

Release the switch when the sunroof has reached completely open or completely closed position.

If the sunroof does not operate when the sunroof switch is operated, release the switch and check whether something is trapped by the sunroof. If nothing is trapped, have the sunroof checked at an authorized Mitsubishi dealer.

Depending on the model of ski carrier or roof carrier the sunroof may contact with the carrier when the sunroof is tilted up. Be careful when tilting up the sunroof if a ski carrier or a roof carrier is installed.

Be sure to close the sunroof completely when washing the vehicle or when leaving the vehicle.

Be careful not to put any wax on the weatherstrip (black rubber) around the sunroof opening. If stained with wax, the weatherstrip cannot maintain a weatherproof seal with the sunroof.

After washing the vehicle or after rain be sure to wipe off any water that is on the sunroof before operating it.

Operating the sunroof repeatedly with the engine turned off will run down the battery. Operate the sunroof while the engine is running.
