The Oxford Handbook of Industrial Policy Arkebe Oqubay, Christopher Cramer, Ha-Joon Chang, Richard Kozul-Wright, 2020-10-19 Industrial policy has long been regarded as a strategy to encourage sector industry or economy wide development by the state It has been central to competitiveness catching up and structural change in both advanced and developing countries It has also been one of the most contested perspectives reflecting ideologically inflected debates and shifts in prevailing ideas There has lately been a renewed interest in industrial policy in academic circles and international policy dialogues prompted by the weak outcomes of policies pursued by many developing countries under the direction of the Washington Consensus and its descendants the slow economic recovery of many advanced economies after the 2008 global financial crisis and mounting anxieties about the national consequences of globalization The Oxford Handbook of Industrial Policy presents a comprehensive review of and a novel approach to the conceptual and theoretical foundations of industrial policy The Handbook also presents analytical perspectives on how industrial policy connects to broader issues of development strategy macro economic policies infrastructure development human capital and political economy By combining historical and theoretical perspectives and integrating conceptual issues with empirical evidence

drawn from advanced emerging and developing countries The Handbook offers valuable lessons and policy insights to policymakers practitioners and researchers on developing productive transformation technological capabilities and international competitiveness It addresses pressing issues including climate change the gendered dimensions of industrial policy global governance and technical change Written by leading international thinkers on the subject the volume pulls together different perspectives and schools of thought from neo classical to structuralist development economists to discuss and highlight the adaptation of industrial policy in an ever changing socio economic and political landscape

Caste Matters Suraj Yengde,2019 In this explosive book Suraj Yengde a first generation Dalit scholar educated across continents challenges deep seated beliefs about caste and unpacks its many layers He describes his gut wrenching experiences of growing up in a Dalit basti the multiple humiliations suffered by Dalits on a daily basis and their incredible resilience enabled by love and humour As he brings to light the immovable glass ceiling that exists for Dalits even in politics bureaucracy and judiciary Yengde provides an unflinchingly honest account of divisions within the Dalit community itself from their internal caste divisions to the conduct of elite Dalits and their tokenized forms of modern day untouchability all operating under the inescapable influences of Brahminical doctrines This path breaking book reveals how caste crushes human creativity and is disturbingly similar to other forms of oppression such as race class and gender At once a reflection on inequality and a call to arms Caste Matters argues that until Dalits lay claim to power and Brahmins join hands against Brahminism to effect real transformation caste will continue to matter
