As the Egyptian revolution unfolded throughout 2011 and the ensuing years, no one was better positioned to comment on it—and try to push it in productive directions—than best-selling novelist and political commentator Alaa Al-Aswany. For years a leading critic of the Mubarak regime, Al-Aswany used his weekly newspaper column for Al-Masry Al-Youm to propound the revolution's ideals and to confront the increasingly troubled politics of its aftermath. This book presents, for the first time in English, all of Al-Aswany's columns from the period, a comprehensive account of the turmoil of the post-revolutionary years, and a portrait of a country and a people in flux. Each column is presented along with a context-setting introduction, as well as notes and a glossary, all designed to give non-Egyptian readers the background they need to understand the events and figures that Al-Aswany chronicles. The result is a definitive portrait of Egypt today—how it got here, and where it might be

headed. The job interview is probably the most important step you will take in your job search journey. The face of power in South Africa is rapidly changing - for better and for worse. The years since Thabo Mbeki was swept aside by Jacob Zuma's 'coalition of the wounded' have been especially

tumultuous, with the rise and fall of populist politicians such as Julius Malema, the terrible events at Marikana, and the embarrassing Guptagate scandal. What lies behind these developments? How does the Zuma presidency exercise its power? Who makes our foreign policy? What goes on in cabinet meetings? What is the state of play in the Alliance - is the SACP really more powerful than before? And, as the landscape shifts, what are the opposition's prospects? In The Zuma Years, Richard Calland attempts to answer these questions, and more, by holding up a mirror to the new establishment; by exploring how people such as Malema, Chief Justice Mogoeng Mogoeng and DA parliamentary leader Lindiwe Mazibuko have risen so fast; by examining key drivers of transformation in South Africa, such as the professions and the universities; and by training a spotlight on the toxic mix of money and politics. The Zuma Years is a fly-on-the-wall, insider's approach to the people who control the power that affects us all. It takes you along the corridors of government and corporate power, mixing solid research with vivid anecdote and interviews with key players. The result is an accessible yet authoritative account of who runs South Africa, and how, today. The WTO's Trade Policy Review Mechanism, which reviews the trade policies and practices of each WTO member at regular intervals, is generally considered to function well. In this day and age, complacency is unwise. Examining trade policy reviews throughout the lifetime of the TPRM, this book details its evolution from Article X of the General Agreement on Tariffs and Trade to the proposed modifications resulting from the mechanism's latest appraisal, examining the budgetary capabilities and technical performance of all the main entities who participate in the reviews. On the basis of these considerations, the author concludes that in order to remain relevant, especially in times of increased global protectionism, the TPRM could, and should do better, and provides

unique and timely suggestions for reform. At a time when the question of separatism is becoming increasingly significant in international politics, The Foreign Policy of Counter Secession is the first and only comprehensive account of the ways in which states fight acts of secession on the world stage. After 2000, there was a closeness in the relations of Syrian and Turkey. However, Turkey and Syria were in dispute about water, Hatay and terrorism. Especially there was an intense tension over terrorism. This tension brought the two countries to the brink of a war in 1998. We can say that the relations between Syria and Turkey normalized after Adana Agreement in 1998. When Bashar Al-Assad came to power in Syria and as did AKP in Turkey, the relations improved even further leading to the abolishment of visas in 2009. However, with the Arab Spring, the relations turned sour and reached to a point that can't be normalized anymore. This book analyses the relations between Syria and Turkey between 1998 and 2018. Recent decades have seen substantial growth in the range of assistance programmes for SMEs and entrepreneurs across the world. The range of interventions and support focused on promoting SMEs and entrepreneurship is substantial and expanding, so Government, SMEs and Entrepreneurship Development asks 'what are some of the main policy instruments being used, and how effective are they?' It considers policies in

different countries, examines key interventions and tools used to promote entrepreneurship and SME development and concludes with contributions on how to best evaluate their effectiveness. The contributor chapters by academics and practitioners from businesses, enterprise development agencies and governments, are empirical or evidence-based and use both quantitative and qualitative approaches. Drawing on experience from a wide range of both developed and emerging countries and economies, the contributions focus on the broad strategies that different governments and communities have adopted to foster entrepreneurship and SMEs; the policy tools and instruments that can be used to promote small business and entrepreneurship; and on the outcomes of policy instruments and the methods used to evaluate interventions. Their findings will help researchers, policy-makers, economic development officers, civil servants, elected officials, and business associations to better understand the issues in this important field.
