In the 21st century, digital tools enable information to be generated faster and in greater profusion than ever before, to the point where its extent and value are literally beyond imagining. Such quantities can only be meaningfully addressed using more digital tools, and thus our relationship to information is fundamentally changed. This situation presents a particular challenge to processes of learning and teaching, and demands a response from both information professionals and educators. Enabling education in a digital environment means not only changing the form in which learning opportunities are offered, but also enabling students to survive and prosper in digitally based learning environments. This collection brings together a global community of educators, educational researchers, librarians and IT strategists, to consider how learners need to be equipped in an educational environment that is increasingly suffused with digital technology. Traditional notions of literacy need to be challenged, and new literacies, including information literacy and IT literacy, need to be considered as foundation elements for digitally involved learners. Leading international experts from the USA, Canada, Australia, New Zealand, South Africa, Mexico and throughout Europe contribute to the debate, and Hannelore Rader, Librarian and Dean of the University Libraries, University of Louisville, Kentucky, provides the foreword. The book is in two parts: In Part 1, Literacies in the Digital Age, the contributors analyse how digital technologies have enabled transformative change in the ways in which learning can be constructed, and discuss the nature of the new literacies that have emerged in this new virtual and e-learning environment. In Part 2, Enabling and Supporting Digital Literacies, the contributors go on to consider the ways in which digital literacies can be made available to learners, and how these literacies are being relocated in a more student-centred environment within the broader perspective of learning. Readership: This book takes the issues raised in the successful Information and IT Literacy, also co-edited by Allan Martin, into a broader context. It is essential reading for all information professionals and educators involved in developing strategies and practices for learning in a digital age. This volume presents authoritative and up-to-date research in colour studies by specialists across a wide range of academic disciplines, including vision science, psychology, psycholinguistics, linguistics, anthropology, onomastics, philosophy, archaeology and design. The chapters have been developed from papers and posters presented at the Progress in Colour Studies (PICS2016) conference held at University College London in September 2016. The book continues the series from the earlier PICS conferences, which have become renowned for their insights into colour in language and cognition. In the present book all chapters have been rigorously peer-reviewed and revised to ensure the highest standards throughout. The chapters are grouped into three sections: Colour Perception and Cognition;

The Language of Colour; and The Diversity of Colour. Each section is preceded by a short introduction drawing together the themes of its chapters. There are over 120 colour illustrations. Gone are the days when researchers and students were forced to search through journals for the best way to construct a table of results. Updated to reflect current standards in reporting and graphic displays, *Presenting Your Findings: A Practical Guide for Creating Tables*, Sixth Edition, provides invaluable guidance on the proper table format for a wide range of statistical analyses in an engaging and accessible format. The authors have included statistics commonly used in analyses to make the book as useful as possible for researchers and students and have organized the chapters according to the complexity of the statistic. Each chapter is devoted to a different statistic and provides a variety of examples of how data could best be displayed. Included for each statistic is a "Play It Safe" table that illustrates the most comprehensive formatting options. This definitive resource for how to build tables will eliminate editorial drudgery and free up your time for more gainful pursuits. *Flourishing in Emerging Adulthood* highlights the third decade of life as a time in which individuals have diverse opportunities for positive development. There is mounting evidence that this time period, at least for a significant majority, is a unique developmental period in which positive development is fostered. Dr. Lene Arnett Jensen highlights the importance of this work in an engaging foreword, and chapters are written by leading scholars in diverse disciplines who address various aspects of flourishing. They discuss multiple aspects of positive development including how young people flourish in key areas of emerging adulthood (e.g., identity, love, work, worldviews), the various unique opportunities afforded to young people to flourish, how flourishing might look different around the world, and how flourishing can occur in the face of challenge. Most chapters are accompanied by first-person essays written by a range of emerging adults who exemplify the aspect of flourishing denoted in that chapter and make note of how choices and experiences have helped them transition to adulthood. Taken together, this innovative collection provides rich evidence and examples of how young people are flourishing as a group and as individuals in a variety of settings and circumstances. This unique resource will be useful to students, faculty, professionals, clinicians, and university personnel who work with young adults or who study development during emerging adulthood. This essential overview of what it means to be a library and information professional today provides a broad overview of the transformation of libraries as information organizations, why these organizations are more important today than ever before, the technological influence on how we provide information resources and services in today's digital and global environment, and the various career opportunities available for information professionals. The book begins with a historical overview of libraries and their transformation as information and technology hubs within their communities. It also covers the various specializations within the field emphasizing the exciting yet complex roles and opportunities for information professionals. With that foundation in place, it presents how libraries serve different kinds of communities, highlighting the unique needs of users across all ages and how libraries fulfill those needs through a variety of services, and addresses key issues facing information organizations as they meet user needs in the Digital Age. The book then concludes with career management strategies to guide library and information science professionals in building not only vibrant careers but vibrant information organizations for the future as well. Interior Design Reference Manual By David Kent Ballast Follows the voyages of Italian explorer John Cabot. The Publication Manual of the American Psychological Association is the style manual of choice for writers, editors, students, and educators in the social and behavioral sciences, nursing, education, business, and related disciplines. Most students struggle with learning how to find references, use them effectively, and cite them appropriately in a required format. One of the most common formats is that of APA. The authors all have vast experience teaching writing courses to various levels of students from undergraduates to graduates in other countries. However, there was lacking a book that could explain the basics of APA in simple, easy-to-understand language for non-native speakers of English, who are often unfamiliar with using references and formatting an essay in a particular method. In order to offer English Learner student writers a source of information that is appropriate for their level, and is cost-effective, this updated APA 7th edition guidebook provides students with important information in clear, concise, user-friendly language, as well as to offer practical examples that will help them grasp the concept of secondary research writing. Much of the published materials on the

market targets native speakers of English. The problem with this is that they present the nitpicky details of APA in ways that do not make sense to native speakers of English, let alone to those for whom English is not their first language, because the information is presented in very technical terms that are not easy to understand. This handbook presents the same information in simplified terms with images and step-by-step instructions in ways that make sense to both native and non-native English speaking student writers. Additionally, student writers often struggle with understanding the concept of plagiarism, as well as how to find sources, evaluate the appropriateness of sources, and use sources in effective ways (e.g., how to integrate quotes, when to paraphrase, among others). This book provides this important information that is concise and easy to understand. NOTE: This is a REVISED edition of our original The Concise APA Handbook, which has been updated for APA 7th edition, which was issued in the fall, 2019. Your students need clear, complete answers to their questions about grammar, research, and writing in the social sciences—and they often need them at a moment’s notice. As their teacher, you are their greatest resource, but you can’t be available 24/7. For help with work in class and at home and especially for questions at odd hours, students can turn to A Pocket Style Manual, APA Version. The APA version of A Pocket Style Manual provides help for students writing in disciplines that use APA style: psychology, sociology, economics, criminal justice, nursing, education, business, and others. With a focus on APA conventions and practices, examples and models from across the disciplines, and guidelines for integrating and documenting a wide variety of sources, A Pocket Style Manual, APA Version, gives concise, straightforward, and trusted advice for any writing situation. On the day of her father's funeral, twenty-eight-year-old Clarissa Iverton discovers that he wasn't her biological father after all. Her mother disappeared fourteen years earlier, and her fiancé has just revealed a life-changing secret to her. Alone and adrift, Clarissa travels to mystical Lapland, where she believes she'll meet her real father. There, at a hotel made of ice, Clarissa is confronted with the truth about her mother's history, and must make a decision about how—and where—to live the rest of her life.
