Medical Apartheid Harriet A. Washington, 2008-01-08 NATIONAL BOOK CRITICS CIRCLE AWARD WINNER The first full history of Black America's shocking mistreatment as unwilling and unwitting experimental subjects at the hands of the medical establishment. No one concerned with issues of public health and racial justice can afford not to read this masterful book. Washington has unearthed a shocking amount of information and shaped it into a riveting, carefully documented book. New York Times: From the era of slavery to the present day, starting with the earliest encounters between Black Americans and Western medical researchers and the racist pseudoscience that resulted, *Medical Apartheid* details the ways both slaves and freedmen were used in hospitals for experiments conducted without their knowledge, a tradition that continues today within some Black populations. It reveals how Blacks have historically been prey to grave robbing as well as unauthorized autopsies and dissections. Moving into the twentieth century, it shows how the pseudoscience of eugenics and social Darwinism was used to justify experimental exploitation and shoddy medical treatment of Blacks. Shocking new details about the government's notorious Tuskegee experiment are revealed, as are similar, less well-known medical atrocities conducted by the government, the armed forces, prisons, and private institutions. The product of years of prodigious research into medical journals and experimental reports, long undisturbed, *Medical Apartheid* reveals the hidden underbelly of scientific research and makes possible for the first time an understanding of the roots of the African American health deficit. At last, it provides the fullest possible context for comprehending the behavioral fallout that has caused Black Americans to view researchers and indeed the whole medical establishment with such deep distrust.

No Higher Honor Condoleezza Rice, 2012-09-04 NEW YORK TIMES BESTSELLER From the former national security advisor and secretary of state comes a sharp and penetrating reminder that foreign policy choices facing the United States are complex and difficult with no easy solutions. The Washington Post: A native of Birmingham, Alabama, who overcame the racism of the civil rights era to become a brilliant academic and expert on foreign affairs, Condoleezza Rice first distinguished herself as an advisor to George W. Bush during the 2000 presidential campaign and eventually became one of his closest confidantes. Once he was elected, she served first as his chief advisor on national security issues and later as America's chief diplomat. From the aftermath of September 11, 2001, when she stood at the center of the administration's efforts to protect the nation, to her efforts as secretary of state to manage the world's volatile relationships with North Korea, Iran, and Libya, her service to America led her to confront some of the worst crises the country has ever faced. This is her unflinchingly honest story of that remarkable time from what really went on behind closed doors when the fates of Israel, the Palestinian Authority, and Lebanon often hung in the balance and how frighteningly close all-out war loomed in clashes involving Pakistan, India, and Russia. Georgia to her candid appraisal of her colleagues and contemporaries. In *No Higher Honor*, Condoleezza Rice delivers a master class in statecraft but always in a way that reveals her essential warmth and humility and her deep reverence for the ideals on which America was founded.
