A surprising take on how you can help tackle the really big problems in society—from one of America's most successful entrepreneurs. People are looking for a better way. Towering barriers are holding millions of people back, and the institutions that should help everyone rise are not doing the job. Crumbling communities. One-size fits all education. Businesses that rig the economy. Public policy that stifles opportunity and emboldens the extremes. As a result, this country is quickly heading toward a two-tiered society. Today's challenges call for nothing short of a paradigm shift – away from a top-down approach that sees people as problems to be managed, toward bottom-up solutions that empower everyone to realize their potential and foster a more inclusive society. Such a shift starts by asking: What would it mean to truly believe in people? Businessman and philanthropist Charles Koch has devoted his life to answering that question. Learn what he's discovered during his 60-year career to help you apply the principles of empowerment in your life, in your business, and in society. By learning from the social movements and applying the principles that have enabled social progress throughout history, Koch has achieved more than he dreamed possible – building one of the world's most successful companies and founding Stand Together, one of America's most innovative philanthropic communities. Stand Together CEO Brian Hooks and Koch show how the only way to solve the really big problems – from poverty and addiction to harmful business practices and destructive public policy – is for each and every one of us to find and take action in our unique role as part of the solution. Full of compelling examples of what works – including several first-person accounts from individuals whose lives have been transformed – Koch and Hooks' refreshing approach promotes partnership instead of partisanship and speaks to people from different perspectives and all walks of life. They show that no injustice is too tough to overcome if you share a deep belief in people, are willing to unite with anyone to do right, and work to empower others from the bottom up. Many leaders are unaware of the amazing power of questions. Our conversations may be full of requests and demands, but all too often we are not asking for honest and informative answers, and we don't know how to listen effectively to responses. When leaders start encouraging questions from their teams, however, they begin to see amazing results. Knowing the right questions to ask—and the right way to listen—will give any leader the skills to perform well in any situation, effectively communicate a vision to the team, and achieve lasting success across the organization. Thoroughly revised and updated, Leading with Questions will help you encourage participation and teamwork, foster outside-the-box thinking, empower others, build relationships with customers, solve problems, and more. Michael Marquardt reveals how to determine which questions will lead to solutions to even the most challenging issues. He outlines specific techniques of active listening and follow-up, and helps you understand how questions can improve the way you work with individuals, teams, and organizations. This new edition of Leading with Questions draws on interviews with thirty leaders, including eight whose stories are new to this edition. These interviews tell stories from a range of countries, including Singapore, Guyana, Korea, and Switzerland, and feature case studies from prominent firms such as DuPont, Alcoa, Novartis, and Cargill. A new chapter on problem-solving will help you apply questions to your toughest situations as a leader, and a new "Questions for Reflection" section at the end of each chapter will help you bring Marquardt's message into all of your work as a leader. Now more than ever, Leading with Questions is the definitive guide for becoming a stronger leader by identifying—and asking—the right questions. Required reading for both developing and experienced leaders, this one-of-a-kind workbook companion to a leadership classic outlines the core leadership principles that will make you more effective, more influential, and more successful—wherever you are in your career. If you've never read The 21 Irrefutable Laws of Leadership, you've been missing out on one of the best-selling leadership books of all time. In this companion workbook, leadership expert John C. Maxwell shares powerful insights gleaned from his forty-plus years of leadership success. Maxwell helps you: Take your leadership skills to the next level Discover life-changing principles of influence, empowerment, intuition, and legacy Observe your own career and evaluate yourself, using an evaluation tool that reveals your leadership strengths and weaknesses Learn from stories and observations from the worlds of business, politics, sports, the military, and non-profit organizations so you can transform as a leader Each of the twenty-one lessons contains the following sections: Definition of the Law: Understand the law and how it operates Case Studies: Explore three primary cases—some positive, some negative—that reveal and illustrate the law. Leadership Insight and Reflection: Draw important personal conclusions about the impact of this law on your life. Taking Action: Assess yourself in this law and develop specific action steps to grow or make important changes. Group Discussion Questions: Explore the core issues and share your insights through a guided discussion with your group. This workbook isn't designed to be merely a theoretical exercise. It's meant to help you become a better leader. And while you can easily go through this study on your own, there's nothing more transformational than learning with other like-minded people. So, gather a group of any size and see what happens as you help each other become the kind of leaders that people want to follow. The dangerous work of leading change--somebody has to do it. Will you put yourself on the line? To lead is to live dangerously.
