eGirls, eCitizens Valerie Steeves, Jane Bailey, 2015-04-23 eGirls eCitizens is a landmark work that explores the many forces that shape girls and young women's experiences of privacy, identity, and equality in our digitally networked society. Drawing on the multi-disciplinary expertise of a remarkable team of leading Canadian and international scholars, as well as Canada's foremost digital literacy organization MediaSmarts, this collection presents the complex realities of digitized communications for girls and young women as revealed through the findings of The eGirls Project (www.egirlsproject.ca) and other important research initiatives. Aimed at moving dialogues on scholarship and policy around girls and technology away from established binaries of good vs. bad or risk vs. opportunity, these seminal contributions explore the interplay of factors that shape online environments characterized by a gendered gaze and too often punctuated by sexualized violence. Perhaps most importantly, this collection offers first-hand perspectives collected from girls and young women themselves, providing a unique window on what it is to be a girl in today's digitized society.

Girls' Feminist Blogging in a Postfeminist Age Jessalynn Keller, 2015-10-05 *Girls' Feminist Blogging in a Postfeminist Age* explores the practices of U.S.-based teenage girls who actively maintain feminist blogs and participate in the feminist blogosphere as readers, writers, and commenters on platforms including Blogspot, Facebook, Twitter, and Tumblr. Drawing on interviews with bloggers between the ages of fifteen and twenty-one, as well as discursive textual analyses of feminist blogs and social networking postings authored by teenage girls, Keller addresses how these girls use blogging as a practice to articulate contemporary feminisms and craft their own identities as feminists and activists. In this sense, feminist girl bloggers defy hegemonic postfeminist and neoliberal girlhood subjectivities, a finding that Keller uses to complicate both academic and popular assertions that suggest teenage girls are uninterested in feminism. Instead, Keller maintains that these young bloggers employ digital media production to educate their peers about feminism, connect with like-minded activists, write feminist history, and make feminism visible within popular culture practices that build upon and continue a lengthy tradition of American feminism into the twenty-first century. *Girls' Feminist Bloggers in a Postfeminist Age* challenges readers to not only reconsider teenage girls' online practices as politically and culturally significant but to better understand their crucial role in a thriving contemporary feminism.

Handbook of Research on the Societal Impact of Digital Media Guzzetti, Barbara, 2015-08-27 The evolution of digital media has enhanced global perspectives in all facets of communication, greatly increasing the range, scope, and accessibility of shared information. Due to the tremendously broad-reaching influence of digital media, its impact on learning, behavior, and social interaction has become a widely discussed topic of study, synthesizing the research of academic scholars, community educators, and developers of civic programs. This timely publication provides an overview of technological developments in digital media and their myriad applications to literacy, education, and social settings. With its extensive coverage of issues related to digital media use, this handbook is an essential aid for students, instructors, school administrators, and education policymakers who hope to increase and optimize classroom incorporation of digital media. This innovative publication features current empirical studies and theoretical frameworks addressing a variety of topics, including chapters on instant messaging, podcasts, video sharing, cell phone and tablet applications, e-discussion lists, e-zines, e-books, e-textiles, virtual worlds, social networking, cyberbullying, and the ethical issues associated with these new technologies.

Girls, Autobiography, Media Emma Maguire, 2018-04-05 This book investigates how girls' auto-medial selves are constituted and consumed as literary or media products in a digital landscape dominated by intimate though quite public modes of self disclosure and pervaded by broader practices of self branding. In thinking about how girlhood as a potentially vulnerable subject position circulates as a commodity, *Girls Autobiography Media* argues that by using digital technologies to write themselves into culture, girls and young women are staking a claim on public space and asserting the right to create and distribute their own representations of girlhood. Their texts in the form of blogs, vlogs, photo sharing platforms, online diaries, and fangirl identities show how they navigate the sometimes hostile conditions of online spaces in order to become narrators of their own lives and stories. By examining case studies across different digital forms of self presentation by girls and young women, this book considers how mediation and autobiographical practices are deeply interlinked and it highlights the significant contribution girls and young women have made to contemporary digital forms of life narrative.

Girl Wide Web Sharon R. Mazzarella, 2005 Given the rapidly growing presence of girls online, serious academic inquiry into the relationship between girls and the Internet is imperative. *Girl Wide Web* is an innovative collection of cutting edge research exploring a wide sweep of issues related to the ways adolescent girls interact with the Internet. Employing a range of methodologies and theoretical perspectives primarily within cultural studies, the authors examine a variety of topics from instant messaging and web diaries to online fan communities and Internet advertising that targets young girls. Taken together, these essays provide a rich portrait of the complex relationship among girls, the Internet, and the negotiation of identity.

New Media Literacies and Participatory Popular Culture Across Borders Bronwyn Williams, Amy A. Zenger, 2012-05-23 How do students' online literacy practices intersect with online popular culture? In this book, scholars from a range of countries including Australia, Lebanon, Nepal, Qatar, South Africa, Turkey, and the United States illustrate and analyze how literacy practices that are mediated through and influenced by popular culture create both opportunities and tensions for secondary and university students. The authors examine issues of theory, identity, and pedagogy as they address participatory popular culture sites such as fan forums, video blogs, social networking sites, anime memes, and comics and graphic novels. Uniquely bringing together scholarship about online literacy practices and the growing body of work on participatory popular culture, *New Media Literacies and Participatory Popular Culture across Borders* makes distinctive contributions to an emerging field of study, pushing forward scholarship about literacy and identity in cross-cultural situations and advancing important conversations about issues of global flows and local responses to popular culture.
