The Moon Illusion Maurice Hershenson, 2013-05-13 This unique volume attempts to answer one of mankind's oldest puzzles: why the moon appears to be larger and closer on the horizon than when it is high in the sky. Over the centuries, many viable solutions have been proposed for this psychological phenomenon. *The Moon Illusion* presents papers by major theorists striving to explain the illusion and providing commentaries on the works of others. Research on the moon illusion has been scattered throughout journals in many disciplines, including philosophy, physiology, physics, and psychology. As the first publication to present a comprehensive treatment of the problem, this book is of vital interest to professionals whose major concern is visual perception, experimental psychology, or the neurosciences. Of additional interest to those whose focus is physics or astronomy.

Conning Harvard Julie Zauzmer, Xi Yu, 2013-09-03 In 2011, a 24-year-old man pled guilty to falsifying his application to Harvard University, bilking the world's most prestigious university out of more than 45,000 in prizes and scholarships. Using forged SAT scores, transcripts, and letters of recommendation, Adam Wheeler outsmarted Harvard's admissions office and then went even further. Once accepted into the Ivy League, he kept lying, cheating, and succeeding, winning thousands of dollars in prizes and grants. But then he shot too far. During his senior year, Wheeler applied for Rhodes and Fulbright scholarships, a gamble that finally exposed his extensive tangle of lies. Alerted that he was under suspicion, Wheeler fled Harvard but did not stop. He successfully filed more fraudulent applications at top-tier schools across the country until some vigilant admissions officers, Massachusetts police, and even his own parents forced him off his computer and into court. As reporters for *The Harvard Crimson*, Julie Zauzmer and Xi Yu covered the case from the moment the news of Wheeler's indictment broke. In the course of their reporting, they interviewed dozens of friends, roommates, teachers, and advisors who knew Wheeler at the many phases of his suspect academic career. Their fascinating account reveals how one serial scammer took on the competitive world of the Ivy League and almost won.
