From Inclusion to Justice Erin Raffety,2022 American Christianity tends to view disabled persons as problems to be solved rather than people with experiences and gifts that enrich the church Churches have generated policies programs and curricula geared toward including disabled people while still maintaining able bodied theologies ministries care and leadership Ableism not lack of ramps of finances or of accessible worship is the biggest obstacle for disabled ministry in America In *From Inclusion to Justice* Erin Raffety argues that what our churches need is not more programs for disabled people but rather the pastoral tools to repent of able bodied theologies and practices listen to people with disabilities lament ableism and injustice and be transformed by God s ministry through disabled leadership Without a paradigm shift from ministries of inclusion to ministries of justice our practical theology falls short Drawing on ethnographic research with congregations and families pastoral experience with disabled people teaching in theological education and parenting a disabled child Raffety an able bodied Christian writing to able bodied churches confesses her struggle to repent from ableism in hopes of convincing others to do the same At the same time Raffety draws on her interactions with disabled Christian leaders to testify to what God is still doing in the pews and the pulpit uplifting and amplifying the ministry and leadership of people with disabilities as a vision toward justice in the kingdom of God

Disability and Christian Theology Embodied Limits and Constructive Possibilities Deborah Beth Creamer, 2009-01-05 Attention to embodiment and the religious significance of bodies is one of the most significant shifts in contemporary theology. In the midst of this, however, experiences of disability have received little attention. This book explores possibilities for theological engagement with disability, focusing on three primary alternatives: challenging existing theological models to engage with the disabled body; considering possibilities for a disability liberation theology; and exploring new theological options based on an understanding of the unsurprisingness of human limits. The overarching perspective of this book is that limits are an unavoidable aspect of being human, a fact we often seem to forget or deny. Yet not only do all humans experience limits, most of us also experience limits that take the form of disability at some point in our lives. In this way, disability is more normal than non-disability. If we take such experiences seriously and refuse to reduce them to mere instances of suffering, we discover insights that are lost when we take a perfect or generic body as our starting point for theological reflections. While possible applications of this insight are vast, this work focuses on two areas of particular interest: theological anthropology and metaphors for God. This project challenges theology to consider the undeniable diversity of human embodiment. It also enriches previous disability work by providing an alternative to the dominant medical and minority models, both of which fail to acknowledge the full diversity of disability experiences. Most notably, this project offers new images and possibilities for theological construction that attend appropriately and creatively to diversity in human embodiment.
