This full color, no-nonsense book shows you the quickest ways to solve a problem or learn a skill, using easy-to-follow steps and concise, straightforward language. You'll analyze, manage, and share information in more ways than ever before. Here's WHAT You'll Learn Manage your data quickly and efficiently Filter, sort, summarize, and crunch your numbers Use formulas and functions to do the heavy lifting Bring data to life with charts and graphics Share data between Microsoft Office documents Work as a team, online and in the cloud Here's HOW You'll Learn It Jump in wherever you need answers Follow easy STEPS and SCREENSHOTS to see exactly what to do Get handy TIPS for new techniques and shortcuts Use TRY THIS! exercises to apply what you learn right away The complete visual reference on Excel basics Aimed at visual learners who are seeking an all-in-one reference that provides in-depth coverage of Excel from a visual viewpoint, this resource delves into all the newest features of Excel 2010. You'll explore Excel with helpful step-by-step instructions that show you, rather than tell you, how to navigate Excel, work with PivotTables and PivotCharts, use macros to streamline work, and collaborate with other users in one document. This two-color guide features screen shots with specific, numbered instructions so you can learn the actions you need to perform in order to execute a wide range of Excel 2010 tasks. Features beginning, intermediate and advanced visual coverage of Excel 2010 Shows you how to enter information into a worksheet, use formulas and functions, find and control formulaic errors, and much more Presents more than 1,000 screen shots that demonstrate step-by-step instructions of numerous Excel 2010 tasks You're encouraged to move at your own pace as you acquire confidence and proficiency with the newest version of Excel.
