courses to two year programs In this respect mediation is comparable to sports or the fine arts One can practice this intuitively and with basic training at grass roots level further develop this at the professional level and become a master in mediation On the professional level mediation is a respected part of the judicial process and the mediator is recognized as a full partner in the process of conflict management and dispute resolution an expert with specific knowledge and skills to assist as a third party To achieve this a high quality education in mediation is essential Otherwise mediation will be seen particularly by other professions and professionals as a soft skills and a secondary service At the professional level how should an education be developed What roles should universities play in mediation education What are the trends and what are the necessary steps to take to further develop this young profession into evidence based practices These questions formed the theme of an international symposium in Utrecht Mastering Mediation Education organized by the Universities of Utrecht and Leuven The mediation topics discussed at the symposium are presented in this book
