Code of the West Dec 03 2021 The code of chivalry, a standard of honor between men and of loyalty and decency between a girl and a man. When Georgiana Stockwell came to the Tonto Basin from the East she had heard neither of chivalry nor of loyalty, she cared only to have the attention of as many men as possible—and to have her own way with them.

Idaho Politics and Government Jul 30 2021 Examining politics in Idaho through the lens of ideology (i.e., conservative versus liberal) or partisanship (i.e., Democrat versus Republican) does not illuminate the more fundamental dynamics of the state's political environment. Unlike other states that are divided on partisan or traditional ideological lines, Idaho tends to be divided between its libertarian and communitarian visions of the role of government and the place of the individual in society. In *Idaho Politics and Government*, Jasper M. LiCalzi examines the complex world of Idaho politics, where morality dominates but a heartily libertarian strain of individualism keeps lawmakers from falling into the liberal versus conservative dialogue prevalent in other states. After opening with the ultrasound bill failure as a recent example of Idaho's political culture, LiCalzi traces the influence of individuals and party factions from the 1960s through the present before moving on to the

inner workings of government itself, with all its institutions and extra-governmental extensions. He closes with another recent Idaho bill concerning the topics of child support and Sharia (Islamic) law, giving readers yet another glimpse of the workings of Idaho politics and the continuing clash between the community and the individual. Presenting a continuum of political views from an emphasis on the individual (personified by Thomas Jefferson) to a focus on community (personified by Alexander Hamilton), LiCalzi provides a new method for understanding political actions and situations in Idaho.

Water-Quality Conditions Near the Confluence of the Snake and Boise Rivers, Canyon County, Idaho Nov 13 2022 The U.S. Environmental Protection Agency (USEPA) approved a Total Maximum Daily Load (TMDL) for the Snake River-Hells Canyon reach (), which set seasonal (May through September) average and annual maximum concentrations of chlorophyll-a to preserve designated desirable uses that water quality should support, such as potable water supply, recreation, and aquatic habitat. To attain phosphorus concentration at the mouth of the Boise River has been set at 0.07 mg/L, which is lower than past monitored and modeled total phosphorus concentrations. However, interactions among and temporal variability in algae growth, nutrients, and other key water-quality parameters that may Boise River contributions of nutrients and algae to the loads transported by the Snake River into the Snake River-Hells Canyon reach.
