Invitation to Psychology John P. Houston, Helen Bee, David C. Rimm, 2013-10-22 Invitation to Psychology provides an introduction to fundamental concepts in psychology. It seeks to address the need of both teachers and students by offering two different kinds of chapters. The first variety covers the basic data and research within each of the traditional areas of psychology. In these basic chapters the authors provide up to date and complete coverage of important developments in each area. The second type of chapter is innovative. These exploring chapters examine some of the practical applications and implications of the findings discussed in the basic chapters. These describe how basic psychological data are being used in the outside world and discuss ongoing often controversial explorations into some frontier areas of psychology. In other words information about explorations and applications that is often scattered through the pages of other texts is brought together into systematic chapters in this text. The dual chapter approach helps resolve the dilemma of differing expectations of teachers and students. Key topics covered include the definition of psychology, the psychological basis of behavior, sensation and perception, states of awareness, learning, memory and cognition, motivation and emotion, abnormal psychology, and social behavior.

Study Guide for Psychology Carole Wade, Douglas A. Johnson (Ph.D.), Carol Tavis, 2010-05-11

Psychology in Perspective Carol Tavis, Carole Wade, 1995 This text reorganizes the traditional material according to the five major perspectives in the field: biological, learning, cognitive, socio-cultural, and psychodynamic. It offers a presentation of each perspective's strengths, limitations, and misuses.

Psychology Herbert Harari, Robert M. Kaplan, 1977

Mistakes Were Made (but Not by Me) Carol Tavis, 2013 Why do people dodge responsibility when things fall apart? Why the parade of public figures unable to own up when they make mistakes? Why the endless marital quarrels over who is right? Why can we see hypocrisy in others but not in ourselves? Are we all liars? Or do we really believe the stories we tell? Renowned social psychologists Carol Tavis and Elliot Aronson take a compelling look into how the brain is wired for self-justification. When we make mistakes we must calm the cognitive dissonance that jars our feelings of self-worth. And so we create fictions that absolve us of responsibility.

Why People Believe Weird Things Michael Shermer, 2002-09-01 This sparkling book romps over the range of science and anti-science. Jared Diamond, author of *Guns, Germs, and Steel* (Revised and Expanded Edition). In this age of supposed scientific enlightenment, many people still believe in mind-reading, past-life regression, theory, New Age hokum, and alien abduction. A no-holds-barred assault on popular superstitions and prejudices with more than 80,000 copies in print, *Why People Believe Weird Things* debunks these nonsensical claims and explores the very human reasons people find otherworldly phenomena, conspiracy theories, and cults so appealing. In an entirely new chapter, *Why Smart People Believe in Weird Things*, Michael Shermer takes on science luminaries like physicist Frank Tipler and others who hide their spiritual beliefs behind the trappings of science. Shermer, science historian and true crusader, also reveals the more dangerous side of such illogical thinking, including Holocaust denial, the recovered memory movement, the satanic ritual abuse scare, and other modern crazes. *Why People Believe Strange Things* is an eye-opening resource for the most gullible among us and those who want to protect them.

We Rise, We Resist, We Raise Our Voices Wade Hudson, Cheryl Willis Hudson, 2018-09-04 Fifty of the foremost diverse children's authors and illustrators including Jason Reynolds, Jacqueline Woodson, and Kwame Alexander share answers to the question "In this divisive world, what shall we tell our children?" in this beautiful full-color keepsake collection published in partnership with Just Us Books. What do we tell our children when the world seems bleak and prejudice and racism run rampant? With 96 lavishly designed pages of original art and prose, fifty diverse creators lend voice to young activists. Featuring poems, letters, personal essays, art, and other works from such industry leaders as Jacqueline Woodson, *Brown Girl Dreaming*; Jason Reynolds, *All American Boys*; Kwame Alexander, *The Crossover*; Andrea Pippins, *I Love My Hair*; Sharon Draper, *Out of My Mind*; Rita Williams-Garcia, *One Crazy Summer*; Ellen Oh, cofounder of We Need Diverse Books; and artists Ekuia Holmes-Rafael, Lopez James Ransome, Javaka Steptoe, and more, this anthology empowers the nation's youth to listen, learn, and build a better tomorrow. A Kirkus Reviews Best Book of 2018, A Publishers Weekly Best Book of 2018.

Wrong Place, Wright Time Megan Wade, 2021-08-29 Staying in is my favorite thing to do. So if you relate, you'll understand my reticence about leaving the quiet comfort of my home for a night out at a noisy drag club. But it's for a good cause. My big brother is in town, and this is a chance to get to know his new girlfriend. I can't really say no without looking snotty like the rest of the Wright family. Comes across my aim in life is to be everything my father is not. Lucky for me, there's another reason to attend tonight too. A tall, dark, and handsome piece of man candy going by the name of Banks Johnson. We met briefly this afternoon, and let me tell you, the air sizzled. I'm likely to get burned if I get too close. But while I swore off men when my last relationship went south, when I find myself in the wrong place and it's just Banks and me, who'll know I decide it's the right time to throw caution to the wind. One night can't hurt, right? Unless I somehow lose my heart. As with all Megan Wade books, this installment of the *Wrong Wright* series comes with her Sugar Promise High Heat Low Drama guaranteed.

Mismeasure of Woman Carol Tavris, 1993-02-26 When man is the measure of all things, woman is forever trying to measure up. In this enlightening book, Carol Tavris unmasks the widespread but invisible custom pervasive in the social sciences, medicine, law, and history of treating men as the normal standard and women as abnormal. Tavris expands our vision of normalcy by illuminating the similarities between women and men and showing that the real differences lie not in gender but in power, resources, and life experiences. Winner of the American Association for Applied and Preventive Psychology's Distinguished Media Contribution Award.

Weaveworld Clive Barker, 2021-03-30 The Seerkind, a people who possess the power to make magic, have weaved themselves into a rug for safekeeping. Now, with the last human caretaker dead, a variety of humans vie for ownership of the rug.

Psychology Carole Wade, 2010-01

Psychology Carole Wade, Carol Tavris, 2002 For one semester introductory psychology courses in both two- and four-year colleges. In addition to presenting a comprehensive and truly engaging overview of the diverse field of psychology, Wade and Tavris' *Psychology*, Seventh Edition, goes further. Through a careful and systematic presentation, modeling, and reinforcement of good scientific and critical thinking, Wade and Tavris aim to help your students assess and understand matters of direct relevance to their own health, well-being, and happiness. Indeed, helping your students become good scientific and critical thinkers is Wade and Tavris' most passionate concern.

Mindset - Updated Edition Carol Dweck,2017-01-12 World renowned Stanford University psychologist Carol Dweck in decades of research on achievement and success has discovered a truly groundbreaking idea the power of our mindset Dweck explains why it s not just our abilities and talent that bring us success but whether we approach them with a fixed or growth mindset She makes clear why praising intelligence and ability doesn t foster self esteem and lead to accomplishment but may actually jeopardize success With the right mindset we can motivate our kids and help them to raise their grades as well as reach our own goals personal and professional Dweck reveals what all great parents teachers CEOs and athletes already know how a simple idea about the brain can create a love of learning and a resilience that is the basis of great accomplishment in every area
