The human body is wondrously complex, with 700 muscles, 206 bones, and countless cells and tissues ... but studying and remembering all of them can be overwhelming! Instead of rote memorization, the Anatomy Coloring book helps you take an interactive approach to learning anatomy through coloring. Not only can this take less time than memorizing from textbooks and flashcards, but the process thoroughly fixes anatomical concepts in your mind for easier visual recall later.

Learning has never been more fun! It has been proven that associating images with information strongly improves the learning process. Coloring the human body and its physiology is the most effective way to learn about its functions and structures. Whether you are a med student or just passionate about human anatomy, this book will help you test yourself and memorize different parts of the body and its terminology while having fun. We wanted to differentiate our work from others! For this reason, in this new book we have added all the answers at the back of every page and, to put you to the test even more, we have added some "conditions/diseases" as a special bonus!! Features of the book: - Single-side page to avoid bleed-through - Have fun while learning!! - A perfect gift for students or anyone interested in human anatomy - More than 30 easy-to-color pages of different anatomical & physiological sections - Solutions at the end of every page - You can bring it with you wherever you go So why not give it a try and learn with ease while having fun?
