The system won't do it for us. But we have each other. In *The Imperfect and Unfinished Math Teacher: A Journey to Reclaim Our Professional Growth*, master storyteller Chase Orton offers a vulnerable and courageous grassroots guide that leads K-12 math teachers through a journey to cultivate a more equitable, inclusive, and cohesive culture of professionalism for themselves...what he calls professional flourishing. The book builds from two bold premises. First, that as educators, we are all naturally imperfect and unfinished, and growth should be our constant goal. Second, that the last 40 years of top-down PD efforts in mathematics have rarely supplied teachers with what they need to equitably grow their practice and foster classrooms that are likewise empowered, inclusive, and cohesive. With gentle humanity, this book inspires teachers to break down silos, observe each others' classrooms, interrogate their own biases, and put students at the center of everything they do

in the math classroom. This book: Weaves raw and authentic stories—both personal and those from other educators—into a relatable and validating narrative Offers interactive opportunities to self-reflect, build relationships, seek new vantage on our teaching by observing others' classrooms and students, and share and listen to other's stories and experiences Asks teachers to give and accept grace as they work collaboratively to better themselves and the system from within, so that they can truly serve each of their students authentically and equitably Implementing the beliefs and actions in this book will position teachers to become more active partners in each other's professional growth so that they can navigate the obstacles in their professional landscape with renewed focus and a greater sense of individual and collective efficacy. It equips teachers—and by extension, their students—to chart their own course and author their own equitable and joyful mathematical and professional stories. Over 3 million copies have been sold of the preeminent book on classroom management and teaching for lesson achievement. The book walks a teacher, either novice or veteran, through the most effective

ways to begin a school year and continue to become an effective teacher. This is the most basic book on how to teach. Every teacher and administrator needs to have a copy. The book is used in thousands of school districts, in over 65 countries, and in over 1000 college classrooms. It works and it's inspiring. Included in this 3rd edition is a free 38 minute Enhanced CD, Never Cease to Learn. This bonus CD features Harry Wong with a special introduction by Rosemary Wong. The motivational message delivered is one all educators must hear and see. Good behaviour is the beginning of great learning. All children deserve classrooms that are calm, safe spaces where everyone is treated with dignity. Creating that space is one of the most important things a teacher needs to be able to do. But all too often teachers begin their careers with the bare minimum of training - or worse, none. How students behave, socially and academically, dictates whether or not they will succeed or struggle in school. Every child comes to the classroom with different skills, habits, values and expectations of what to do. There's no point just telling a child to behave; behaviour must be taught. Behaviour is a curriculum. This simple truth is the beginning of creating a classroom culture where everyone flourishes, pupils and staff. Running the Room is the teacher's guide to behaviour. Practical, evidence informed, and based on the expertise of great teachers from around the world, it addresses the things teachers really need to know to build the classrooms children need.

Bursting with strategies, tips and solid advice, it brings together the best of what we know and saves teachers, new or old, from reinventing the wheels of the classroom. It's the book teachers have been waiting for. The explosive finale to Scholastic's mega-selling series.
