Thank Heaven... Leslie Caron, 2011-04 Spotted by Gene Kelly in Paris when she was just 17 and a member of Roland Petit's legendary ballet company Leslie Caron became an overnight sensation when Kelly brought her to Hollywood to co star with him in *An American in Paris* She recalls the days of all night parties where Judy Garland would try out her songs Gregory Peck smiled at you on the sidewalk the Duke of Windsor turned up to watch the filming and Elizabeth Taylor came to supper The toast of the town Leslie Caron went on to star in a series of famous films which she writes about with endearing candour including such classics as *Lili* *Daddy Long Legs* with Fred Astaire *Gigi* with Maurice Chevalier *Fanny* and *the L Shaped Room* However her story starts in occupied Paris and she describes vividly her family's changing fortunes under the Germans and her early successes as a young ballerina in Paris before her move to Hollywood Never less than frank Caron talks about the many men in her life including her second husband Peter Hall and Warren Beatty with whom she had a two year love affair nor does she shrink from describing her more recent battles with alcoholism and depression and movingly her triumphant recovery and continuing success in television and films including *Damage* and *Chocolat* and her adventures in converting an old warehouse in Burgundy into a lovely auberge With friends that have included Jean Renoir Vincent Minelli and Rudolf Nureyev Leslie Caron's story is rich colourful and entertaining Leslie Caron now lives in Paris

Hoosiers and the American Story Madison, James H., Sandweiss, Lee Ann, 2014-10 A supplemental textbook for middle and high school students *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history During the frontier days when Americans battled with and exiled native peoples from the East Indiana was on the leading edge of America's westward expansion As waves of immigrants swept across the Appalachians and eastern waterways Indiana became established as both a crossroads and as a vital part of Middle America Indiana's stories illuminate the history of American agriculture wars industrialization ethnic conflicts technological improvements political battles transportation networks economic shifts social welfare initiatives and more In so doing they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history At the same time the stories shed light on what it means to be a Hoosier today and in the past

The Art of Being Human Michael Wesch, 2018-08-07 Anthropology is the study of all humans in all times in all places But it is so much more than that Anthropology requires strength valor and courage Nancy Scheper Hughes noted Pierre Bourdieu called anthropology a combat sport an extreme sport as well as a tough and rigorous discipline It teaches students not to be afraid of getting one's hands dirty to get down in the dirt and to commit yourself body and mind Susan Sontag called anthropology a heroic profession What is the payoff for this heroic journey You will find ideas that can carry you across

rivers of doubt and over mountains of fear to find the the light and life of places forgotten Real anthropology cannot be contained in a book You have to go out and feel the world s jagged edges wipe its dust from your brow and at times leave your blood in its soil In this unique book Dr Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human This special first draft edition is a loose framework for more and more complete future chapters and writings It serves as a companion to anth101 com a free and open resource for instructors of cultural anthropology This 2018 text is a revision of the first draft edition from 2017 and includes 7 new chapters

Blink Malcolm Gladwell, 2007-04-03 From the 1 bestselling author of *The Bomber Mafia* the landmark book that has revolutionized the way we understand leadership and decision making In his breakthrough bestseller *The Tipping Point* Malcolm Gladwell redefined how we understand the world around us Now in *Blink* he revolutionizes the way we understand the world within *Blink* is a book about how we think without thinking about choices that seem to be made in an instant in the blink of an eye that actually aren t as simple as they seem Why are some people brilliant decision makers while others are consistently inept Why do some people follow their instincts and win while others end up stumbling into error How do our brains really work in the office in the classroom in the kitchen and in the bedroom And why are the best decisions often those that are impossible to explain to others In *Blink* we meet the psychologist who has learned to predict whether a marriage will last based on a few minutes of observing a couple the tennis coach who knows when a player will double fault before the racket even makes contact with the ball the antiquities experts who recognize a fake at a glance Here too are great failures of blink the election of Warren Harding New Coke and the shooting of Amadou Diallo by police *Blink* reveals that great decision makers aren t those who process the most information or spend the most time deliberating but those who have perfected the art of thin slicing filtering the very few factors that matter from an overwhelming number of variables

Corcoran Gallery of Art Corcoran Gallery of Art, Sarah Cash, Emily Dana Shapiro, Jennifer Carson, 2011 This authoritative catalogue of the Corcoran Gallery of Art s renowned collection of pre 1945 American paintings will greatly enhance scholarly

and public understanding of one of the finest and most important collections of historic American art in the world Composed of more than 600 objects dating from 1740 to 1945 Trust in Numbers Theodore M. Porter,2020-08-18 A foundational work on historical and social studies of quantification What accounts for the prestige of quantitative methods The usual answer is that quantification is desirable in social investigation as a result of its successes in science Trust in Numbers questions whether such success in the study of stars molecules or cells should be an attractive model for research on human societies and examines why the natural sciences are highly quantitative in the first place Theodore Porter argues that a better understanding of the attractions of quantification in business government and social research brings a fresh perspective to its role in psychology physics and medicine Quantitative rigor is not inherent in science but arises from political and social pressures and objectivity derives its impetus from cultural contexts In a new preface the author sheds light on the current infatuation with quantitative methods particularly at the intersection of science and bureaucracy

Strange True Stories of Louisiana George W. Cable,2018-09-20 Reproduction of the original Strange True Stories of Louisiana by George W Cable **Passionate Politics** Jeff Goodwin,James M. Jasper,Francesca Polletta,2009-03-09 Emotions are back Once at the center of the study of politics emotions have receded into the shadows during the past three decades with no place in the rationalistic structural and organizational models that dominate academic political analysis With this new collection of essays Jeff Goodwin James M Jasper and Francesca Polletta reverse this trend reincorporating emotions such as anger indignation fear disgust joy and love into research on politics and social protest The tools of cultural analysis are especially useful for probing the role of emotions in politics the editors and contributors to Passionate Politics argue Moral outrage the shame of spoiled collective identities or the joy of imagining a new and better society are not automatic responses to events Rather they are related to moral institutions felt obligations and rights and information about expected effects all of which are culturally and historically variable With its look at the history of emotions in social thought examination of the internal dynamics of protest groups and exploration of the emotional dynamics that arise from interactions and conflicts among political factions and individuals Passionate Politics will lead the way toward an overdue reconsideration of the role of emotions in social movements and politics generally Contributors Rebecca Anne Allahyari Edwin Amenta Collin Barker Mabel Berezin Craig Calhoun Randall Collins Frank Dobbin Jeff Goodwin Deborah B Gould Julian McAllister Groves James M Jasper Anne Kane Theodore D Kemper Sharon Erickson Nepstad Steven Pfaff Francesca Polletta Christian Smith Arlene Stein Nancy Whittier Elisabeth Jean Wood Michael P Young *The Restoration of Engravings, Drawings, Books, and Other Works on Paper* Max Schweidler,2006 Ever since its original publication in Germany in 1938 Max Schweidler s *Die Instandsetzung von Kupferstichen Zeichnungen Buchern usw* has been recognized as a seminal modern text on the conservation and restoration of works on paper To address what he saw as a woeful dearth of relevant literature and in order to assist those who have set themselves the goal of preserving cultural treasures the noted German

restorer composed a thorough technical manual covering a wide range of specific techniques including detailed instructions on how to execute structural repairs and alterations that if skilfully done can be virtually undetectable By the mid twentieth century curators and conservators of graphic arts discovering a nearly invisible repair in an old master print or drawing might comment that the object had been Schweidlerized This volume based on the authoritative revised German edition of 1949 makes Schweidler s work available in English for the first time in a meticulously edited and annotated critical edition The editor s introduction places the work in its historical context and probes the philosophical issues the book raises while some two hundred annotati

The Brick Moon, and Other Stories Edward Everett Hale,1899

The Voynich Manuscript M. E. D'Imperio,1978 In spite of all the papers that others have written about the manuscript there is no complete survey of all the approaches ideas background information and analytic studies that have accumulated over the nearly fifty five years since the manuscript was discovered by Wilfrid M Voynich in 1912 This report pulls together all the information the author could obtain from all the sources she has examined and to present it in an orderly fashion The resulting survey will provide a firm basis upon which other students may build their work whether they seek to decipher the text or simply to learn more about the problem

The World, the Text, and the Critic Edward W. Said,1983 Said demonstrates that critical discourse has been strengthened by the writings of Derrida and Foucault and by influences like Marxism structuralism linguistics and psychoanalysis But he argues these forces have compelled literature to meet the requirements of a theory or system ignoring complex affiliations binding the texts to the world
