Doctor Yourself Andrew W. Saul, 2003 Don't bother looking in the history books for what has killed the most Americans. Look instead at your dinner table. We eat too much of the wrong foods and not enough of the right foods. Scientific research continually indicates nationwide vitamin and mineral deficiencies in our country and we spend over a trillion dollars each year on disease care. Is it any surprise that doctors consistently place among the very highest incomes? Andrew Saul has seen enough of this situation and in *Doctor Yourself* he gives you the power you need to change it. Citing numerous scientific evidences as well as case studies from his decades of practice, Dr. Saul explodes the myth that an army of medical specialists and pharmaceutical drugs are necessary to maintain our health. The human body evolved to live well and fight off disease on a supply of only a dozen or so essential nutrients. Unfortunately, modern meat-laden, high-sugar diets provide catastrophically inadequate levels of those nutrients. Using the guidelines and protocols for diet and vitamin megadosing laid out in *Doctor Yourself*, you can not only prevent disease from getting a foothold in the first place but also literally cure yourself of illnesses already in progress without resorting to drugs or surgery. One of the most comprehensive guides to nutritional therapy ever published, *Doctor Yourself* provides proven methods for combating almost every possible health condition, from asthma and Alzheimer's disease to cancer, depression, heart disease, and more, all presented in Dr. Saul's unforgettable style. Whether he's delivering commonsense tips on subjects such as weight loss and longevity or praising the healthy glow of a carotene tan, Dr. Saul takes the starch out of healthcare and makes taking charge of your family's health an experience both valuable and fun.

The DNA Field and the Law of Resonance Pierre Franckh, 2014-10-09 A practical guide to unlocking the powers of our DNA to manifest health, wealth, and happiness. Shows how our DNA communicates with those around us and attracts resonant energy, whether positive or negative, to us. Reveals groundbreaking scientific research on the influence of DNA on photons, as well as the interactions between DNA and emotions. Provides practical exercises to remove negative influences, build positive visualizations of your desires, and accelerate the manifestation of your wishes. Taking the law of attraction to an entirely new level, Pierre Franckh reveals how human DNA has a direct effect on the physical world around us, an effect we can consciously focus to manifest our desires. Sharing groundbreaking experiments on the influence of DNA on photons and on the interactions between emotions and DNA, Franckh explains how our thoughts, emotions, and beliefs, whether positive or negative, build a field of resonance around us. Through this quantum field, our DNA is continuously communicating our unique vibration to those around us and receiving their unique oscillations in return. By focusing our intentions and removing negativity from our beliefs about ourselves, our past, and our future, we can use our DNA to communicate our thoughts and desires to the universe. Through focused thoughts and intentions, we draw the same resonant energy to us, thus bringing our intentions and desires into manifestation. The author shares success stories from the thousands who have taken his seminars and were then able to attract a soul mate, heal themselves or loved ones, or build wealth, sometimes remarkably quickly. He also describes how he discovered the law of resonance through his own self-healing from a degenerative spinal condition. Franckh provides practical exercises to remove inner and outer negative influences that could be blocking your desires, build a positive visualization of your goals, and increase the power of your field of resonance for quicker manifestation. In this inspiring guide to the law of resonance, the author shows how the power to manifest health, wealth, and happiness is within each of us, waiting to be unlocked within our DNA.
