The Best American Science and Nature Writing 2021 Ed Yong, Jaime Green, 2021-10-12 New York Times best selling author and renowned science journalist Ed Yong compiles the best science and nature writing published in 2020 The stories I have chosen reflect where I feel the field of science and nature writing has landed and where it could go Ed Yong writes in his introduction They are often full of tragedy sometimes laced with wonder but always deeply aware that science does not exist in a social vacuum

They are beautiful whether in their clarity of ideas the elegance of their prose or often both The essays in this year s Best American Science and Nature Writing brought clarity to the complexity and bewilderment of 2020 and delivered us necessary information during a global pandemic From an in depth look at the moment of the virus s outbreak to a harrowing personal account of lingering Covid symptoms to a thoughtful analysis on how the pandemic will impact the environment these essays as Yong says synthesize evaluate dig unveil and challenge imbuing a pivotal moment in history with lucidity and elegance THE BEST AMERICAN SCIENCE AND NATURE WRITING 2021 INCLUDES SUSAN ORLEAN EMILY RABOTEAU ZEYNEP TUFEKCI HELEN OUYANG HEATHER HOGAN BROOKE JARVIS SARAH ZHANG and others The Parent Compass Cynthia Clumeck Muchnick,Jenn Bowie Curtis,2020-09-15 Bragging rights and bumper stickers are some of the social forces fueling today s parenting behavior and as a result even well intentioned parents are behaving badly Many parents don t know how best to support their teens especially when everyone around them seems to be frantically tutoring managing and helicoptering The Parent Compass provides guidance on what parents roles should be in supporting their teens mental health as they traverse the maze of the adolescent years For anyone daunted by the unique challenge of parenting well in this pressure laden and uncertain era The Parent Compass offers Advice on fostering grit and resilience in your teen Strategies to help your teen approach life with purpose Guidance on how to preserve your relationship with your teen while navigating a competitive academic environment Clear explanations of your appropriate role in the college admission process Effective ways to approach technology use in your home and much more Using The Parent Compass to navigate the adolescent years will help you parent with confidence and intention allowing you to forge a trusting positive relationship with your teen **If This Were a Story** Beth Turley,2019-09-03 Ten year old Hannah copes with the bullies at school and trouble at home through the power of her imagination **The Age of Surveillance Capitalism** Shoshana Zuboff,2019-01-15 The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control our behavior In this masterwork of original thinking and research Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism The stakes could not be higher a global architecture of behavior modification threatens human nature in the twenty first century just as industrial capitalism disfigured the natural world in the twentieth Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector Vast wealth and power are accumulated in ominous new behavioral futures markets where predictions about our behavior are bought and sold and the production of goods and services is subordinated to a new means of behavioral modification The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture a Big Other operating in the interests of surveillance capital Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight Zuboff s comprehensive and moving analysis lays bare the threats to twenty

first century society a controlled hive of total connection that seduces with promises of total certainty for maximum profit at the expense of democracy freedom and our human future With little resistance from law or society surveillance capitalism is on the verge of dominating the social order and shaping the digital future if we let it **Hacker, Hoaxer, Whistleblower, Spy** Gabriella Coleman,2015-10-06 The ultimate book on the worldwide movement of hackers pranksters and activists collectively known as Anonymous by the writer the Huffington Post says knows all of Anonymous deepest darkest secrets A work of anthropology that sometimes echoes a John le Carr novel Wired Half a dozen years ago anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption before Anonymous shot to fame as a key player in the battles over WikiLeaks the Arab Spring and Occupy Wall Street She ended up becoming so closely connected to Anonymous that the tricky story of her inside outside status as Anon confidante interpreter and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book The narrative brims with details unearthed from within a notoriously mysterious subculture whose semi legendary tricksters such as Topiary tflow Anachaos and Sabu emerge as complex diverse politically and culturally sophisticated people Propelled by years of chats and encounters with a multitude of hackers including imprisoned activist Jeremy Hammond and the double agent who helped put him away Hector Monsegur Hacker Hoaxer Whistleblower Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age including the history of trolling the ethics and metaphysics of hacking and the origins and manifold meanings of the lulz **Blown to Bits** Harold Abelson,Ken Ledeen,Harry R. Lewis,2008 Blown to Bits is about how the digital explosion is changing everything The text explains the technology why it creates so many surprises and why things often don t work the way we expect them to It is also about things the information explosion is destroying old assumptions about who is really in control of our lives The Hunt Andrew Fukuda,2012-05-08 Don t Sweat Don t Laugh Don t draw attention to yourself And most of all whatever you do do not fall in love with one of them Gene is different from everyone else around him He can t run with lightning speed sunlight doesn t hurt him and he doesn t have an unquenchable lust for blood Gene is a human and he knows the rules Keep the truth a secret It s the only way to stay alive in a world of night a world where humans are considered a delicacy and hunted for their blood When he s chosen for a once in a lifetime opportunity to hunt the last remaining humans Gene s carefully constructed life begins to crumble around him He s thrust into the path of a girl who makes him feel things he never thought possible and into a ruthless pack of hunters whose suspicions about his true nature are growing Now that Gene has finally found something worth fighting for his need to survive is stronger than ever but is it worth the cost of his humanity
