**Determination of Compressional and Shear Wave Velocity During Triaxial Compression: A Laboratory Manual**, 1994 The Naval Research Laboratory has modified a triaxial compression apparatus to include compressional and shear wave transducers for the purpose of measuring changes in compressional and shear wave velocity during consolidation This report specifies the procedures and equipment used for this purpose In general the procedures are those required for a standard triaxial compression test with the following exceptions 1 the additional steps required to obtain velocity data are included and 2 detailed procedures for shearing the sample have been excluded since determining shear strength is not our primary objective although the modified apparatus can still be used for this purpose Shear wave velocity Triaxial compression

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
