These official Saab manuals are the only factory-authorized, comprehensive, single source of service information and specifications available. Whether you're a professional technician or a do-it-yourselfer, these manuals will help you understand, care for, and repair your Saab. Everything from fundamental automotive concepts and maintenance procedures to complex electrical system troubleshooting and complete engine overhaul is clearly explained. Critical updates and information from the Saab Service Information Manual, the Parts & Service Information System and Saab Service Training have been included, as well as fast, proven repair procedures and tips used by Saab technicians. This manual was prepared in close cooperation with British Leyland Motors in order to provide complete, authentic and up-to-date maintenance and repair information to owners, dealership service departments, and other professional mechanics. The Workshop Manual is the official factory manual and includes information from the Driver's Handbook, which is the handbook provided with every new Austin-Healey. This manual contains emission control information that applies specifically to Austin-Healeys manufactured for the United Kingdom and North American markets, and a complete, illustrated catalogue of special tools. The publisher has incorporated additional factory procedures and specifications that have become available following the publication of the original factory information. This manual is therefore the most up-to-date, accurate, and comprehensive service information available for the Austin-Healey. Model D-19; Models 180*, 185*, 190*, 190XT*, 200**, 7000**; Models D-21**, D-21 Series II**, Two-Ten**, Two-Twenty**, Models 7010**, 7020**, 7030**, 7040**, 7045**, 7050**, 7060**, 7080** *Gas and diesel **Diesel OVERVIEW: a.
