The Reader's Companion to World Literature Jan 15 2024 An alphabetical listing and description of authors, works, literary types and terms, mythological figures, and literary periods and movements from all over the world Landfill Engineering Feb 21 2022 A complete reference on all aspects of landfill engineering including landfill characteristics, measuring, analysis and modelling of landfill behaviour, recycling materials and landfill design; this handbook is a vital source of information on current methods of landfill use and management. Environmental pressures and changes in legislation, such as the EU Landfill Directive, are forcing us to rethink our attitudes towards landfill. The necessity of diverting and separating biodegradable domestic waste from hazardous waste, as well as an increased emphasis upon recycling waste materials is changing the engineering properties of landfill, which are a function not only of their physical characteristics, but also the chemistry of degradation. Increasing government pressure to redevelop brownfield land is driving the redevelopment of closed landfill sites prompting engineers to reconsider the disposal of waste in new sites to enable their safe redevelopment in the future. This is a significant challenge; the engineering questions are considerable and have not been addressed in the literature to date. This book is an essential reference on the engineering of landfill materials, providing safe solutions to engineering problems from the construction and development of new landfill facilities, to the reuse and development on closed sites.

Improving Tourism and Hospitality Services Aug 30 2022 Consumer satisfaction is a key issue for all those involved in tourism and hospitality services. Through a multitude of case studies this book explores the challenge of managing tourism and hospitality businesses in order to produce maximum customer satisfaction. It outlines the various frameworks available for the study of tourist satisfaction, before examining service delivery systems and definitions of quality. It then discusses the role that marketing can play in tourism and hospitality services, the ways in which hospitality and tourism services can be improved. The book contains examples of customer dissatisfaction, and examples of organisations that have succeeded in providing profitable services with high levels of customer loyalty.

Ultra-wide Bandgap Semiconductor Materials Mar 05 2023 Ultra-wide Bandgap Semiconductors (UWBG) covers the most recent progress in UWBG materials, including sections on high-Al-content AlGaN, diamond, B-Ga₂O₃, and boron nitrides. The coverage of these materials is comprehensive, addressing materials growth, physics properties, doping, device design, fabrication and performance. The most relevant and important applications are covered, including power electronics, RF electronics and DUV optoelectronics. There is also a chapter on novel structures based on UWBG, such as the heterojunctions, the low-dimensional structures, and their devices. This book is ideal for materials scientists and engineers in academia and R&D searching for materials superior to silicon carbide and gallium nitride. Provides a one-stop resource on the most promising ultra-wide bandgap semiconducting materials, including high-Al-content AlGaN, diamond, ?-Ga₂O₃, boron nitrides, and low-dimensional materials Presents comprehensive coverage, from materials growth and properties, to device design, fabrication and performance Features the most relevant applications, including power electronics, RF electronics and DUV optoelectronics

Duty and Desire Book Club Edition Apr 25 2022 To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.

Before They Fade Feb 04 2023 For over three centuries, the Royal Hospital at Chelsea has been home to thousands of men who have served their country in the British Army. Men who fought at battles such as Malplaquet, Corunna, Waterloo, Inkerman, Passchendale, the Somme, Tobruk, Burma, Anzio and Normandy. Each one has his own story to tell. This selection collected verbatim from men still living gives a deep insight into the life of a soldier, made even more vivid by their actual words.

Narratives Unfolding Apr 06 2023 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written – some for the first time – while innovative methods and practices redraw the boundaries of these imagined communities. Narratives Unfolding considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. Narratives Unfolding is both a survey of current art historical approaches and their connection to the source: art making and art experience happening somewhere.

St. James Encyclopedia of Popular Culture Mar 25 2022 The St. James Encyclopedia Of Popular Culture, 2nd ed., updates and augments the over ten-year-old first edition. It includes 3,036 signed essays (300 of them new), alphabetically arranged, and written or reviewed by subject experts and edited to form a consistent, readable, and straightforward reference. The entries cover topics and persons in major areas of popular culture: film; music; print culture; social life; sports; television and radio; and art and performance (which include theater, dance, stand-up comedy, and other live performance). The entries analyze each topic or person's significance in and relevance to American popular culture; in addition to basic factual information, readers will gain perspective on the cultural context in which the topic or person has importance.

Varieties of Exile May 07 2023 Isolation, remoteness from one's native land, and the loss of language are but a few of the themes that recur in the literature of exile written over the centuries. In this book, the first study of the theme of exile in Canadian literature, Hallvard Dahlie brings together a broad spectrum of Canadian writers --

writers from the Old World who have become exiles to Canada, but also Canadians who have exiled themselves for varying periods from Canada.

The Angel of Dien Bien Phu Jul 29 2022 Geneviève de Galard was a flight nurse for the French Air Force who received the name of the "Angel of Dien Bien Phu" during the French war in Indochina. She volunteered for French Indochina and arrived there in May 1953, in the middle of the war between French forces and the Vietminh. Galard was stationed in Hanoi and flew on casualty evacuation flights from Pleiku. After January 1954 she was on the flights that evacuated casualties from the Battle of Dien Bien Phu. Her first patients were mainly soldiers who suffered from diseases but after mid-March most of them were battle casualties. Sometimes Red Cross planes had to land in the midst of Vietminh artillery barrages. On March 27, 1954, when a Red Cross C-47 with Galard aboard tried to land at night on the short runway of Dien Bien Phu, the landing overshot and the plane's left engine was seriously damaged. The mechanics could not repair the plane in the field, so the plane was stranded. At daylight Vietminh artillery destroyed the C-47 and damaged the runway beyond repair. Galard went to a field hospital under command of doctor Paul Grauwin and volunteered her services as a nurse. Although the men of the medical staff were initially apprehensive —she was the only woman in the base —they eventually made accommodations for her. They also arranged a semblance of uniform; camouflage overalls, trousers, basketball shoes, and a t-shirt. Galard did her best in very unsanitary conditions, comforting those about to die and trying to keep up morale in the face of the mounting casualties. Many of the men later complimented her efforts. On the 29th of April 1954 Geneviève de Galard was awarded the Knight's Cross of the Légion d'Honneur and the Croix de Guerre. It was presented to her by the commander of Dien Bien Phu, General de Castries. The following day, during the celebration of the French Foreign Legion's annual "Camerone", de Galard was made an honorary "Legionnaire de 1ère classe" alongside Lieutenant Colonel Marcel Bigeard, the commander of the 6th Colonial Parachute Battalion. French troops at Dien Bien Phu finally capitulated on May 7. However, the Vietminh allowed Galard and the medical staff continue to care for their wounded. Galard still refused any kind of cooperation. When some of the Vietminh began to hoard medical supplies for their own use, she hid some of them under her stretcher bed. On May 24, Geneviève de Galard was evacuated to French-held Hanoi, partially against her will. The American press gave her the name "Angel of Dien Bien Phu." She was given a tickertape parade up Broadway, a standing ovation in Congress. On 29 July 1954 President Eisenhower awarded her the Presidential Medal of Freedom during a ceremony in the White House Rose Garden. She currently lives in Paris with her husband.

I Will Survive Aug 10 2023 I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

DOPE, INC. Britain's Opium War Against the World Jan 23 2022 The Opium Wars of 1840-1860 were dark

chapters of history. Britain went to war to force China to import thousands of tons of opium, to cripple and impoverish that nation. The Opium Wars never really ended. The U.S., like China, was too great for the London money lords to occupy by force. One way America is being brought to heel is by the drug trade. Crime and other social problems in the U.S. and Mexico are massively influenced by drugs and drug dealing. Illicit drugs may now account for as much as \$1 trillion annually in financing for criminal activity and corruption. TOPICS: The East India Company; British role in the drug trade, from the wars on China, the HongShanghai Bank, Bronfmans, Prohibition and Organized Crime in the U.S. Financial derivatives; Wall St., money laundering; medical marijuana. decriminalization; Soros and IMF links to drugs. Afghan opium; Colombian cartel; terrorism. Russia targeted by Dope, Inc. cocaine, heroin, amphetamines. More than 30 years have passed since the first edition of Dope, Inc. was published, in 1978. Commissioned by Lyndon Larouche, it threatened the world's power structure. It became America's underground best-seller. Dope, Inc. drew the line between American patriots and the British apparatus destroying the USA. The London and Wall Street bankers ran for cover. A mammoth campaign of slander and government dirty tricks tried to bury the authors, because Dope, Inc. revealed the most deeply held secrets of the big names behind the world's illegal narcotics trade. In Venezuela, the leading drug-running families who were exposed in the Spanish-language version, Narcotrafico, S.A., used their political influence to have it banned and confiscated. Financiers scrambled to control the damage of this unprecedented exposure. The Hongkong and Shanghai Banking Corporation was denied a license in New York State because it failed to refute the charges in Dope, Inc, when the state demanded accounting of its hidden profits, silent subsidiaries, and paraphernalia of money-laundering. Now in 2010, Dope, Inc. is completely updated: Soros - Afghanistan - the government and bankers behind the cartels. Today the British-controlled dope trade finances the world's leading terrorist entities Afghanistan's Taliban, the Chechen rebels, the FARC guerrillas of Colombia. Dope money supports the bankrupt world financial system. A trillion dollars goes through the Cayman Islands, the Isle of Man, Dubai. Speculation makes it trillions more. It sucks the blood of the real economy; and the dope destroys mankind's powers of reason.

The Car Hacker's Handbook Jun 20 2024 Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker's Handbook will show you how to: -Build an accurate threat model for your vehicle -Reverse engineer the CAN bus to fake engine signals -Exploit vulnerabilities in diagnostic and data-logging systems -Hack the ECU and other firmware and embedded systems -Feed exploits through infotainment and vehicle-to-vehicle communication systems -Override factory settings with performance-tuning techniques -Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a ton computer, make The Car Hacker's Handbook your first stop.

Stranded in a Snowstorm Jan 03 2023 Think that heading out into the Colorado forest in 60 degree weather in May is totally safe? Think again. As Nico and his baby sitter Hannah quickly learn, Mother Nature can turn on a dime, and when she does, she dumps so much snow on them that they can't find their way out of what should have been a simple overnight backpacking trip. Trek along with these two as an unexpected snowstorm teaches them just how much wilderness savvy they have. It's not enough. They need more. See how their rescuer uses 21st century technology along with timeless backcountry smarts to try to find his friends. And, experience how Nico, our 12 year old hero, comes to understand that sometimes misbehaving isn't as bad as some adults make out to be. "Stranded in a Snowstorm" features backcountry powder skiing and snowboarding, backpacking, fire-lighting, survival, rock and roll, and emergency whistles. Our heroes have to hike high, hunker low, ski and ride fast, and huddle together just to survive. Will they make it out alive? Will their twists and turns be enough to keep them from the dangers that beautiful Mother Nature brings? Will you feel like strapping a board to your feet and poking some freshies while you read this epic adventure?

The Anarchist Cookbook May 19 2024 The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is not written for the members of fringe political groups, such as the Weatherman, or the Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There is detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.
