*The Manufacture of News* Stanley Cohen, 1973

*Media Power in Hong Kong* Charles Chi-wai Cheung, 2016-02-12 Studies of Hong Kong media primarily examine whether China will crush Hong Kong's media freedom. This book, however, traces the root problem of Hong Kong media back to the colonial era, demonstrating that before the resumption of Chinese sovereignty, there already existed a uniquely Hong Kong brand of hypermarketized and oligopolistic media system. The system, encouraged by the British colonial government, was subsequently aggravated by the Chinese government. This peculiar system is highly susceptible to state intervention and structurally disadvantaged dissent and marginal groups, before and after 1997. The book stresses that this hypermarketized media system has been constantly challenged. Through a historical study of media stigmatization of youth, this book proposes that over the years, various counterforces have penetrated the structurally lopsided Hong Kong media. Independent public, popular, and news media all make occasional subversive alliances to disrupt the mainstream, and news media with a strong liberal professionalism provide the most subversive space for challenging cultural hegemony. The book offers an alternative and fascinating account of the dynamics between hegemonic closure and day-to-day resistance in Hong Kong media in both the colonial and postcolonial eras, arguing that the Hong Kong case generates important insights for understanding ideological struggles in capitalist media.

**Crime, Shame and Reintegration** John Braithwaite,1989-03-23 Crime Shame and Reintegration is a contribution to general criminological theory Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing Shaming can be counterproductive making crime problems worse But when shaming is done within a cultural context of respect for the offender it can be an extraordinarily powerful efficient and just form of social control Braithwaite identifies the social conditions for such successful shaming If his theory is right radically different criminal justice policies are needed a shift away from punitive social control toward greater emphasis on moralizing social control This book will be of interest not only to criminologists and sociologists but to those in law public administration and politics who are concerned with social policy and social issues
