Selling Contract Cleaning Services 101 Richard D. Ollek,2008-08 This book chronicles God s involvement with America in the past up to the present times While researching America s birth it is easy to witness the hand of God working through faithful men to help create the foundations of this great country This is easily demonstrated through the words of the Founding Fathers and the miraculous victory of a small rag tag militia over the world s greatest superpower of the day Great Britian The author also demonstrates amazing parallels between the formation of this country and God s work in the creation of Israel in the days of David and Solomon During the middle 1800s many religions and philisophies began to pervade the American consciousness Many cults found there growth out of this time peroid and the world was reshaped by the philosophical outgrowth of Darwinism and his godless explanation of the evolution of life Eugenics followed on the heels of Darwinism which set the stage for the bloodiest century in the history of humanity This paradigm shift in the American consiousness reached its full fruition in the creation of the Federal Reserve the Great Depression and the carnage of WWI and WWII Humanity s answer to the carnage of WWII was not to repent to a Holy God but to create the foundation of a One World Superstate known as the United Nations The United Nations will never be able to achieve its stated goal as long as the United States is more powerful that this organization Nevertheless since the U S has drifted so far from God s word we find that the ultimate fate of our country is sealed by our revelations of God and His judgment You will be amazed to discover just how much the bible has to say about America s future

Life'S a Bitch Gary B. Boyd,2017-10-18 Trey Managuas and Polly Anne Dodgems dreams were not the same but they were compatible Trey was unemployed at the age of sixty the victim of a factory closure He was too young to retire and too old to attract an employer His dream was to work until he was sixty six and retire with a comfortable nest egg for his golden years Polly Anne was an innovator and entrepreneur After years of research she had finally developed a process by which she could regenerate usable cotton fiber from textile scraps By regenerating the fiber from scraps her black box process would easily reduce the use of landfill space used for untold tons of textile waste More importantly her use of regenerated fiber would reduce the number of acres of land required to grow cotton which in turn would reduce the volume of chemicals and amount of water used to make that cotton grow Her dream was to make a difference in peoples lives She only needed a manufacturing facility and skilled workers to commercialize her process Treys recently shuttered nonwovens factory offered the opportunity for Polly Anne to engage in manufacturing products using her regenerated cotton fiber It was a match made in heaven Praise the Lord
