Luego, el documento nos aproxima al concepto de corrupción indicando que ésta se puede entender como un fenómeno cíclico que se auto refuerza y en donde sus causas y consecuencias se sustentan mutuamente. Factores como la desigualdad social, los inadecuados diseños institucionales, los incentivos perversos para el oportunismo, la impunidad frente a las prácticas corruptas y la aceptación social de la corrupción son, en diferentes momentos, simultáneamente causas y consecuencias del fenómeno. Plantea el documento que a partir de los análisis recientes sobre el fenómeno, la corrupción se entiende como "el uso del poder para desviar la gestión de lo público hacia el beneficio privado". Esto implica que las prácticas corruptas son realizadas por actores públicos y/o privados con poder e incidencia en la toma de decisiones y en la administración de los bienes públicos. La corrupción, por tanto, es un fenómeno complejo y multidimensional que incide negativamente en los ámbitos económico, social, cultural, político y ético de una sociedad; que además afecta las condiciones de vida de los ciudadanos y sus capacidades para el Desarrollo Humano. The second day focused on the current needs of cross language systems and how evaluation campaigns in the future can best be designed to stimulate progress. The workshop was attended by nearly 50 researchers and system developers from both academia and industry. It provided an important opportunity for researchers working in the same area to get together and exchange ideas and experiences. Copies of all the presentations are available on the CLEF web site at <http://www.clef-campaign.org>. This volume contains thoroughly revised and expanded versions of the papers presented at the workshop and provides an exhaustive record of the CLEF 2001 campaign.
