Underground! Nov 28 2023 Everything from the fingerprints of the gods through the hidden history of the human race.

The Stickler's Guide to Science in the Age of Misinformation Sep 14 2022 A wise and witty look at the real scientific principles behind some of the most commonly held—and widely spread—scientific misconceptions.

How to Lose the Information War May 11 2022 Since the start of the Trump era, the United States and the Western world has finally begun to wake up to the threat of online warfare and the attacks from Russia, who flood social media with disinformation, and circulate false and misleading information to fuel fake narratives and make the case for illegal warfare. The question no one seems to be able to answer is: what can the West do about it? Central and Eastern European states, including Ukraine and Poland, however, have been aware of the threat for years. Nina Jankowicz has advised these governments on the front lines of the information war. The lessons she learnt from that fight, and from her attempts to get US congress to act, make for essential reading. *How to Lose the Information War* takes the reader on a journey through five Western governments' responses to Russian information warfare tactics - all of which have failed. She journeys into the campaigns the Russian operatives run, and shows how we can better understand the motivations behind these attacks and how to beat them. Above all, this book shows what is at stake: the future of civil discourse and democracy, and the value of truth itself.

True or False Jun 23 2023 "If I could pick one book to hand to every teen—and adult—on earth, this is the one. True or False is accessible, thorough, and searingly honest, and we desperately needed it." —Becky Albertalli, author of *Simon vs. the Homo Sapiens Agenda* A former CIA analyst unveils the true history of fake news and gives readers tips on how to avoid falling victim to it in this highly designed informative YA nonfiction title. "Fake news" is a term you've probably heard a lot in the last few years, but it's not a new phenomenon. From the ancient Egyptians to the French Revolution to Jack the Ripper and the founding fathers, fake news has been around as long as human civilization. But that doesn't mean that we should just give up on the idea of finding the truth. In *True or False*, former CIA analyst Cindy Otis will take readers through the history and impact of misinformation over the centuries, sharing stories from the past and insights that readers today can gain from them. Then, she shares lessons learned in over a decade working for the CIA, including actionable tips on how to spot fake news, how to make sense of the information we receive each day, and, perhaps most importantly, how to understand and see past our own information biases, so that we can think critically about important issues and put events happening around us into context. *True or False* includes a wealth of photo illustrations, informative inserts, and sidebars containing interesting facts and trivia sure to engage readers in critical thinking and analysis. This title has common core connections.

You Are Here Aug 14 2022 How to understand a media environment in crisis, and how to make things better by approaching information ecologically. Our media environment is in crisis. Polarization is rampant. Polluted information floods social media. Even our best efforts to help clean up can backfire, sending toxins roaring across the landscape. In *You Are Here*, Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows. Using ecological metaphors, they emphasize how our individual me is entwined

within a much larger we, and how everyone fits within an ever-shifting network map.

Information Wars Sep 02 2021 A “well-told” insider account of the State Department’s twenty-first-century struggle to defend America against malicious propaganda and disinformation (The Washington Post). Disinformation is nothing new. When Satan told Eve nothing would happen if she bit the apple, that was disinformation. But today, social media has made disinformation even more pervasive and pernicious. In a disturbing turn of events, authoritarian governments are increasingly using it to create their own false narratives, and democracies are proving not to be very good at fighting it. During the final three years of the Obama administration, Richard Stengel, former editor of Time, was an Under Secretary of State on the front lines of this new global information war—tasked with unpacking, disproving, and combating both ISIS’s messaging and Russian disinformation. Then, during the 2016 election, Stengel watched as Donald Trump used disinformation himself. In fact, Stengel quickly came to see how all three had used the same playbook: ISIS sought to make Islam great again; Putin tried to make Russia great again; and we know the rest. In *Information Wars*, Stengel moves through Russia and Ukraine, Saudi Arabia and Iraq, and introduces characters from Putin to Hillary Clinton, John Kerry, and Mohamed bin Salman, to show how disinformation is impacting our global society. He illustrates how ISIS terrorized the world using social media, and how the Russians launched a tsunami of disinformation around the annexation of Crimea—a scheme that would become a model for future endeavors. An urgent book for our times, now with a new preface from the author, *Information Wars* challenges us to combat this ever-growing threat to democracy. “[A] refreshingly frank account . . . revealing.” —Kirkus Reviews “This sobering book is indeed needed to help individuals better understand how information can be massaged to produce any sort of message desired.” —Library Journal

Alt-Right May 30 2021 This book is a vital guide to understanding the racist, misogynist, far-right movement that rose to prominence during Donald Trump’s successful election campaign. To some, the movement appears to have burst out of nowhere, but journalist Mike Wendling has been tracking the Alt-Right for years. He reveals the role of technological utopians, reactionary philosophers, the notorious 4chan bulletin boards, and a range of bloggers, vloggers and tweeters, and the extreme ideas they attempt to popularize. Analyzing what the Alt-Right stands for, based upon interviews with movement leaders and foot soldiers, Wendling provides evidence linking extremists with terror attacks and hate crimes. Ultimately the book argues that, despite its high profile support, the movement’s contradictory tendencies will lead to its downfall.

After the Fact? Aug 02 2021 Why do we no longer trust facts, experts and statistics? In this essential guide to the turbulent times in which we live, Marcus Gilroy-Ware investigates our era of post-truths and fake news and answers the question of where we can go from here. We are supposed to have more information at our disposal now than at any time in history. So why, in a world of rising sea levels, populist leaders, resurgent fascism and a global pandemic, do so many people believe bizarre and untrue things about the world we live in? In *After the Fact?*, Marcus Gilroy-Ware shows us what really created the conditions for mis- and disinformation, from fake news and conspiracy theories, to bullshit journalism and the resurgence of the far-right, and why liberal newspaper columnists and centrist politicians are unable to turn back this tide. Spanning politics, culture, psychology, journalism, and much more, *After the Fact?* is a timely wake-up call for those who believe we can simply go “back to normal”, and instead argues that, if we are to put an end to “fake news” we must deal with the broader social crises that are responsible for it.

Everything You Know About God Is Wrong Oct 28 2023 In the new mega-anthology from best-selling editor Russ Kick, more than fifty writers, reporters, and researchers invade the inner sanctum for an unrestrained look at the wild and woolly world of organized belief. Richard Dawkins shows us the strange, scary properties of religion; Neil Gaiman turns a biblical atrocity story into a comic (that almost sent a publisher to prison); Erik Davis looks at what happens when religion and California collide; Mike Dash eyes stigmatics; Douglas Rushkoff exposes the trouble with Judaism; Paul Krassner reveals his “Confessions of an Atheist”; and best-selling lexicographer Jonathon Green interprets the language of religious prejudice. Among the dozens of other articles and essays, you’ll find: a sweeping look at classical composers and Great American Songbook writers who were unbelievers, such as Irving Berlin, creator of “God Bless America”; the definitive explanation of why America is not a Christian nation; the bizarre, Catholic-fundamentalist books by Mel Gibson’s father; eye-popping photos of bizarre religious objects and ceremonies, including snake-handlers and pot-smoking children; the thinly veiled anti-Semitism in the *Left Behind* novels; an extract from the rare, suppressed book *The Sex Life of Brigham Young*; and rarely seen anti-religious writings from Mark Twain and H.G. Wells. Further topics include exorcisms, religious curses, Wicca, the Church of John Coltrane, crimes by clergy, death without God, Christian sex manuals, the “ex-gay” movement, failed prophecies, bizarre theology, religious bowling, atheist rock and roll, “how to be a good Christian,” an entertaining look at the best (and worst) books on religion, and much more.

Abuse Your Illusions Jun 04 2024 The third of Russ Kick’s bestselling *Disinformation Guides* gathers another all-

star line-up of exposés: Juries have ruled in recent trials that Watergate was really about a Democratic Party prostitution ring. Ignored in the U.S. and distorted elsewhere, the Milosevic tribunal hasn't gone the way authorities were anticipating. (We present exclusive first-hand reporting from the trial). Most theologians don't believe in the physical Resurrection of Jesus. In 2001, the U.S. uncovered the biggest spy ring in the country since WWII, yet most people never heard about it. The U.S. is engaging in bioweapons research that violates international treaties and federal law. (The New York Times knows about this but refuses to report it). Teddy Roosevelt and Wall Street created Panama for profit. Gandhi wasn't so wonderful, after all. These are just some of the revelations in the third of our all-star anthologies. Following up on bestsellers *You Are Being Lied To* and *Everything You Know Is Wrong*, editor Russ Kick has again assembled a line-up of leading investigative journalists, academics, activists, commentators, and independent researchers, covering CIA assassinations, the anthrax attacks, fluoride, TWA 800, Abraham Lincoln, child protective services, the tobacco industry, forgotten uprisings, the government's missing trillions, even more revelations about 9/11 and much more. Contributors include Gary Webb, Greg Palast, Noreena Hertz, Howard Zinn, Douglas Valentine, Jim Houghan, Kristina Borjesson, Arianna Huffington and many more well-known writers—some of whom you'll be extremely surprised to see in these pages!

Under the Influence Jan 31 2024 This myth-busting anthology cuts through the propaganda to tell the true story of drug use, abuse, and the costly war on friends, families and communities. Author and regular High Times contributor Preston Peet assembles an all-star cast of writers to shine a harsh light on the misinformation peddled by prohibitionists who profit from the War on Some Drugs and Users. Despite the anti-drug hysteria, drugs have been an integral aspect of human life for thousands of years. They cure diseases, ease pain, enhance intelligence, calm nerves, open the doors of perception and alter consciousness. Yet, even with the easing of marijuana restrictions, the War on Some Drugs and Users continues to persecute huge swaths of the population. The reasons why can be found in *Under the Influence*. The decades and trillions of dollars spent waging war on neighbors, friends and families have done nothing to eradicate drug use and abuse, but they have succeeded in overthrowing governments, tearing apart families and communities, and ensured the rise of international criminal cartels. *Under the Influence* explains how we came to this state of affairs and how we can bring about real reform. Contributors include Tom Robbins, Paul Krassner, Rick Doblin, Mike Gray, Lonny Shavelson, Daniel Forbes, Steve Wishnia, Cynthia Cotts, Russ Kick, Dr. Stanislav Grof, Daniel Pinchbeck, Paul Armentano, Jacob Sullum, Peter Dale Scott and Robert Anton Wilson.

Network Propaganda Dec 06 2021 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Is social media destroying democracy? Are Russian propaganda or "Fake news" entrepreneurs on Facebook undermining our sense of a shared reality? A conventional wisdom has emerged since the election of Donald Trump in 2016 that new technologies and their manipulation by foreign actors played a decisive role in his victory and are responsible for the sense of a "post-truth" moment in which disinformation and propaganda thrives. Network Propaganda challenges that received wisdom through the most comprehensive study yet published on media coverage of American presidential politics from the start of the election cycle in April 2015 to the one year anniversary of the Trump presidency. Analysing millions of news stories together with Twitter and Facebook shares, broadcast television and YouTube, the book provides a comprehensive overview of the architecture of contemporary American political communications. Through data analysis and detailed qualitative case studies of coverage of immigration, Clinton scandals, and the Trump Russia investigation, the book finds that the right-wing media ecosystem operates fundamentally differently than the rest of the media environment. The authors argue that longstanding institutional, political, and cultural patterns in American politics interacted with technological change since the 1970s to create a propaganda feedback loop in American conservative media. This dynamic has marginalized centre-right media and politicians, radicalized the right wing ecosystem, and rendered it susceptible to propaganda efforts, foreign and domestic. For readers outside the United States, the book offers a new perspective and methods for diagnosing the sources of, and potential solutions for, the perceived global crisis of democratic politics.

The True Story of Fake News Nov 04 2021 Is fake news being spread through social media as part of an information war? Are political operatives publishing disinformation to smear the opposition and help their own agendas? Who creates fake news, how does it spread, and can it be stopped? What are the real world effects of fake news stories that go viral? Did it affect the outcome of the 2016 presidential election? Or is ‘fake news’ a fake problem, designed to justify tighter control over the mechanisms of sharing information online to drive audiences back to brand name media outlets because their audiences and influence are dwindling? Media analyst Mark Dice takes a close look at the fake news phenomenon and the implications of mega-corporations like Facebook, Google, and Twitter becoming the ultimate gatekeepers and distributors of news and information. You will see the powerful and deceptive methods of manipulation that affect us all, as numerous organizations and political activists cunningly plot to have their stories seen, heard, and believed by as many people as possible. The depths of lies, distortions, and omissions from traditional mainstream media will shock you; and now they’re colluding with the top tech companies trying to maintain their information monopolies. This is *The True Story of Fake News*.

The Misinformation Age Jul 01 2021 “Empowering and thoroughly researched, this book offers useful contemporary analysis and possible solutions to one of the greatest threats to democracy.” —Kirkus Reviews Editors’ choice, The New York Times Book Review Recommended reading, Scientific American Why should we care about having true beliefs? And why do demonstrably false beliefs persist and spread despite bad, even fatal, consequences for the people who hold them? Philosophers of science Cailin O’Connor and James Weatherall argue that social factors, rather than individual psychology, are what’s essential to understanding the spread and persistence of false beliefs. It might seem that there’s an obvious reason that true beliefs matter: false beliefs will hurt you. But if that’s right, then why is it (apparently) irrelevant to many people whether they believe true things or not? *The Misinformation Age*, written for a political era riven by “fake news,” “alternative facts,” and disputes over the validity of everything from climate change to the size of inauguration crowds, shows convincingly that what you believe depends on who you know. If social forces explain the persistence of false belief, we must understand how those forces work in order to fight misinformation effectively. “[The authors] deftly apply sociological models to examine how misinformation spreads among people and how scientific results get misrepresented in the public sphere.” —Andrea Gawrylewski, Scientific American “A notable new volume . . . *The Misinformation Age* explains systematically how facts are determined and changed—whether it is concerning the effects of vaccination on children or the Russian attack on the integrity of the electoral process.” —Roger I. Abrams, New York Journal of Books
