Energy at the End of the World Mar 25 2021 Making local energy futures, from marine energy to hydrogen fuel, at the edge of the world. The islands of Orkney, off the northern coast of Scotland, are closer to the Arctic Circle than to London. Surrounded by fierce seas and shrouded by clouds and mist, the islands seem to mark the edge of the known world. And yet they are a center for energy technology innovation, from marine energy to hydrogen fuel networks, attracting the interest of venture capitalists and local communities. In this book, Laura Watts tells a story of making energy futures at the edge of the world. Orkney, Watts tells us, has been making technology for six thousand years, from arrowheads and stone circles to wave and tide energy prototypes. Artifacts and traces of all the ages—Stone, Bronze, Iron, Viking, Silicon—are visible everywhere. The islanders turned to energy innovation when forced to contend with an energy infrastructure they had outgrown. Today, Orkney is home to the European Marine Energy Centre, established in 2003. There are about forty open-sea marine energy test facilities in the world, many of which draw on Orkney expertise. The islands generate more renewable energy than they use, are growing hydrogen fuel and electric car networks, and have hundreds of locally owned micro wind turbines and a decade-old smart grid. Mixing storytelling and ethnography, empiricism and lyricism, Watts tells an Orkney energy saga—an account of how the islands are creating their own low-carbon future in the face of the seemingly impossible. The Orkney Islands, Watts shows, are playing a long game, making energy futures for another six thousand years.

The Grace Year Dec 15 2022 The Instant New York Times Bestseller! Kim Liggett's *The Grace Year* is a speculative thriller in the vein of *The Handmaid 's Tale* and *The Power*. Survive the year. No one speaks of the grace year. It 's forbidden. In Garner County, girls are told they have the power to lure grown men from their beds, to drive women mad with jealousy. They believe their very skin emits a powerful aphrodisiac, the potent essence of youth, of a girl on the edge of womanhood. That 's why they 're banished for their sixteenth year, to release their magic into the wild so they can return purified and ready for marriage. But not all of them will make it home alive. Sixteen-year-old Tierney James dreams of a better life—a society that doesn 't pit friend against friend or woman

against woman, but as her own grace year draws near, she quickly realizes that it ' s not just the brutal elements they must fear. It ' s not even the poachers in the woods, men who are waiting for a chance to grab one of the girls in order to make a fortune on the black market. Their greatest threat may very well be each other. With sharp prose and gritty realism, *The Grace Year* examines the complex and sometimes twisted relationships between girls, the women they eventually become, and the difficult decisions they make in-between. “ A visceral, darkly haunting fever dream of a novel and an absolute page-turner. ” – Libba Bray, New York Times bestselling author

At the End of an Age Aug 23 2023 *At the End of an Age* is a deeply informed and rewarding reflection on the nature of historical and scientific knowledge. Of extraordinary philosophical, religious, and historical scope, it is the product of a great historian's lifetime of thought on the subject of his discipline and the human condition. While running counter to most of the accepted ideas and doctrines of our time, it offers a compelling framework for understanding history, science, and man's capacity for self-knowledge. In this work, John Lukacs describes how we in the Western world have now been living through the ending of an entire historical age that began in Western Europe about five hundred years ago. Unlike people during the ending of the Middle Ages or the Roman empire, we can know where we are. But how and what is it that we know? In John Lukacs's view, there is no science apart from scientists, and all of "Science," including our view of the universe, is a human creation, imagined and defined by fallible human beings in a historical continuum. This radical and reactionary assertion--in its way a summa of the author's thinking, expressed here and there in many of his previous twenty-odd books--leads to his fundamental assertion that, contrary to all existing cosmological doctrines and theories, it is this earth which is the very center of the universe--the only universe we know and can know.

At the End of the Century Dec 27 2023 A New York Times Book Review Editors' Choice Multilayered, subtle, insightful short stories from the inimitable Booker Prize-winning author, with an introduction by Anita Desai Nobody has written so powerfully of the relationship between and within India and the Western middle classes than Ruth Praver Jhabvala. In this selection of stories, chosen by her surviving family, her ability to tenderly and humorously view the situations faced by three (sometimes interacting) cultures—European, post-Independence Indian, and American—is never more acute. In “ A Course of English Studies, ” a young woman arrives at Oxford from India and struggles to adapt, not only to the sad, stoic object of her infatuation, but also to a country that seems so resistant to passion and color. In the wrenching “ Expiation, ” the blind, unconditional love of a cloth shop owner for his wastrel younger brother exposes the tragic beauty and foolishness of human compassion and faith. The wry and triumphant “ Pagans ” brings us middle-aged sisters Brigitte and Frankie in Los Angeles, who discover a youthful sexuality in the company of the languid and handsome young Indian, Shoki. This collection

also includes Jhabvala's last story, "The Judge's Will," which appeared in *The New Yorker* in 2013 after her death. The profound inner experience of both men and women is at the center of Jhabvala's writing: she rivals Jane Austen with her impeccable powers of observation. With an introduction by her friend, the writer Anita Desai, *At the End of the Century* celebrates a writer's astonishing lifetime gift for language, and leaves us with no doubt of Ruth Praver Jhabvala's unique place in modern literature. "The stories—all of them elegantly plotted and unsentimental, with an addictive, told-over-tea quality—are largely character studies of people isolated, often tragically, by custom or self-delusion . . . Vivid, unsparring portraits are leavened with the kind of humanizing moments that evoke a total world within their compression."—Megan O'Grady, *The New York Times Book Review* Ohio Aug 30 2021

Island at the End of the World Feb 22 2021 On a long stretch of green coast in the South Pacific, hundreds of enormous, impassive stone heads stand guard against the ravages of time, war, and disease that have attempted over the centuries to conquer Easter Island. Steven Roger Fischer offers the first English-language history of Easter Island in *Island at the End of the World*, a fascinating chronicle of adversity, triumph, and the enduring monumentality of the island's stone guards. A small canoe with Polynesians brought the first humans to Easter Island in 700 CE, and when boat travel in the South Pacific drastically decreased around 1500, the Easter Islanders were forced to adapt in order to survive their isolation. Adaptation, Fischer asserts, was a continuous thread in the life of Easter Island: the first European visitors, who viewed the awe-inspiring monolithic busts in 1722, set off hundreds of years of violent warfare, trade, and disease—from the smallpox, wars, and Great Death that decimated the island to the late nineteenth-century Catholic missionaries who tried to "save" it to a despotic Frenchman who declared sole claim of the island and was soon killed by the remaining 111 islanders. The rituals, leaders, and religions of the Easter Islanders evolved with all of these events, and Fischer is just as attentive to the island's cultural developments as he is to its foreign invasions. Bringing his history into the modern era, Fischer examines the colonization and annexation of Easter Island by Chile, including the Rapanui people's push for civil rights in 1964 and 1965, by which they gained full citizenship and freedom of movement on the island. As travel to and interest in the island rapidly expand, *Island at the End of the World* is an essential history of this mysterious site.

Values at the End of Life Jan 21 2021 Once defiant of death—or even in denial—many American families and health care professionals are embracing the notion that a life consumed by suffering may not be worth living. Sociologist Roi Livne documents the rise and effectiveness of hospice and palliative care, and the growing acceptance that less treatment may be better near the end of life.

At the End of Sleep Nov 13 2022 With *At the End of Sleep*, a bilingual anthology selected from the past decade of Israeli poet Tal Nitzán's work, one of Hebrew poetry's most powerful and acclaimed contemporary voices is finally given her English-language due. Reaching beyond lyricism for its own sake, Nitzán brings her lucid, sharp, and often ferocious verse to bear on not only sexuality and personal struggle, but also broader issues of war, power, and the Israeli condition. Praise for Tal Nitzán "Tal Nitzán has emerged as one of the most salient and powerful voices of Hebrew poetry in the last decade. Her work is distinguished by a lucid style coupled with a rare ability to condense and express feeling in a wide array of themes, ranging from the intimate and biographical to broad moral, social and political concerns, all presented with a fine poetic musicality never indulging in mere ornamentation." —Moshe Ron, *Poetry International Rotterdam* "(Tal Nitzán's) contribution to Hebrew culture is priceless. Her poetry, a display of poetic renewal with fierce expression and passionate emotion, creates a universe shaped as a home, a bond or a family, in which a single verse may warn against the dangers and evils of human existence. In this breathing poetry Nitzán merges the personal with the political and the aesthetic with the ethic." —Jury of the Prime Minister Levi Eshkol Creation Prize for Hebrew writers, 2010 The recipient of numerous awards, including the Women Writers' Prize, the Culture Minister's Prize for Beginning Poets, and the Prime Minister's Prize for Writers, Tal Nitzán is a poet, editor, and translator of Hispanic literature. She has edited three anthologies and published six poetry books, including *Doméstica* (2002), *An Ordinary Evening* (2006), *Café Soleil Bleu* (2007), *The First to Forget* (2009), and *Look at the Same Cloud Twice* (2012). Her poetry has been translated into over twenty languages and appeared in numerous anthologies and magazines such as *Modern Poetry in Translation*, *Habitus*, *Zeek*, and *Bridges*. Her debut novel will be published in the summer of 2014.

Nitzán has resided in Buenos Aires, Bogotá, and New York, and currently lives in Tel Aviv. Find out more on her website: <http://talnitanpoet.wordpress.com>.

Life at the End of Life Dec 03 2021 Artist and scholar Marcia Brennan serves as Artist in Residence at the M. D. Anderson Cancer Center in Houston, and the experience of seeing, close-up, the transitional states and transformational visions involved in the approaching end of life raised countless questions about the intersection of life, death and art. Those questions are at the heart of this unique book. Bridging disparate fields, including art history, medical humanities, and religious studies, *Life at the End of Life* explores the ways in which art can provide a means for rendering otherwise abstract, deeply personal and spiritual experiences vividly concrete and communicable, even as they remain open-ended and transcendent. In the face of death, suffering and uncertainty, Brennan shows how artistic expression can offer valuable aesthetic and metaphysical avenues for understanding and for making meaning.

Start at the End Jun 01 2024 *Nudge* meets *Hooked* in a practical approach to designing products and services that change behavior, from what we buy to how we work. Deciding what to create at modern companies often looks like an episode of *Mad Men*: people throw ideas around until one sounds sexy enough to execute and then they scale it to everyone. The result? Companies overspend on marketing to drive engagement with products and services that people don't want and won't help them be happier and healthier. *Start at the End* offers a new framework for design, grounded in behavioral science. Technology executive and behavioral scientist Matt Wallaert argues that the purpose of everything is behavior change. By starting with outcomes instead of processes, the most effective companies understand what people want to do and why they aren't already doing it, then build products and services to bridge the gap. Wallaert is a behavioral psychologist who has led product design at organizations ranging from startups like Clover Health to industry leaders such as Microsoft. Whether dissecting the success behind Uber's ridesharing service or Flamin' Hot Cheetos, he underscores with clarity and humor how this approach can improve the way we work and live. This is an essential roadmap for building products that matter--and changing behavior for the better.

[The End of Ownership](#) Jan 04 2022 An argument for retaining the notion of personal property in the products we "buy" in the digital marketplace. If you buy a book at the bookstore, you own it. You can take it home, scribble in the margins, put it on the shelf, lend it to a friend, sell it at a garage sale. But is the same thing true for the ebooks or other digital goods you buy? Retailers and copyright holders argue that you don't own those purchases, you merely license them. That means your ebook vendor can delete the book from your device without warning or explanation—as Amazon deleted Orwell's 1984 from the Kindles of surprised readers several years ago. These readers thought they owned their copies of 1984. Until, it turned out, they didn't. In *The End of Ownership*, Aaron Perzanowski and Jason Schultz explore how notions of ownership have shifted in the digital marketplace, and make an argument for the benefits of personal property. Of course, ebooks, cloud storage, streaming, and other digital goods offer users convenience and flexibility. But, Perzanowski and Schultz warn, consumers should be aware of the tradeoffs involving user constraints, permanence, and privacy. The rights of private property are clear, but few people manage to read their end user agreements. Perzanowski and Schultz argue that introducing aspects of private property and ownership into the digital marketplace would offer both legal and economic benefits. But, most important, it would affirm our sense of self-direction and autonomy. If we own our purchases, we are free to make whatever lawful use of them we please. Technology need not constrain our freedom; it can also empower us.

The Brazen Altar Apr 06 2022 Welcome to the City. In this place of peace and plenty, with no disease, no suffering, and no want, people find meaning in service to their gods. They know the gods were created by humans, of course. But the gods protect and provide for the people, so why wouldn't the people serve the gods? In a Utopian society, what better way to express service than through pleasure and faith? For Kheema and her seven fellow Potentials, that means entering the temple of the Sun God to undergo months of training and practice to determine which of them will be chosen as Sacrifice. On the day of the summer Solstice, the one chosen as Sacrifice must recite the entire litany from atop the temple, while enduring nonstop forced orgasms from dawn 'til dusk. For Terlyn, service means becoming part of the Garden, bound naked and asleep while worshippers help themselves to her body. Terlyn wakes in ecstasy over and over, only to fall asleep again. The experience changes her, and her relationship with her friend and lover Donvin, who visits her while she is part of the Garden. Ashi's service to the god known as the Wild entails competing with other worshippers in a forest that appears overnight to demonstrate her resilience and will, so that she might become part of a ritual involving an altar, a long row of cages, and the complete abandonment of the self. The three stories brush against each other, revealing the heart of the City, as the people of the City serve, or ask for enlightenment from, multiple gods at once.

At End of Day Sep 23 2023 In his final novel George V. Higgins provides us with yet another searing and enthralling dissection of the Boston underworld. Arthur McKeach and Nick Cistaro are notorious, especially to the Boston police department. Their reputations precede them as orchestrators of extortion, theft, fraud, bribery, assault and even murder. But for thirty two years, both have managed to elude the authorities. A profitable "arrangement" with the FBI, negotiated some thirty years previously, has kept them comfortably unindicted and free to monopolize Boston's crime scene for all too long. In this thrilling, fast-paced George V. Higgins classic, the intricate channels of crime and American law enforcement turn out to be inextricably and precariously linked. Inspired by a true story, *At End of Day* frames a vivid and timelessly authentic narrative that has implications far beyond its pages.
