Fashionable Nonsense Alan Sokal,Jean Bricmont,2014-01-14 In 1996 physicist Alan Sokal published an essay in Social Text an influential academic journal of cultural studies touting the deep similarities between quantum gravitational theory and postmodern philosophy Soon thereafter the essay was revealed as a brilliant parody a catalog of nonsense written in the cutting edge but impenetrable lingo of postmodern theorists The event sparked a furious debate in academic circles and made the headlines of newspapers in the U S and abroad In Fashionable Nonsense Postmodern Intellectuals Abuse of Science Sokal and his fellow physicist Jean Bricmont expand from where the hoax left off In a delightfully witty and clear voice the two thoughtfully and thoroughly dismantle the pseudo scientific writings of some of the most fashionable French and American intellectuals More generally they challenge the widespread notion that scientific theories are mere narrations or social constructions

After Theory Terry Eagleton,2004-08-26 The golden age of cultural theory the product of a decade and a half from 1965 to 1980 is long past We are living now in its aftermath in an age which having grown rich in the insights of thinkers like Althusser Barthes and Derrida has also moved beyond them What kind of new fresh thinking does this new era demand Eagleton concludes that cultural theory must start thinking ambitiously again not so that it can hand the West its legitimation but so that it can seek to make sense of the grand narratives in which it is now embroiled

The Postmodern Representation of Reality in Peter Ackroyd's Chatterton Arya Aryan,2022-06-08 This book explores the postmodernist representation of reality and argues that historiographic metafictional texts such as Peter Ackroyd s Chatterton 1987 are hetero referential in their creation of a heterocosm as opposed to representational and anti representational views of art It argues that postmodernist historiographic metafiction is not simply self referential but hetero referential consciously revealing the paradoxes of self referentiality while simultaneously creating a heterocosmic world where the text is capable of referring to an external reality The book highlights Chatterton s narrative strategies and techniques which result in revealing the text s meaning granting process The novel acknowledges the existence of reality and the text s possibility of representation but contends that reality is a human construct In addition the book demonstrates that representation is possible through fictive referents and thus hetero referential

Postmodernism and the Environmental Crisis Arran Gare,2006-08-21 Postmodernism and the Environmental Crisis is the only book to combine cultural theory and environmental philosophy In it Arran Gare analyses the conjunction between the environmental crisis the globalisation of capitalism and the disintegration of the culture of modernity It explains the paradox of growing concern for the environment and the paltry achievements of environmental movements Through a critique of the philosophies underlying approaches to the environmental crisis Arran Gare puts forward his own controversial theory of a new postmodern world view This would be the foundation for the environmental movement to succeed Arran Gare s work will be a vital reading for advanced students of environmental studies as well as for environmental philosophers and cultural theorists

Illusions Maya N. Natarajan,2020-06-07 Maya is the key to unlock the secret of the trio Universe God Lives This book is an attempt to explain the role of Maya the power that runs the lives in the universe If anyone understood Maya properly two purposes would be served The first Most human problems have its root to Maya We understand Maya through the help of vedic knowledge seen through the eyes of Science and Logic Then most of those worldly problems will not trouble us The second Those who understand Maya can fight Maya and win over it Then the winner becomes an elevated soul or men of knowledge variously called saint siddhar sufi or a Zen master Men of knowledge Gnani is freed from the clutches of Maya and its weird ways of steering our lives After winning Maya through a sustained effort and acquiring the knowledge on universe can one can reach and shake hands with the creator Winning Maya is not that simple It is not very difficult to understand what Maya is But it is not possible that everyone who understand Maya win Maya Even if one understands Maya he becomes a Gyani Mere Knowledge is not enough Knowledge is necessary to win over the Maya But not sufficient Winning Maya calls for a sustained effort The influence of Maya is so strong that it would bring you back under its influence even after you understand Maya We can find several Examples from our lives

Grassroots Postmodernism Gustavo Esteva, Madhu Suri Prakash, 2014-08-14 With the publication of this remarkable book in 1998 Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture Grassroots Post modernism attacks the three sacred cows of modernity global thinking the universality of human rights and the self sufficient individual Rejecting the constructs of development in all its forms Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives shifting this control to bureaucrats technocrats and educators Rather than presuming that human progress fits a predetermined mould leading towards an increasing homogenization of cultures and lifestyles the authors argue for a radical pluralism that honours and nurtures distinctive cultural variety and enables many paths to the realization of self defined aspirations This classic text is essential reading for those looking beyond neoliberalism the global project and the individual self

Marx Through Post-Structuralism Simon Choat,2010-06-17 Marx Through Post Structuralism presents a thorough critical examination of the readings of Marx given by four post structuralist thinkers all key figures in Continental philosophy Jean Fran ois Lyotard Jacques Derrida Michel Foucault and Gilles Deleuze Arguing that both Marx and the post structuralists seek to produce a genuinely materialist philosophy the author aims to develop a better understanding of both Marx and post structuralism and in so doing to reflect on the possibilities and problems for materialist philosophy more broadly Against the common assumption that post structuralism begins with a rejection of Marx Choat argues that Marx has been a key influence on post structuralist thought and that each of the four thinkers examined affirms Marx s contemporary significance By looking at how these thinkers have read Marx analysing their direct comments unspoken uses and implicit criticisms the book demonstrates that there is a distinct and original post structuralist approach to Marx that allows us to read him in a new light
