do some people follow their instincts and win while others end up stumbling into error How do our brains really work in the office in the classroom in the kitchen and in the bedroom And why are the best decisions often those that are impossible to explain to others In Blink we meet the psychologist who has learned to predict whether a marriage will last based on a few minutes of observing a couple the tennis coach who knows when a player will double fault before the racket even makes contact with the ball the antiquities experts who recognize a fake at a glance Here too are great failures of blink the election of Warren Harding New Coke and the shooting of Amadou Diallo by police Blink reveals that great decision makers aren't those who process the most information or spend the most time deliberating but those who have perfected the art of thin slicing filtering the very few factors that matter from an overwhelming number of variables Clinical Case Studies for the Family Nurse Practitioner Leslie Neal-Boylan,2011-11-28 Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing diagnosing and managing cases in family and primary care Composed of more than 70 cases ranging from common to unique the book compiles years of experience from experts in the field It is organized chronologically presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format This includes differential diagnosis and a series of critical thinking questions ideal for self assessment or classroom use *Principles of Financial Accounting* Belverd E.
