Channelling Mobilities Valeska Huber, 2013-08-01 The history of globalisation is usually told as a history of shortening distances and acceleration of the flows of people goods and ideas Channelling Mobilities refines this picture by looking at a wide variety of mobile people passing through the region of the Suez Canal a global shortcut opened in 1869 As an empirical contribution to global history the book asks how the passage between Europe and Asia and Africa was perceived staged and controlled from the opening of the Canal to the First World War arguing that this period was neither an era of unhampered acceleration nor one of hardening borders and increasing controls Instead it was characterised by the channelling of mobilities through the differentiation regulation and bureaucratisation of movement Telling the stories of tourists troops workers pilgrims stowaways caravans dhow skippers and others the book reveals the complicated entanglements of empires internationalist initiatives and private companies

Scientific and Technical Aerospace Reports, 1994 Strategy and Command Louis Morton, 2015-07-11 For the United States full involvement in World War II began and ended in the Pacific Ocean Although the accepted grand strategy of the war was the defeat of Germany first the sweep of Japanese victory in the weeks and months after Pearl Harbor impelled the United States to move as rapidly as it could to stem the enemy tide of conquest in the Pacific Shocked as they were by the initial attack the American people were also united in their determination to defeat Japan and the Pacific war became peculiarly their own affair In this great theater it was the United States that ran the war and had the determining voice in answering questions of strategy and command as they arose The natural environment made the prosecution of war in the Pacific of necessity an interservice effort and any real account of it must as this work does take into full account the views and actions of the Navy as well as those of the Army and its Air Forces These are the factors a predominantly American theater of war covering nearly one third the globe and a joint conduct of war by land sea and air on the largest scale in American history that make this volume on the Pacific war of particular significance today It is the capstone of the eleven volumes published or being published in the Army's World War II series that deal with military operations in the Pacific area and it is one that should command wide attention from the thoughtful public as well as the military reader in these days of global tension

Katz focuses on the distinctive nature of small businesses that students might actually start versus high growth firms. The goal of the companies described in this textbook is personal independence with financial security not market dominance with extreme wealth. Traditional beliefs and models in small business are discussed as well as the latest findings and best practices from academic and consulting arenas. Katz and Green recognize the distinction between entrepreneurs who aim to start the successor to Amazon.com or the pizza place around the corner. They discuss the challenges facing entrepreneurs while keeping focused on the small businesses students plan to start. Information and Its Role in Hunter-Gatherer Bands Robert K. Hitchcock, William A. Lovis, Robert Whallon, 2011-12-31 Information and its Role in Hunter-Gatherer Bands explores the question of how information broadly conceived is acquired stored circulated and utilized in small scale hunter-gatherer societies or bands. Given the nature of this question the volume brings together a group of scholars from multiple disciplines including archaeology ethnography linguistics and evolutionary ecology. Each of these specialties deals with the question of information in different ways and with different sets of data given

different primacy The fundamental goal of the volume is to bridge disciplines and subdisciplines open discussion and see if some common ground either theoretical perspectives general principles or methodologies can be developed upon which to build future research on the role of information in hunter gatherer bands
