields of Battle John

Keegan,2012-09-19 At once a grand tour of the battlefields of North America and an unabashedly personal tribute to the military prowess of an essentially unwarlike people A magisterial narrative history enriched by an authorial voice The Washington Post Fields of Battle spans more than two centuries and the expanse of a continent to show how the immense spaces of North America shaped the wars that were fought on its soil **The Command of the Ocean** N. A. M.

Rodger,2005 N A M Rodger provides reassessments of such famous figures as Pepys Hawke Howe and St Vincent The particular and distinct qualities of Nelson and Collingwood are contrasted and the world of the officers and men who made up the originals of Jack Aubrey and Horatio Hornblower is brought to life Rodger s comparative view of other navies French Dutch Spanish and American allows him to make a fresh assessment of the qualities of the British BOOK JACKET

Underdogs Aaron B. O'Connell,2012-10-29 The Marine Corps has always considered itself a breed apart Since 1775 America s smallest armed service has been suspicious of outsiders and deeply loyal to its traditions Marines believe in nothing more strongly than the Corps uniqueness and superiority and this undying faith in its own exceptionalism is what has made the Marines one of the sharpest swiftest tools of American military power Along with unapologetic self promotion a strong sense of identity has enabled the Corps to exert a powerful influence on American politics and culture Aaron O Connell focuses on the period from World War II to Vietnam when the Marine Corps transformed itself from America s least respected to its most elite armed force He describes how the distinctive Marine culture played a role in this ascendancy Venerating sacrifice and suffering privileging the collective over the individual Corps culture was saturated with romantic and religious overtones that had enormous marketing potential in a postwar America energized by new global responsibilities Capitalizing on this the Marines carried the favor of the nation s best reporters befriended publishers courted Hollywood and Congress and built a public relations infrastructure that would eventually brand it as the most prestigious military service in America But the Corps triumphs did not come without costs and O Connell writes of those too including a culture of violence that sometimes spread beyond the battlefield And as he considers how the Corps interventions in American politics have ushered in a more militarized approach to national security O Connell questions its sustainability *The Influence of Air*

Power Upon History Walter J. Boyne,2005-01-01 The Influence of Air Power upon History is a thorough examination of how air power was applied from the very earliest days of the balloon down to the latest use of space technology Including both air and aerospace military power in his considerations Boyne a retired U S Air Force colonel surveys in a celebratory fashion the use of air power in international conflict His analysis is perfectly in line with the technological fetishism of most U S war planners almost invariably arguing that the imposition of superior air power is the most decisive factor in winning wars and even suggesting that the American war in Vietnam would have been won with just a little more bombing Chapters cover the development and deployment of air power doctrines by the United States its allies and its enemies in wars in which it was politically concerned **English/British Naval History to 1815** Eugene L. Rasor,2004-10-30 The English British have

always been known as the sailor race with hearts of oak the Royal Navy as the Senior Service and First Line of Defense It facilitated the motto The sun never set on the British Empire The Royal Navy has exerted a powerful influence on Great Britain its Empire Europe and ultimately the world This superior annotated bibliography supplies entries that explore the influence of the English British Navy through its history This survey will provide a major reference guide for students and scholars at all levels It incorporates evaluative qualitative and critical analysis processes the essence of historical scholarship Each one of the 4 124 annotated entries is evaluated assessed analyzed integrated and incorporated into the historiographical scholarship

The Seaforth Bibliography Eugene Rasor, 2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side

Mobilize! Larry D. Rose, 2013-10-28 Why was Canada not preparing for the Second World War when the rest of the world was ready to meet Hitler s threats Despite Canada s active participation in the First World War which many claimed made Canada a nation the country was almost defenceless in September 1939 when war was declared again Larry D Rose a long time journalist and a military specialist examines the military s own failures the hidden agenda of Prime Minister William Lyon Mackenzie King and the divisions within Canada leading up to Canada s entry into the war He suggests that the lack of preparedness was directly responsible for two of Canada s costliest military defeats the battle of Hong Kong and Dieppe

The Price Of Admiralty John Keegan, 2011-09-30 John Keegan s new book applies to maritime warfare the technique he put to such dazzling effect in his classic of war on land *The Face of Battle* His analysis concentrates on four key battles Trafalgar Jutland Midway and the Battle of the Atlantic The result not only illustrates the development of naval warfare through the sailing warship the battleship the aircraft carrier and the submarine thereby giving a panoramic view but takes the reader into the heart of the fighting reminding us that the price of battle whether on sea or land is measuring in men s lives

Through a Canadian Periscope Julie H. Ferguson, 2014-03-10 A colourful and well researched account of Canada s submarine service from its beginnings on the first day of the First World War to its uncertain future today Ferguson details the careers of the Canadians

who served in British submarines in all theatres of the Second World War then goes on to examine the modern era *Rear Admiral Schley* Gordon Hartogensis, Robert Jones, 2023-12-14 The career of Rear Admiral Winfield Scott Schley unfolding on land and sea offers a compelling account of a pivotal time in the history of the US Navy and maritime warfare Remembered chiefly for his role in the Spanish American War Schley led the US Navy to victory at the Battle of Santiago was promoted to rear admiral then found himself accused of timidity and cowardliness in battle and subject to a controversial Court of Inquiry The dispute and its resolution known as the Sampson Schley Controversy impact the navy to this day Schley graduated from the US Naval Academy in 1860 and advanced quickly through the ranks After fighting in the Civil War sailing the seven seas and visiting many foreign countries he played a vital part in the formation of the New Steel Navy as the fleet converted from the era of sail to steam In *Rear Admiral Schley An Extraordinary Life at Sea and on Shore* Robert A Jones tells a stirring tale of a remarkable commander whose cool headed courage under fire and in hand to hand combat made him a highly respected leader whom men would follow willingly His skills and proven leadership led to his being asked to conduct diplomatic missions in several countries to supervise ship construction to direct two lighthouse districts to intervene in a civil war in Chile and to lead the famous mission to rescue the Greely Arctic expedition This meticulously researched biography will shed additional light on the career of an illustrious if previously lesser known leader who helped shape the US Navy we know today

In the Hurricane's Eye Nathaniel Philbrick, 2019-06-04 NEW YORK TIMES BESTSELLER Nathaniel Philbrick is a masterly storyteller Here he seeks to elevate the naval battles between the French and British to a central place in the history of the American Revolution He succeeds marvelously The New York Times Book Review The thrilling story of the year that won the Revolutionary War from the New York Times bestselling author of *In the Heart of the Sea* and *Mayflower* In the concluding volume of his acclaimed American Revolution series Nathaniel Philbrick tells the thrilling story of the year that won the Revolutionary War In the fall of 1780 after five frustrating years of war George Washington had come to realize that the only way to defeat the British Empire was with the help of the French navy But coordinating his army's movements with those of a fleet of warships based thousands of miles away was next to impossible And then on September 5 1781 the impossible happened Recognized today as one of the most important naval engagements in the history of the world the Battle of the Chesapeake fought without a single American ship made the subsequent victory of the Americans at Yorktown a virtual inevitability A riveting and wide ranging story full of dramatic unexpected turns In *The Hurricane's Eye* reveals that the fate of the American Revolution depended in the end on Washington and the sea

Encyclopedia of Military Science G. Kurt Piehler, 2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization traditions training purpose and functions of today's military Entries in this four volume work include coverage of the duties responsibilities and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political social legal economic and technological factors A large

component is devoted to issues of leadership group dynamics motivation problem solving and decision making in the military context Finally this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations the First Persian Gulf War the events surrounding 9 11 and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events Click here to read an article on The Daily Beast by Encyclopedia editor G Kurt Piehler Why Don t We Build Statues For Our War Heroes Anymore

Understanding War Christian P. Potholm,2016-08-03 The third book in Professor Christian Potholm s war trilogy which includes Winning at War and War Wisdom Understanding War provides a most workable bibliography dealing with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material Understanding War is thus the most comprehensive annotated bibliography available today Moreover by dividing war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these Understanding War enables the reader to access and understand the broadest possible array of materials across both time and space beginning with the earliest forms of warfare and concluding with the contemporary situation Stimulating and thought provoking this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures

Business Ethics from Antiquity to the 19th Century David George Surdam,2020-01-29 This book combines elements of economic and business history to study business ethics from antiquity to the nineteenth century This book begins with so called primitive people showing how humans began to exchange goods and commodities from trade as a way to keep peace and prosper The ancients considered the value and ethics of business and many of their reflections influenced medieval Catholic thinkers and business participants Protestants elevated working and profit making to the respectable and virtuous and some groups such as Quakers came to exemplify good business ethics This book draws on the work of economists and historians to highlight the importance of changing technologies religious beliefs and cultural attitudes showing that what is considered ethical differs across time and place

Intelligence in War John Keegan,2004-10-12 Pre eminent war historian John Keegan sets out to answer the question how much does military intelligence matter to victory By examining case studies from Nelson s pursuit of Napoleon s Fleet across the Mediterranean in 1788 to the Battle of the Atlantic in 1940 Keegan gives us a new history of war through the prism of intelligence
