Inequality, Socio-cultural Differentiation and Social Structures in Africa Jan 06 2022

This book contends that conventional class concepts are not able to adequately capture social inequality and socio-cultural differentiation in Africa. Earlier empirical findings concerning ethnicity, neo-traditional authorities, patron-client relations, lifestyles, gender, social networks, informal social security, and even the older debate on class in Africa, have provided evidence that class concepts do not apply; yet these findings have mostly been ignored. For an analysis of the social structures

and persisting extreme inequality in African societies - and in other societies of the world - we need to go beyond class, consider the empirical realities and provincialise our conventional theories. This book develops a new framework for the analysis of social structure based on empirical findings and more nuanced approaches, including livelihood analysis and intersectionality, and will be useful for students and scholars in African studies and development studies, sociology, social anthropology, political science and geography.

Handbook of Cultural Sociology Sep 01 2021

The Handbook of Cultural Sociology provides a comprehensive overview of contemporary scholarship in sociology and related disciplines focused on the complex relations of culture to social structures and everyday life. With sixty-five essays written by scholars from around the world, the book draws diverse approaches to cultural sociology into a dialogue that charts new pathways for research on culture in a global era. Contributing scholars address vital concerns that relate to classic questions as well as emergent issues in the study of culture. Topics include cultural and social theory, politics and the state, social stratification, community, aesthetics, lifestyle, and identity. In addition, the authors explore developments central to the constitution and reproduction of culture, such as power, technology, and the organization of work. This book is essential reading for undergraduate and postgraduate students interested in diverse subfields within Sociology, as well as Cultural Studies, Media and Communication, and

[offsite.creighton.edu](https://www.creighton.edu/offsite)

Postcolonial Theory.

Society and Culture Jul 24 2023 Society and Culture reclaims the classical heritage, provides a clear-eyed assessment of the promise of sociology in the 21st century and asks whether the `cultural turn' has made the study of society redundant. Sociologists have objected to the rise of cultural studies on the grounds that it produces cultural relativism and lacks a stable research agenda. This book looks at these criticisms and illustrates the relevance of a sociological perspective in the analysis of human practice. The book argues that the classical tradition must be treated as a living tradition, rather than a period piece. It analyzes the fundamental principles of belonging and conflict in society and provides a detailed critical survey of the principal social theories that offer solutions to the challenges of modernism. *Co-opting Culture* Aug 25 2023 *Co-opting Culture: Culture and Power in Sociology and Cultural Studies* represents a collection of new

scholarship on culture from the social sciences and from work done under the rubric of 'cultural studies'. Working from the idea that Sociology and Cultural Studies have developed distinct and valuable toolkits for understanding culture, the editors have brought together a collection of essays that address the ways in which the cultures around race, sex, and gender are mediated through or intersect with politics, society, and economy. Some essays deal directly with the theoretical nature of this mediation, while others adopt these theoretical approaches to investigate specific cultural objects or communities. In doing so, these essays call attention to the particularities of form that constitute a kind of cultural logic around the objects under consideration.

Cultural Encounters and Tolerance Through Analyses of Social and Artistic Evidences: From History to the Present Apr 08 2022 Cultures around the world have recently become more isolated and aggressive in defending their socio-

cultural domain. However, throughout history, many civilizations have established extensive and long-term cultural ties with diverse cultural groups. Despite ideological schisms that emerged between civilizations from time to time, our hunger for cultural encounters and coexistence shines through. Cultural Encounters and Tolerance Through Analyses of Social and Artistic Evidences: From History to the Present sheds light on different histories and presents evidence of cultural encounters, coexistence, and acculturation. This publication presents cultural assets as more mobile than ideologies across boundaries as it can be more often seen in the cultural arena. Covering topics such as the effects of colonialism, geometrical forms, and architectural heritage, it serves as an essential resource for architects, art historians, cultural historians, students and professors of higher education, sociologists, anthropologists, researchers, and academicians.

Routledge Handbook of Cultural Sociology

offsite.creighton.edu

Jul 12 2022 The thoroughly revised and updated second edition of the Routledge Handbook of Cultural Sociology provides an unparalleled overview of sociological and related scholarship on the complex relations of culture to social structures and everyday life. With 70 essays written by scholars from around the world, the book brings diverse approaches into dialogue, charting new pathways for understanding culture in our global era. Short, accessible chapters by contributing authors address classic questions, emergent issues, and new scholarship on topics ranging from cultural and social theory to politics and the state, social stratification, identity, community, aesthetics, and social and cultural movements. In addition, contributors explore developments central to the constitution and reproduction of culture, such as power, technology, and the organization of work. This handbook is essential reading for undergraduate and postgraduate students interested in a wide range of subfields within sociology, as well as

offsite.creighton.edu

cultural studies, media and communication, and postcolonial theory.

Mental Health Sep 25 2023

Culture and Social Change Oct 15 2022 This book brings together social scientists to create an interdisciplinary dialogue on the topic of social change as a cultural process. Culture is as much about novelty as it is about tradition, as much about change as it is about stability. This dynamic tension is analyzed in collective protests, intergroup dynamics, language, mass media, science, community participation, art, and social transitions to capitalism, among others contexts. These diverse cases illustrate a number of key factors that can propel, slow-down and retract social change. An emancipatory and integrative social science is developed in this book, which offers a new explanatory model of human behavior and thought under conditions of institutional and societal change.

The New Chicago Dec 05 2021 For generations,

visitors, journalists, and social scientists alike have asserted that Chicago is the quintessentially American city. Indeed, the introduction to "The New Chicago" reminds us that to know America, you must know Chicago. The contributors boldly announce the demise of the city of broad shoulders and the transformation of its physical, social, cultural, and economic institutions into a new Chicago. In this wide-ranging book, twenty scholars, journalists, and activists, relying on data from the 2000 census and many years of direct experience with the city, identify five converging forces in American urbanization which are reshaping this storied metropolis. The twenty-six essays included here analyze Chicago by way of globalization and its impact on the contemporary city; economic restructuring; the evolution of machine-style politics into managerial politics; physical transformations of the central city and its suburbs; and race relations in a multicultural era. In elaborating on the effects of these broad

offsite.creighton.edu

forces, contributors detail the role of eight significant racial, ethnic, and immigrant communities in shaping the character of the new Chicago and present ten case studies of innovative governmental, grassroots, and civic action. Multifaceted and authoritative, "The New Chicago" offers an important and unique portrait of an emergent and new Windy City.

[What is Cultural Sociology?](#) Oct 03 2021

Culture, cultural difference, and cultural conflict always surround us. Cultural sociologists aim to understand their role across all aspects of social life by examining processes of meaning-making. In this crisp and accessible book, Lyn Spillman demonstrates many of the conceptual tools cultural sociologists use to explore how people make meaning. Drawing on vivid examples, she offers a compelling analytical framework within which to view the entire field of cultural sociology. In each chapter, she introduces a different angle of vision, with distinct but

compatible approaches for explaining culture and its role in social life: analyzing symbolic forms, meaning-making in interaction, and organized production. This book both offers a concise answer to the question of what cultural sociology is and provides an overview of the fundamental approaches in the field.

Introduction to Sociology 2e Jun 10 2022

"Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest

offsite.creighton.edu

research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface."--Website of text.

Genes, Behavior, and the Social Environment

Mar 20 2023 Over the past century, we have made great strides in reducing rates of disease and enhancing people's general health. Public health measures such as sanitation, improved hygiene, and vaccines; reduced hazards in the workplace; new drugs and clinical procedures; and, more recently, a growing understanding of the human genome have each played a role in extending the duration and raising the quality of human life. But research conducted over the past few decades shows us that this progress, much of which was based on investigating one causative factor at a time—often, through a single discipline or by a narrow range of practitioners—can only go so far. *Genes, Behavior, and the Social Environment* examines

a number of well-described gene-environment interactions, reviews the state of the science in researching such interactions, and recommends priorities not only for research itself but also for its workforce, resource, and infrastructural needs.

Nazi Culture Feb 16 2023 George L. Mosse's extensive analysis of Nazi culture - groundbreaking upon its original publication in 1966 - is now offered to readers of a new generation. Selections from newspapers, novellas, plays, and diaries as well as the public pronouncements of Nazi leaders, churchmen, and professors describe National Socialism in practice and explore what it meant for the average German.

The Meanings of Social Life Jun 03 2024 In *The Meanings of Social Life*, Jeffrey Alexander presents a new approach to how culture works in contemporary societies. Exposing our everyday myths and narratives in a series of empirical studies that range from Watergate to the Holocaust, he shows how these unseen yet

potent cultural structures translate into concrete actions and institutions. Only when these deep patterns of meaning are revealed, Alexander argues, can we understand the stubborn staying power of violence and degradation, but also the steady persistence of hope. By understanding the darker structures that restrict our imagination, we can seek to transform them. By recognizing the culture structures that sustain hope, we can allow our idealistic imaginations to gain more traction in the world. A work that will transform the way that sociologists think about culture and the social world, this book confirms Jeffrey Alexander's reputation as one of the major social theorists of our day.

[Social and Cultural Dynamics](#) Sep 13 2022 Marking the 50th anniversary of Pitirim A. Sorokin's death, this Brief offers a critical analysis of the renowned sociologist's theories while highlighting some of his more overlooked ones. Topics explored include cultural dynamics; the relationship between culture, society, and

personality; social mobility; and the socio-cultural causality of time and space. In addition, this book updates these theories by discussing their relevance in current cultural contexts. The Brief aims to extend the work started by Sorokin on the promotion and application of “integralism”, an approach that conceives the change of any sociocultural phenomena as the result of the combination of external and internal forces. It uses this method to analyse socio-cultural phenomena, propose new policy, and enhance the development of humanity from the point of view of culture. This book also discusses sociology’s relationship with other sciences. In particular, it touches upon the interplay between sociology and psychology and pushes for a new scientific awareness that is transdisciplinary. The end point is a new vision of humanity and its development from a cultural context. Social and Cultural Dynamics will be of interest to social scientists, sociologists, and psychologists as well as professionals in these

offsite.creighton.edu

disciplines.

Encyclopedia of the Social and Cultural Foundations of Education Feb 04 2022 More than any other field in education, the social and cultural foundations of education reflect many of the conflicts, tensions, and forces in American society. This is hardly surprising, since the area focuses on issues such as race, gender, socioeconomic class, the impact of technology on learning, what it means to be educated, and the role of teaching and learning in a societal context. The Encyclopedia of the Social and Cultural Foundations of Education provides a comprehensive introduction to the social and cultural foundations of education. With more than 400 entries, the three volumes of this indispensable resource offer a thorough and interdisciplinary view of the field for all those interested in issues involving schools and society. Key Features · Provides an interdisciplinary perspective from areas such as comparative education, educational

anthropology, educational sociology, the history of education, and the philosophy of education · Presents essays on major movements in the field, including the Free School and Visual Instruction movements · Includes more than 130 biographical entries on important men and women in education · Offers interpretations of legal material including Brown v. Board of Education(1954) and the GI Bill of Rights · Explores theoretical debates fundamental to the field such as religion in the public school curriculum, rights of students and teachers, surveillance in schools, tracking and detracking, and many more · Contains a visual history of American education with nearly 350 images and an accompanying narrative Key Themes · Arts, Media, and Technology · Curriculum · Economic Issues · Equality and Social Stratification · Evaluation, Testing, and Research Methods · History of Education · Law and Public Policy · Literacy · Multiculturalism and Special Populations · Organizations, Schools, and

Economic, Social and Cultural Rights Nov 15 2022 The first edition of this text was a textbook on internationally recognized economic, social and cultural rights. While focusing on this category of rights, it also analyzed their relationships to other human rights, civil and political in particular. This revised edition updates the information.

Beyond the Cultural Turn May 22 2023 Nothing has generated more controversy in the social sciences than the turn toward culture, variously known as the linguistic turn, culturalism, or postmodernism. This book examines the impact of the cultural turn on two prominent social science disciplines, history and sociology, and proposes new directions in the theory and practice of historical research. The

editors provide an introduction analyzing the origins and implications of the cultural turn and its postmodernist critiques of knowledge. Essays by leading historians and historical sociologists reflect on the uses of cultural theories and show both their promise and their limitations. The afterword by Hayden White provides an assessment of the trend toward culturalism by one its most influential proponents. Beyond the Cultural Turn offers fresh theoretical readings of the most persistent issues created by the cultural turn and provocative empirical studies focusing on diverse social practices, the uses of narrative, and the body and self as critical junctures where culture and society intersect. *Culture and Society* Feb 24 2021 David Oswell has written a comprehensive introduction to cultural studies that guides the reader through the field's central foundations and its freshest ideas. This book: - grounds the reader in the foundations of cultural studies and cultural theory: language and semiology, ideology and

power, mass and popular culture; - analyzes the central problems: identity, body, economy, globalization and empire; - introduces the latest developments on materiality, agency, technology and nature. *Culture and Society* is an invaluable guide for students navigating the dynamic debates and intellectual challenges of cultural studies. Its breadth and unparalleled coverage of cutting-edge theory will also ensure that it is read by anyone interested in questions of materiality and culture. `Too often cultural studies discourse seems cut off from wider developments in social theory. As a sociologist with a strong cultural studies sensibility, David Oswell is ideally placed to put this right. Through a series of well-judged and historically nuanced readings of cultural, social theory and critical philosophy, this book provides just the bridge between cultural studies and wider debates that we need' - Nick Couldry, Redaer in Media, Communications and Culture, London School of Economics and Political Science

offsite.creighton.edu

Social Sciences and Cultural Studies Jun 22 2023 This is a unique and groundbreaking collection of questions and answers coming from higher education institutions on diverse fields and across a wide spectrum of countries and cultures. It creates routes for further innovation, collaboration amidst the Sciences (both Natural and Social) and the Humanities and the private and the public sectors of society. The chapters speak across socio-cultural concerns, education, welfare and artistic sectors under the common desire for direct responses in more effective ways by means of interaction across societal structures.

Cross-Cultural Social Work Jul 04 2024 The world is now a global village, yet cultural diversity is at the forefront of social work practice within and across countries. Professional social workers in different countries increasingly have to relate to a multicultural society, and to develop culturally relevant and appropriate practices with individuals and

families, groups and communities. In addition, social workers have to work across different national boundaries or with issues which emanate from forces both within and beyond the countries they are from. Social work education therefore has to be able to prepare graduates to work in varying cultural and socio-economic contexts. In two parts, *Cross-Cultural Social Work: Local and global addresses contemporary issues that are at the forefront of community care and development*. Part 1 discusses theories and perspectives for culturally appropriate practice, education and research, whilst part 2 contains approaches to working with culturally diverse groups and practice areas. Issues addressed in these parts include: Part 1 Culture in social work, cultural competence, whiteness in social work, biculturalism, working with diversity, and culturally based methods of inquiry. Part 2 Marginalised indigenous communities, social and economic barriers, new and emerging communities, end-of-life issues,

international adoption, and culturally diverse aged care. Combining theoretical discussions and practical knowledge building materials Cross-Cultural Social Work facilitates the development of cultural competence among social work students, educators, practitioners and researchers. The book engages readers to critically reflect on cultural underpinnings of dominant social work theories and methods, and to challenge the way we think about culture and cross-cultural practice. Key Features • A collection of works from contributors from different practice settings and different countries which facilitates the development of 'cultural competence' among social work students and educators, practitioners and researchers • Reflects the stipulations of professional accreditation bodies, such as the Australian Association of Social Workers, to include cross-cultural practice as well as standards of practice with minority communities in curriculum content • Combines theoretical

discussions and practical knowledge building materials to aid in understanding theories in practice and prepare graduates to work in varying cultural and socio-economic contexts. **Aging and the Life Course** May 29 2021 Aging & the Life Course: Social & Cultural Contexts provides an accessible, up-to-date introduction to the study of aging and the life course from a distinctly sociological perspective. It explores the sociocultural dimensions of aging while encouraging critical thinking about the diversity of aging experiences, societal attitudes toward older adults, the politics and economics of growing old, and end-of-life resources. Throughout the text, Deborah Lowry emphasizes the relevance of the material for working with older populations, understanding social policy and policy debates, improving communities, relating to others, and understanding ourselves. Organized into four major sections, Part I introduces students to fundamental demographic, sociological, and life course

concepts; part II explores the experiences and conditions of aging, especially in particular groups; and part III presents current research on older adults' engagement in work, family, social networks, and sex. Finally, Part IV addresses themes of aging and social change. *Mental Health, Cultural Values, and Social Development* Mar 27 2021 It is not easy for a layman to attract attention to a book like this. Most who open the cover will be professionals in one of the many aspects of mental health. A moment's thought tells us, however, that if there is a distinction between laymen and professionals it makes no difference to a book like this. Both laymen and professionals care about what will be. That is why this book, the Congress it reports and the World Federation for Mental Health itself can be meaningful to both laymen and professional people. A look into the 80's from the point of view of mental health, cultural values and social development is for all who care about the future. The 1981 Manila

Congress of the World Federation for Mental Health was a unique and special gathering. It was the first time the Federation assembled for a Congress in a developing country. In the Philippines we enjoyed the over whelming hospitality and charm of the people and a place where past and future seem as important as the present. All who attended from outside those magic islands will always remember the occasion as a special life experience. For those of you who did attend, this book can revive the stimulation and satisfaction of the Congress. For those of you who did not share the Manila experience, this book can inform and interest you about matters which are important.

Activating Cultural and Social Change Nov 03 2021 "In this thought-provoking book, a diverse range of educators, activists, academics, and community advocates provide theoretical and practical ways of activating our knowledge and understanding of how to build a human rights culture. Addressing approaches and

applications to human rights within current socio-cultural, political, socio-legal, environmental, educational, and global contexts, these chapters explore tensions, contradictions, and complexities within human rights education. The book establishes cultural and educational practices as intrinsically linked to human rights consciousness and social justice, showing how signature pedagogies used by human rights practitioners can be intellectual, creative, or a combination of both. Across three sections, the book discusses ways of bringing about holistic, relevant, and compelling approaches for challenging and understanding structures of power, which have become a global system, while also suggesting a move from abstract human rights principles, declarations, and instruments to meaningful changes that do not dehumanise and distance us from intrinsic and extrinsic oppressions, denial of identity and community, and other forms of human rights abuse. Offering new critical cultural studies

offsite.creighton.edu

approaches on how a human rights consciousness arises and is practised, this book will be of great interest to scholars and students of cultural studies, education studies, critical sociology, human rights education, and human rights studies"--

Culture, Society, and Cognition Aug 01 2021

This theoretically motivated approach to pragmatics (vs. semantics) produces a radically new view of culture and its role vis-a-vis society. Understanding what words mean in use requires an open-ended recourse to pragmatic cultural knowledge. Cultural knowledge makes up a productive conceptual system. Members of a cultural community share the system but not all of the system's content, making culture a system of parallel distributed cognition. This book presents such a system, and then elaborates a version of "cultural models" that relates actions to goals, values, emotional content, and context, and that allows both systematic generative capacity and systematic variation across cultural

and subcultural groups. Such models are offered as the basic units of cultural action. Culture thus conceived is shown as a tool that people use rather than as something deeply internalized in their psyches.

An Introduction to Cultural and Social Anthropology Jan 30 2024

Cultural Difference and Social Solidarity Oct 27 2023 Cultural Difference and Social Solidarity: Solidarities and Social Function explores solidarity as a social function bringing to the fore the critical value of the concept of solidarity in understanding contemporary societies. The first part of the book (Solidarities) provides different theoretical approaches to the conception and exploration of solidarity that depart from the traditional and dominant perspectives within which debates about solidarity take place. This part includes chapters on the origins of the concept of solidarity in French social thought in the nineteenth century; a critical discussion of the later Foucault's

augmentation of his concerns with a critical politics of difference with a politics of parrhesia; Theodor Adorno and the identitarian logic that underpins reconciliation between difference and solidarity in initiatives such as multiculturalism; Alisdair MacIntyre and his rearticulation of Aristotelian virtue ethics to explore the value of solidarity ingrained in the practice of politics as a means of developing solidarity; and a transitional chapter that explores the social function of postcolonial theory. The second part of the book (Social Function) seeks to explore particular cases in which solidarity is constituted. The cases are diverse in global location, level of association, focus on cultural, political and policy contexts, and different approaches to analysis. As such, they provide a set of cases from which different aspects of the problems of making and remaking solidarity can be explored. These chapters include a case study in Israel exploring solidarity and social cohesion through migration, globalisation, and

modernising processes; a case study of the African Village Market in Sydney, Australia; an example of the complexities of solidarity and identity in the Slovene context; and an exploration of how state action in Turkey dissolves solidarity in a community through urban housing policies.

[Cultural Crisis and Social Memory](#) May 10 2022

This book explores social memory in the context of cultural crises of modernity in Thailand and Laos. It explicates the ways in which social memory constructed by the people enters modernity, and how this in turn causes fundamental ruptures with their past, as well as the various ways cultural crises are experienced in their lives. The essays in this book consider how in these crises the people constitute their cultural, social, or individual identities, particularly focusing on the theoretical issues of identifications and their relevance to distinct historical processes in Thailand and Laos. Both countries, particularly in the two decades since

the 1970s, have been undergoing radical social and economic changes. Whilst Thailand has travelled down the road to industrialization, neighbouring Laos experienced a communist revolution in 1975 and only since the late 1980s has attempted to follow a reformist path to development. Increasingly influenced by globalised economic and social institutions, both countries have come to face crises that have made people insecure in the present and anxious about the future.

The Psychology of Social and Cultural Diversity Nov 27 2023 Promoting a scholarly understanding of the psychology of social and cultural diversity in the early stages of 21st century, this volume encourages an in-depth appreciation of the value in diversity while directly addressing social intervention and policy implications. Offers, for the very first time, an integrated approach to the issues raised by increasingly complex representations of social identity Explores the psychological implications

and applications of new forms of social and cultural diversity Includes research from a diverse range of scholars that covers a broad spectrum of sub-disciplines Discusses how the applications of multiculturalism and diversity research can encourage more positive intergroup relations Develops an in depth understanding and appreciation of the value of social and cultural diversity

The New American Cultural Sociology Apr 28 2021 American Cultural Sociology presents a serious challenge to British Cultural Studies and European grand theory alike. This exciting volume brings together sixteen seminal papers by leading figures in what is emerging as an important intellectual tradition. It places them in the context of related work in Sociology and other disciplines, exploring the connections between cultural sociology and different approaches, such as comparative and historical research, postmodernism, and symbolic interactionism. The book is divided into three

sections: Culture as Text and Code, The Production and Reception of Culture, and Culture in Action. Each section contains edited contributions, both theoretical and empirical, addressing the key debates in cultural sociology, including the autonomy of culture, power and culture, structure and agency and how to conceptualise meaning.

Ideological, Social and Cultural Aspects of Events Dec 29 2023 There is an ever growing importance of events in modern society and until now existing literature on events has been dominated by the economic perspective. *Social and Cultural Aspects of Events* addresses the social and cultural side of events and explores the role they have in fostering change and community development. It examines the transformatory function of events in the context of development studies - as phenomena that can promote and facilitate human development, including social, societal and individual change. This book provides vital and timely exploration

offsite.creighton.edu

and encourages the study of more diverse themes within event management.

How People Learn II Jan 18 2023 There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000, *How People Learn: Brain, Mind, Experience, and School: Expanded Edition* was published and its influence has been wide and deep. The report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific

[offsite.creighton.edu](https://www.creighton.edu/offsite)

understanding of the mechanisms of learning and how the brain adapts throughout the lifespan, there have been important discoveries about influences on learning, particularly sociocultural factors and the structure of learning environments. *How People Learn II: Learners, Contexts, and Cultures* provides a much-needed update incorporating insights gained from this research over the past decade. The book expands on the foundation laid out in the 2000 report and takes an in-depth look at the constellation of influences that affect individual learning. *How People Learn II* will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults.

Sociology of Culture and Cultural Practices

Feb 29 2024 In *Sociology of Culture and of Cultural Practices*, Laurent Fleury presents a synthesis of research and debate from France and the United States. He traces the development of the sociology of culture from its

origins (Weber and Simmel) and examines the major trends that have emerged in this branch of sociology. Fleury also raises issues of cultural hierarchy, distinction, and legitimate culture and mass culture and focuses on new areas of research, including the role of institutions, the reception of works of art, aesthetic experience, and emancipation through art.

Culture and Society Apr 01 2024 "Too often cultural studies discourse seems cut off from wider developments in social theory. As a sociologist with a strong cultural studies sensibility, David Oswell is ideally placed to put this right. Through a series of well-judged and historically nuanced readings of cultural, social theory and critical philosophy, this book provides just the bridge between cultural studies and wider debates that we need" - Nick Couldry, London School of Economics and Political Science David Oswell has written a comprehensive introduction to cultural studies that guides the reader through the field's central

foundations and its freshest ideas. This book: Grounds the reader in the foundations of cultural studies and cultural theory: language and semiology, ideology and power, mass and popular culture. Analyzes the central problems: identity, body, economy, globalization and empire. Introduces the latest developments on materiality, agency, technology and nature. *Culture and Society* is an invaluable guide for students navigating the dynamic debates and intellectual challenges of cultural studies. Its breadth and unparalleled coverage of theory will also ensure that it is read by anyone interested in questions of materiality and culture. *Social Status and Cultural Consumption* Dec 17 2022 How does cultural hierarchy relate to social hierarchy? Do the more advantaged consume 'high' culture, while the less advantaged consume popular culture? Or has cultural consumption in contemporary societies become individualised to such a degree that there is no longer any social basis for cultural

consumption? Leading scholars from the UK, the USA, Chile, France, Hungary and the Netherlands systematically examine the social stratification of arts and culture. They evaluate the 'class-culture homology argument' of Pierre Bourdieu and Herbert Gans; the 'individualisation arguments' of Anthony Giddens, Ulrich Beck and Zygmunt Bauman; and the 'omnivore-univore argument' of Richard Peterson. They also demonstrate that, consistent with Max Weber's class-status distinction, cultural consumption, as a key element of lifestyle, is stratified primarily on the basis of social status rather than by social class.

Social and Cultural Mobility Jun 30 2021

Cultures and Societies in a Changing World Aug 13 2022 In the Fourth Edition of *Cultures and Societies in a Changing World*, author Wendy Griswold illuminates how culture shapes our social world and how society shapes culture. She helps students gain an understanding of the sociology of culture and explore stories, beliefs,

media, ideas, art, religious practices, fashions, and rituals from a sociological perspective. Cultural examples from multiple countries and time periods will broaden students' global understanding. They will develop a deeper appreciation of culture and society, gaining insights that will help them overcome cultural misunderstandings, conflicts, and ignorance; equip them to be more effective in their professional and personal lives, and become wise citizens of the world.

The Role of Human Factors in Home Health

Care Mar 08 2022 The rapid growth of home health care has raised many unsolved issues and will have consequences that are far too broad for any one group to analyze in their entirety. Yet a major influence on the safety, quality, and effectiveness of home health care will be the set of issues encompassed by the field of human factors research-the discipline of applying what is known about human capabilities and limitations to the design of products, processes,

systems, and work environments. To address these challenges, the National Research Council began a multidisciplinary study to examine a diverse range of behavioral and human factors issues resulting from the increasing migration of medical devices, technologies, and care practices into the home. Its goal is to lay the groundwork for a thorough integration of human factors research with the design and implementation of home health care devices, technologies, and practices. On October 1 and 2,

2009, a group of human factors and other experts met to consider a diverse range of behavioral and human factors issues associated with the increasing migration of medical devices, technologies, and care practices into the home. This book is a summary of that workshop, representing the culmination of the first phase of the study.

Social and Cultural Foundations of Guidance Apr
20 2023
